

Additional comments

Under Australia's national environmental legislation - the Environment Protection and Biodiversity Conservation Act 1999 and Environment Protection and Biodiversity Conservation Regulations 2000, some Appendix II CITES specimens (that are not captive bred or artificially propagated) cannot be imported commercially unless there is a commercial import program (CIP) in place. The CIP must be an approved program by the Australian Scientific Authority. The Scientific Authority makes its own non-detriment finding from information which is obtained from the exporting country. The specimens which are included in this stricter domestic measure are:

- Ramin (*Gonystylus* spp.)
- Beluga sturgeon (*Huso huso*) originating from the Caspian Sea
- South African Ghaap (*Hoodia gordonii*), and
- All specimens originating from countries not a Party to CITES.

All elephants and elephant products, and cetaceans are treated as if they were CITES Appendix I for the purposes of import to, and export from, Australia.

Australia requires the issuance of an Australian CITES import permit for Appendix II specimens which are imported into Australia. This excludes personal and household effects exemptions.

Australia also has a list of Appendix II specimens, where permits are always required for their import to, or export from, Australia (regardless of the purpose of import i.e. whether or not they are personal and household effects). These include:

- Order Falconiformes (birds of prey)
- Order Strigiformes (birds of prey)
- Sub family Lutrinae (otters)
- Family Felidae (cats)
- Family Ursidae (bears)
- Genus *Arctocephalus* (seals)
- *Ammotragus lervia* (Barbary sheep)
- *Bison bison athabasca* (wood bison)
- *Cephalophus jentinki* (Jentink's duiker)
- *Equus zebra hartmannae* (Hartmann's mountain zebra)
- *Hippopotamus amphibius* (hippopotamus)
- *Kobus leche* (lechwe), and
- *Ovis canadensis* (bighorn or mountain sheep).

6	What were the results of any review or assessment of the effectiveness of CITES legislation, with regard to the following items?	Tick all applicable			
Item	Adequate	Partially Inadequate	Inadequate	No information	
Powers of CITES authorities	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Clarity of legal obligations	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Control over CITES trade	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Consistency with existing policy on wildlife management and use	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Coverage of law for all types of offences	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Coverage of law for all types of penalties	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Implementing regulations	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Coherence within legislation	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Other (please specify):	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<p>Please provide details if available:</p> <p>The Australian CITES Management and Scientific Authorities are committed to continuous improvement of the effectiveness of Australian CITES legislation.</p> <p>In May 2010, the Governor-General of Australia made amendments to the Environment Protection and Biodiversity Conservation Regulations 2000 (the Regulations). The amendments increase clarity of, and outline Australia’s legislative requirements for: the import or export of personal and household effects; approved captive breeding programs; artificial propagation programs; and approved aquaculture programs. The amendments also enhance the streamlining of Australia’s national legislation with CITES requirements.</p> <p>The review of the Environment Protection and Biodiversity Conservation Act 1999 (EPBC Act) and Regulations that was reported on in the last biennial report has also progressed. The final report of the review of the EPBC Act was delivered to the Federal Environment Minister on 30 October 2009 and publicly released on 21 December 2009.</p> <p>On 24 August 2011, the Federal Environment Minister released the government response to the independent review of the EPBC Act, which includes reforms to international wildlife regulations. These reforms will be implemented over the next biennial reporting period.</p> <p>For further information on the reforms see recommendation 42 at: http://www.environment.gov.au/epbc/publications/epbc-review-govt-response.html</p>					
7	If no review or assessment has taken place, is one planned for the next reporting period?	Yes	<input checked="" type="checkbox"/>		
		No	<input type="checkbox"/>		
		No information	<input type="checkbox"/>		

	Please provide details if available: The government response to the EPBC Act independent review was released in August 2011. Recommendations and findings will be implemented over the next biennial reporting period. This is likely to involve further reviews and assessment of legislative provisions and operational policies.			
8	Has there been any review of legislation on the following subjects in relation to implementation of the Convention?	Tick all applicable		
	Subject	Yes	No	No information
	Access to or ownership of natural resources	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	Harvesting	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	Transporting of live specimens	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	Handling and housing of live specimens	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	Please provide details if available:			
9	Please provide details of any additional measures taken: N/a			

C. Compliance and enforcement measures

		Yes	No	No information
1	Have any of the following compliance monitoring operations been undertaken?			
	Review of reports and other information provided by traders and producers:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Inspections of traders, producers, markets	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Border controls	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Other (specify)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2	Have any administrative measures (e.g. fines, bans, suspensions) been imposed for CITES-related violations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3	<p>If Yes, please indicate how many and for what types of violations? If available, please attach details.</p> <p>All violations listed below are generally for imports of CITES specimens without the correct documentation or permits.</p> <p>In 2009, 3083 Seizure Notices and 1631 Caution Notices were issued.</p> <p>In 2010, 2059 Seizure Notices and 1351 Caution Notices were issued.</p> <p>See Annex for more information.</p>			
4	Have any significant seizures, confiscations and forfeitures of CITES specimens been made?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

5	If information available: <input type="checkbox"/> Significant seizures/confiscations <input checked="" type="checkbox"/> Total seizures/confiscations If possible, please specify per group of species or attach details.	Number 5097 (2009 and 2010)		
6	Have there been any criminal prosecutions of significant CITES-related violations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7	If Yes, how many and for what types of violations? If available, please attach details as Annex. See Annex.			
8	Have there been any other court actions of CITES-related violations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9	If Yes, what were the violations involved and what were the results? Please attach details as Annex. See Annex			
10	How were the confiscated specimens usually disposed of? – Return to country of export – Public zoos or botanical gardens – Designated rescue centres – Approved, private facilities – Euthanasia – Other (specify)	Tick if applicable <input type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/>		
Comments: The majority of confiscated live specimens are euthanased, as the origin and background/genetics of the specimens are unknown. For this reason, they generally cannot be used in zoo captive breeding programs; or cannot be sent back to the country of origin. The biosecurity risk of many reptile and bird species is also too high and represents a significant disease risk to endemic species. For wildlife products (including parts and derivatives of wildlife), the majority of these are destroyed. In a few cases, these products and items are used by the Department for educational purposes, or displays at Australian Customs and Border Protection Service and Australian Quarantine Inspection Service facilities.				

11	Has detailed information been provided to the Secretariat on significant cases of illegal trade (e.g. through an ECOMESSAGE or other means), or information on convicted illegal traders and persistent offenders?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not applicable <input type="checkbox"/> No information <input type="checkbox"/>	
Comments: ECOMESSAGES have been sent in relation to the Interpol led Operations TRAM (traditional medicines containing CITES-listed ingredients) and RAMP (reptiles and amphibians). A number of other ECOMESSAGES have been sent regularly including intelligence reports about the Rhino trade. The Australian CITES enforcement authority also made a submission to the Nairobi Task Force about Rhino horn.			
12	Have there been any cooperative enforcement activities with other countries (e.g. exchange of intelligence, technical support, investigative assistance, joint operation, etc.)?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> No information <input type="checkbox"/>	
13	If Yes, please give a brief description: Australia participated in the Interpol initiated Operation TRAM (traditional medicines containing CITES-listed ingredients) and RAMP (reptiles and amphibians). Australia worked closely with NZ during TRAM and RAMP. The Australian CITES enforcement authority also worked with Belgium Customs, German CITES and South African wildlife authorities relating to Rhino horn trade. The Australian CITES enforcement authority worked with US Fisheries and Wildlife Service relating to an alleged illegal Dingo export case (which was CITES listed at the time). An Australian representative worked in the INTERPOL office for two weeks in December 2010.		
14	Have any incentives been offered to local communities to assist in the enforcement of CITES legislation, e.g. leading to the arrest and conviction of offenders?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> No information <input type="checkbox"/>	
15	If Yes, please describe: N/a		
16	Has there been any review or assessment of CITES-related enforcement?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not applicable <input type="checkbox"/> No information <input type="checkbox"/>	

	<p>Comments:</p> <p>Three main areas have been reviewed in relation to CITES-related enforcement. These include:</p> <p>1. Intelligence capability</p> <p>The Australian Enforcement Authority has increased its capacity to gather and analyse intelligence in an effort to tackle the issue of organised criminal networks involved in illegal international wildlife trade crime.</p> <p>2. Compliance and enforcement plans</p> <p>These are developed and implemented for specific species (or groups of species) where a customised approach is considered necessary for effective regulation. Compliance and enforcement plans may be developed in circumstances where:</p> <p>a) the species represent a large (or increasing) proportion of seized items</p> <p>b) the species represents the current strategic focus of compliance and enforcement efforts; or</p> <p>c) legislative changes have recently been made to the regulation of a particular species.</p> <p>3. Monitoring permit holders to assess compliance levels</p> <p>A permit review system has been implemented for the purpose of ensuring that goods containing wildlife have been obtained from approved sources. Either desktop or on-site reviews are performed for the purpose of protecting wildlife that may be adversely affected by trade.</p>
17	Please provide details of any additional measures taken:

D. Administrative measures

D1 Management Authority (MA)

1	Have there been any changes in the designation of or contact information for the MA(s) which are not yet reflected in the CITES Directory?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> No <input type="checkbox"/>	information <input type="checkbox"/>
2	If Yes, please use the opportunity to provide those changes here.		

3	If there is more than one MA in your country, has a lead MA been designated?	Yes No No information	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
4	If Yes, please name that MA and indicate whether it is identified as the lead MA in the CITES Directory. N/a		
5	How many staff work in each MA? approx. 15 in one MA		
6	Can you estimate the percentage of time they spend on CITES-related matters? If yes, please give estimation 70%	Yes No No information	<input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
7	What are the skills/expertise of staff within the MA(s)? – Administration – Biology – Economics/trade – Law/policy – Other (specify) – No information	Tick if applicable	<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
8	Have the MA(s) undertaken or supported any research activities in relation to CITES species or technical issues (e.g. labelling, tagging, species identification) not covered in D2(8) and D2(9)?	Yes No No information	<input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>

9	<p>If Yes, please give the species name and provide details of the kind of research involved.</p> <p>There have been research activities relating to crocodiles, in particular relating to the review of crocodile skin tagging arrangements to identify a 'better' tagging approach. There has also been consultation with international management authorities to look at whether the year of production on tags of crocodile skin products should be removed.</p> <p>Another research activity, in consultation with WCMC and the Australian Biological Resource Study, has been the development of a list that to assist exporters in using CITES-recognised coral taxonomy. This activity is ongoing, and is expected to be completed in the next biennial reporting period.</p> <p>The Management Authority developed operational procedures for Goldenseal (<i>Hydrastis canadensis</i>) to assist the Australian Customs and Border Protection Service officers, and departmental officers to consistently apply regulation to products which were imported into Australia (Australia received an influx of this product over the reporting period). The annotation for <i>H. canadensis</i> caused some technical issues with regards to which products were exempt from CITES and which were included. A table was developed which included the various forms in which Goldenseal could be encountered and what regulation (if any) would apply. This was based on Australia's interpretation of the annotation and clarification from the CITES Secretariat. Similar operational procedures are in development for South African Ghaap (<i>Hoodia gordonii</i>), which still constitutes the majority of Australian seizures.</p>
10	Please provide details of any additional measures taken:

D2 Scientific Authority (SA)

1	Have there been any changes in the designation of or contact information for the SA(s) which are not yet reflected in the CITES Directory?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> No information <input type="checkbox"/>
2	If Yes, please use the opportunity to provide those changes here.	
3	Is the designated Scientific Authority independent from the Management Authority?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> No information <input type="checkbox"/>
4	What is the structure of the SA(s)? – Government institution – Academic or research institution – Permanent committee – Pool of individuals with certain expertise – Other (specify)	Tick if applicable <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
5	How many staff work in each SA on CITES issues? 10	

6	Can you estimate the percentage of time they spend on CITES-related matters If yes, please give estimation 70%	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> No information <input type="checkbox"/>					
7	What are the skills/expertise of staff within the SA(s)? – Botany – Ecology – Fisheries – Forestry – Welfare – Zoology – Other (specify) – No information	Tick if applicable <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>					
8	Have any research activities been undertaken by the SA(s) in relation to CITES species?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> No information <input type="checkbox"/>					
9	If Yes, please give the species name and provide details of the kind of research involved.						
	Species name	Populations	Distribution	Off take	Legal trade	Illegal trade	Other (specify)
10	Have any project proposals for scientific research been submitted to the Secretariat under Resolution Conf. 12.2?						
11	Please provide details of any additional measures taken:						

D3 Enforcement Authorities

1	Has the Secretariat been informed of any enforcement authorities that have been designated for the receipt of confidential enforcement information related to CITES?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> No information <input type="checkbox"/>
2	If No, please designate them here (with address, phone, fax and email).	
3	Is there a specialized unit responsible for CITES-related enforcement (e.g. within the wildlife department, Customs, the police, public prosecutor's office)?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Under consideration <input type="checkbox"/> No information <input type="checkbox"/>
4	If Yes, please state which is the lead agency for enforcement: Department of Sustainability, Environment, Water, Population and Communities	
5	<p>Please provide details of any additional measures taken:</p> <p>Under a Memorandum of Understanding between the Department of Sustainability, Environment, Water, Population and Communities (DSEWPaC) and the Australian Customs and Border Protection Service (ACBPS), the ACBPS enforces Australia's CITES legislation at the border. It also initiates investigations and prosecution action where considered appropriate.</p> <p>Within the DSEWPaC, an investigations area (Environment Investigations Unit) is responsible for investigating suspected breaches of CITES related legislation that occur outside the ACBPS jurisdiction i.e. post-border.</p> <p>To achieve CITES enforcement outcomes, DSEWPaC works closely with the following:</p> <ul style="list-style-type: none"> - ACBPS - Australian Quarantine and Inspection Service (AQIS), - Australian Federal Police and their State & Territory counterparts, - INTERPOL Environmental Crime Program and a range of international law enforcement agencies. - Other State and Territory agencies responsible for enforcing legislation aimed at protecting wildlife. 	

D4 Communication, information management and exchange

1	To what extent is CITES information computerized? Tick if applicable						
	– Monitoring and reporting of data on legal trade <input checked="" type="checkbox"/>						
	– Monitoring and reporting of data on illegal trade <input checked="" type="checkbox"/>						
	– Permit issuance <input checked="" type="checkbox"/>						
	– Not at all <input type="checkbox"/>						
– Other (specify) <input type="checkbox"/>							
2	Do the following authorities have access to the Internet? Tick if applicable						
	Authority	Yes, continuous and unrestricted	Yes, but only through a dial-up connection	Yes, but only through a different office	Some offices only	Not at all	Please provide details where appropriate
	Management Authority	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	Scientific Authority	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Enforcement Authority	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>		
3	Is there an electronic information system providing information on CITES species?					Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> No information <input type="checkbox"/>	
4	If Yes, does it provide information on: Tick if applicable						
	– Legislation (national, regional or international)? <input checked="" type="checkbox"/>						
	– Conservation status (national, regional, international)? <input checked="" type="checkbox"/>						
– Other (please specify)? <input type="checkbox"/>							
5	Is it available through the Internet:					Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not applicable <input type="checkbox"/> No information <input type="checkbox"/>	
	Please provide URL: http://www.environment.gov.au/biodiversity/wildlife-trade/cites/index.html						
6	Do the authorities indicated have access to the following publications?					Tick if applicable	

	Publication	Management Authority	Scientific Authority	Enforcement Authority
	<i>2003 Checklist of CITES Species</i> (book)	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
	<i>2003 Checklist of CITES Species and Annotated Appendices</i> (CD-ROM)	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
	<i>Identification Manual</i>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
	<i>CITES Handbook</i>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
7	<p>If not, what problems have been encountered to access this information? Australia, as current Oceania regional representative, notes that developing nations in the Oceania region have indicated they have difficulties accessing electronic resources. It would be useful if publications such as the <i>The Evolution of CITES</i> could also be provided in hard copy to these Parties.</p>			
8	<p>Have enforcement authorities reported to the Management Authority on:</p> <ul style="list-style-type: none"> - Mortality in transport? <input checked="" type="checkbox"/> - Seizures and confiscations? <input checked="" type="checkbox"/> - Discrepancies in number of items in permits and number of items actually traded? <input checked="" type="checkbox"/> <p>Comments:</p>			<p>Tick if applicable</p>
9	<p>Is there a government website with information on CITES and its requirements?</p> <p>If Yes, please give the URL: http://www.environment.gov.au/biodiversity/wildlife-trade/cites/index.html</p>		<p>Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> No information <input type="checkbox"/></p>	
10	<p>Have CITES authorities been involved in any of the following activities to bring about better accessibility to and understanding of the Convention's requirements to the wider public?</p> <ul style="list-style-type: none"> - Press releases/conferences <input checked="" type="checkbox"/> - Newspaper articles, radio/television appearances <input checked="" type="checkbox"/> - Brochures, leaflets <input checked="" type="checkbox"/> - Presentations <input checked="" type="checkbox"/> - Displays <input checked="" type="checkbox"/> - Information at border crossing points <input checked="" type="checkbox"/> - Telephone hotline <input checked="" type="checkbox"/> - Other (specify) <input type="checkbox"/> <p>Please attach copies of any items. See Attachments 1-10.</p>			<p>Tick if applicable</p>

11	<p>Please provide details of any additional measures taken:</p> <p>DSEWPaC undertook targeted mail-outs of information products to travel agents. Over 25,000 brochures were requested as a result of this mail-out in 2009.</p> <p>The department has continued to work co-operatively with the Australian Acupuncture and Chinese Medicine Association (AACMA) in promoting the Endangered Species Certification Scheme (ESCS). The ESCS recognises efforts undertaken by traditional medicine practitioners and traders to protect endangered species – each certifying that products they use and sell do not contain parts or derivatives of wildlife. The uptake of this scheme by industry continues to increase, and to date, 82 practitioners and traders are certified members. The Department also held an information booth at the 2009 and 2010 AACMA Conference. See: http://www.acupuncture.org.au/escs.cfm.</p> <p>DSEWPaC and New Zealand's Department of Conservation have jointly produced a series of brochures for Pacific Island countries to educate the public about CITES regulations. In the 2009–10 reporting period, these brochures were translated into six Pacific languages - Samoan, Tongan, Fijian, Tok Pisin (Papua New Guinea), Palauan and Pijin (Solomon Islands). The brochures are being distributed to countries throughout the Oceania Pacific region.</p> <p>In 2009 and 2010, DSEWPaC also held information booths at travel expos around Australia to inform would-be travellers of CITES and Australian regulations relating to wildlife souvenirs.</p>
----	--

D5 Permitting and registration procedures

1	<p>Have any changes in permit format or the designation and signatures of officials empowered to sign CITES permits/certificates been reported previously to the Secretariat?</p> <p>If no, please provide details of any:</p> <p style="margin-left: 20px;">Changes in permit format:</p> <p style="margin-left: 20px;">Changes in designation or signatures of relevant officials:</p>	<p>Yes <input checked="" type="checkbox"/></p> <p>No <input type="checkbox"/></p> <p>Not applicable <input type="checkbox"/></p> <p>No information <input type="checkbox"/></p>																
2	<p>To date, has your country developed written permit procedures for any of the following?</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 60%;"></th> <th style="width: 10%; text-align: center;">Yes</th> <th style="width: 10%; text-align: center;">No</th> <th style="width: 20%; text-align: center;">No information</th> </tr> </thead> <tbody> <tr> <td>Permit issuance/acceptance</td> <td style="text-align: center;"><input checked="" type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td>Registration of traders</td> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input checked="" type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td>Registration of producers</td> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input checked="" type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> </tbody> </table>		Yes	No	No information	Permit issuance/acceptance	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Registration of traders	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Registration of producers	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<p>Tick if applicable</p>
	Yes	No	No information															
Permit issuance/acceptance	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>															
Registration of traders	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>															
Registration of producers	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>															

3	Please indicate how many CITES documents were issued and denied in the two year period? (Note that actual trade is reported in the Annual Report by some Parties. This question refers to issued documents).					
	Year 1	Import or introduction from the sea	Export	Re-export	Other	Comments
	How many documents were issued?	534	298	91		
	How many applications were denied because of serious omissions or misinformation?	5	4	1		
	Year 2					
	How many documents were issued?	587	347	57		
	How many applications were denied because of serious omissions or misinformation?	1	7	0		
4	Were any CITES documents that were issued later cancelled and replaced because of serious omissions or misinformation?				Yes	<input type="checkbox"/>
					No	<input checked="" type="checkbox"/>
					No information	<input type="checkbox"/>
5	If Yes, please give the reasons for this.					
6	Please give the reasons for rejection of CITES documents from other countries.				Tick if applicable	
	Reason			Yes	No	No information
	Technical violations			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Suspected fraud			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Insufficient basis for finding of non-detriment			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Insufficient basis for finding of legal acquisition			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Other (specify)			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7	Are harvest and/or export quotas as a management tool in the procedure for issuance of permits?				Yes	<input checked="" type="checkbox"/>
					No	<input type="checkbox"/>
					No information	<input type="checkbox"/>
	Comments Harvest quotas only					
8	How many times has the Scientific Authority been requested to provide opinions? Engagement with MA occurs on a daily basis.					

9	<p>Has the MA charged fees for permit issuance, registration or related CITES activities?</p> <ul style="list-style-type: none"> - Issuance of CITES documents: <input checked="" type="checkbox"/> - Licensing or registration of operations that produce CITES species: <input type="checkbox"/> - Harvesting of CITES-listed species : <input type="checkbox"/> - Use of CITES-listed species: <input type="checkbox"/> - Assignment of quotas for CITES-listed species: <input type="checkbox"/> - Importing of CITES-listed species: <input checked="" type="checkbox"/> - Other (specify): <input type="checkbox"/> 	Tick if applicable
10	<p>If Yes, please provide the amounts of such fees. Import/export/re-export AUD\$ 0-150 depending on commodity, purpose and duration.</p> <p>Further information on fees can be obtained at: http://www.environment.gov.au/biodiversity/wildlife-trade/permits/fees.html. Pre-CITES certificates and certificates of origin are issued free of charge. Permits are also issued free of charge to other government agencies.</p>	
11	<p>Have revenues from fees been used for the implementation of CITES or wildlife conservation?</p> <ul style="list-style-type: none"> - Entirely: <input type="checkbox"/> - Partly: <input type="checkbox"/> - Not at all: <input type="checkbox"/> - Not relevant: <input checked="" type="checkbox"/> <p>Comments: Fees go into consolidated government revenue.</p>	Tick if applicable
12	Please provide details of any additional measures taken:	

D6 Capacity building

1	<p>Have any of the following activities been undertaken to enhance effectiveness of CITES implementation at the national level?</p>		Tick if applicable
	Increased budget for activities	<input type="checkbox"/>	Improvement of national networks <input checked="" type="checkbox"/>
	Hiring of more staff	<input type="checkbox"/>	Purchase of technical equipment for monitoring/enforcement <input type="checkbox"/>
	Development of implementation tools	<input checked="" type="checkbox"/>	Computerization <input type="checkbox"/>
	- Other (specify)		<input type="checkbox"/>

2	Have the CITES authorities received or benefited from any of the following capacity building activities provided by external sources?						What were the external sources?
	Please tick boxes to indicate which target group and which activity.						
	Target group	Oral or written advice/guidance	Technical assistance	Financial assistance	Training	Other (specify)	
	Staff of Management Authority	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	Other (specify)		<input type="checkbox"/>
6	Have Government staff participated in any regional activities related to CITES?		Tick if applicable
	Workshops		<input checked="" type="checkbox"/>
	Meetings		<input checked="" type="checkbox"/>
	Other (specify) Capacity Building		<input checked="" type="checkbox"/>
7	Has there been any effort to encourage any non-Party to accede to the Convention?	Yes No No information	<input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>

8	<p>If Yes, which one(s) and in what way?</p> <p>Non-Parties are invited to regional activities, such as capacity building workshops, to ensure they are aware of CITES requirements and have access to information in order to apply CITES principles to the management of international wildlife trade and to investigate acceding to the Convention.</p> <p>The translation of the "If in doubt - check it out" message into Pacific languages is intended to help raise awareness throughout the Oceania region.</p>		
9	Has technical or financial assistance been provided to another country in relation to CITES?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> No information <input type="checkbox"/>	
10	<p>If Yes, which country(ies) and what kind of assistance was provided? The Australian Government provided funding for youth ambassador (AYAD) postings in Pacific Island Countries e.g. Vanuatu. The youth ambassadors provided advice and assistance to these countries on implementing their CITES obligations and on legislative requirements.</p>		
11	Has any data been provided for inclusion in the CITES Identification Manual?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> No information <input type="checkbox"/>	
12	<p>If Yes, please give a brief description.</p>		
13	Have measures been taken to achieve co-ordination and reduce duplication of activities between the national authorities for CITES and other multilateral environmental agreements (e.g. the biodiversity-related Conventions)?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> No information <input type="checkbox"/>	
14	<p>If Yes, please give a brief description.</p> <p>Ongoing development of the Streamlined Reporting Template.</p>		
15	<p>Please provide details of any additional measures taken:</p>		

D8 Areas for future work

1	Are any of the following activities needed to enhance effectiveness of CITES implementation at the national level and what is the respective level of priority?			
	Activity	High	Medium	Low
	Increased budget for activities	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	Hiring of more staff	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	Development of implementation tools	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	Improvement of national networks	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
	Purchase of new technical equipment for monitoring and enforcement	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
	Computerization	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Other (specify)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

2	Were any difficulties encountered in implementing specific Resolutions or Decisions adopted by the Conference of the Parties?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> No information <input type="checkbox"/>
3	<p>If Yes, which one(s) and what is the main difficulty? Personal and Household effects (Res. Conf. 13.7 (Rev. CoP14). The main difficulty is defining the meaning of the term and ensuring that it is adequately implemented under Australian legislation. Additionally, it is unclear as to which countries do not honour the exemptions and for which specimens. Customs also have difficulties with identification of worked products, particularly when there are some similar species in Appendix I (i.e. crocodiles, snakes). Many of the concerns will be addressed as part of the working group on this issue.</p> <p>An easily accessible and up to date resource (such as a web page) listing the stricter domestic measures of parties would also be of use.</p>	
4	Have any constraints to implementation of the Convention arisen in your country requiring attention or assistance?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> No information <input type="checkbox"/>
5	If Yes, please describe the constraint and the type of attention or assistance that is required.	
6	Have any measures, procedures or mechanisms been identified within the Convention that would benefit from review and/or simplification?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> No information <input type="checkbox"/>
7	<p>If Yes, please give a brief description. Plant annotations (currently being addressed through Plants Committee) i.e. manufactured products ready for retail trade Permitting of small manufactured crocodile/reptilian products i.e. watchstraps Personal and household effects exemptions (currently being addressed through the working group).</p>	
8	Please provide details of any additional measures taken:

	Comments		

E. General feedback

<p>C3</p>	<p>Details of violations and administrative measures imposed</p> <p>In the majority of cases, specimens subject to the seizure notices became forfeit to the Commonwealth and were destroyed in a secure manner.</p> <p>Administrative measures taken include permit applications being refused on the grounds that the business operator was not able to verify that CITES listed goods intended for re-export had been legally imported into Australia.</p> <p>This administrative response restricts the level of trade activity that may be undertaken by businesses dealing in CITES listed specimens and seeks to improve their compliance behaviours.</p> <p>Compliance and monitoring activities undertaken during the period have identified some instances where permit holders have not satisfactorily complied with conditions attached to their permits. Australia seeks to work cooperatively with wildlife trade operators to achieve a satisfactory level of compliance with conditions attached to permits and places an emphasis on education and awareness when initially identifying inadvertent or minor non-compliance.</p>
<p>C7</p>	<p>Details of violations and results of prosecutions</p> <ul style="list-style-type: none"> • On 16 April 2009, a man was found guilty of illegally exporting seahorses (<i>Hippocampus kuda</i>). He received a fine of \$7,500. • On 9 March 2010, a Western Australian man pleaded guilty to illegally importing 39 CITES-listed parrot eggs. He was sentenced to 18 months imprisonment. • On 2 September 2010, a New South Wales man was found guilty of illegally importing a boa constrictor (and several other snakes). He was fined \$3,000. • On 9 August 2010, a Western Australian female was found guilty of illegally importing 24 CITES-listed parrot eggs. She was sentenced to two years imprisonment.
<p>C9</p>	<p>Details of violations and results of court actions</p> <p>A Victorian man contested the seizure of a large quantity of CITES birds and the court forfeited the birds. However, this decision was overturned upon appeal.</p>

A le mautinoa—fesili ma saili!

A le mautinoa—fesili ma saili

Afai o loo e tauaveina ni oloa mai le vaomatua ma gataifale po’o ni oloa sa faatau pe gaosia mai i ia mea, ia e mautinoa lona faatagaina faa le tulafono.

Saili poo faatagaina e le Malo pe manaomia foi se pemita mai le:

- Siosiomaga ma Faasao
- Ofisa o Tiute
- Vaega e Puipuia le Pepesi o Faamai

A le mautinoa—fesili ma saili!

■ Fefaatauaiga i le lalolagi o meaola mai le vaifanua (vao ma gataifale)

Ua tele manu ma laau i le lalolagi ua lamatia i lenei fefaatauaiga soona fai.

E tusa o le kuata o ituaiga manu felelei ua lamatia i le lalolagi e ofaga i le Pasefika. O le Pasefika foi e iai le tele o ituaiga amu, laau, iniseti ma isi meaola ua lamatia le ola.

E ao ona tatou puipui le ola o meaola uma o le vaifanua o le Pasefika mo tupulaga fai mai.

O fefaatauaiga i le lalolagi o meaola, laau ma oloa gaosia mai i ia mea ua puipuia nei faatulafono i se: Tulafono Faava-o-malo mo le Fefaatauaiga o Meaola ma Laau ua Lamatia (CITES).

E sili atu i le 34,000 ituaiga meaola ma laau ua puipuia i lea tulafono (CITES). O le sini ia faasao ma puipuia meaola ma laau mai fefaatauaiga soona fai.

■ Ia mautinoa ae e te le’i malaga—e aafia faapefea oe i le tulafono?

O nisi oloa faatau atu i turisi e aafia ai meaola o le vaifanua ua sili ona lamatia. Atonu e te le o iloa lou solia o le tulafono i lou faatauina o nei mea. O mea e iai ‘tabua’ (nifo tafola) ma una laumei (laumei sami), o mea e gaosia mai manu ua sili ona lamatia.

O nisi faatauola latou te le tauina le sao poo fea na aumai ai a latou oloa. Aua le faaseseina oe i faaupuga, “talitonu mai oe, e le faasaina”.

Ao e fuafua e faatau pe malaga ma nei ituaiga oloa mai le vao ma le sami faafesootai le matagaluega tonu o le Malo, ae e te lei malaga i isi atunuu, pe manaomia se pemita.

A le sa’o le pemita, o le a taofia le oloa e le Ofisa o le Tiute.

■ Vailaau mai Taulasea

O vailaau e pei o ‘vai-Samoa’ poo vailaau mai isi taulasea e sui ai pe faapoopo i vailaau masani.

A leai se pemita, e matua faasaina le fefaatauaiga o ia ituaiga vailaau e gaosia mai manu e pei o taika, urosa, manuki, Saussurea/Aucklandia (maua i fualaau Po Chai), poo puuanifo (rhinoceros).

■ O au lava Meatotino

E i ai vaega tulaga faapitoa i soo se tulafono. Faafesootai le ofisa o le malo mo tulaga faapitoa faatatau mo meatotino.

■ E mafai ona e fesoasoani i le faasoina o meaola o le vaifanua (vaomatua ma gataifale)

E uiga lasi tulaga tau fefaatauaiga o meaola o le vaifanua—e aofia ai manu ma laau poo le tele o oloa e gaosia mai nei mea:

- atigi faisua ma atigi figota
- oloa maua-gata e gaosia mai i pau o manu
- mea fai faili
- oloa ‘suvania’
- vailaau mai taulasea
- ponaivi, una, aano ma pau o manu
- iniseti ola ma iniseti mamate
- tipiga-laau poo mea e fai mai ai

A lelei pulea, o le a le afaina i nei fefaatauaiga le malu puipuia o mea ola o le vao ma le gataifale mo le lumanai.

A pulea ma le faaeteete nei fefaatauaiga o le a fesoasoani tele i le faasoina o nei mea ola uma mo le lumana’i.

Largest Range

With a range of over 300 patents and 300 Granulated herbs to choose from, We are your ultimate One Stop Shop for TCM supplies.

Top Quality

Our products are manufactured by the world's 20+ most renowned and reputable factories, where most have histories of hundreds of years.

Cheapest Prices

All products are solely imported and distributed by us direct from the factories, assuring you the most authentic, and at the best prices on the market.

Confidence

Every product within our range has a valid AUST L or AUST R number, giving you a safe peace of mind.

Protecting Biodiversity

The Convention on International Trade in Endangered Species of Wild Fauna and Flora

About the Convention

The global trade in wildlife and wildlife products involves thousands of species of animals and plants, which are traded in a wide variety of forms. Live plants are traded as ornamentals or crops while non-live parts and derivatives are found in clothing and accessories, foodstuffs, complementary medicines and furniture. Tourists and travellers also contribute to international trade by buying souvenirs that may contain endangered plant material, such as wooden statues and fabrics. The demand created by the global marketplace for some products has had a devastating impact on the wild populations of plant species.

The Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) was drafted in 1973 in response to the decline in wild populations of many animal and plant species as a result of unregulated international trade. CITES entered into force on 1 July 1975 and became enforceable under Australian law on 27 October 1976. More than 28,000 species of plants have been listed under the three Appendices so far.

CITES Appendices

There are three levels of protection under CITES:

Appendix I	Appendix II	Appendix III
These are species threatened with extinction which are affected by international trade. Trade is generally prohibited, or permitted only in exceptional circumstances authorised by the CITES Secretariat. Pre-CITES specimens (harvested before listing on CITES) are generally accepted.	These are species which are not imminently threatened with extinction, but may become so unless trade is regulated. CITES import and export permits are generally required.	These are species that are protected in at least one country, which has asked other CITES parties for help in controlling the trade. Parties implement CITES chiefly through a rigorous permitting regime. Contact the CITES Management Authority for information on permit requirements.

Permit exemptions for orchids

For species listed in Appendix I, no permits are required for:

- seedling or tissue cultures obtained in vitro, in solid or liquid media, transported in sterile containers.

For species listed in Appendix II, and artificially propagated hybrids of Appendix I species, no permits are required for:

- seeds, spores and pollen (including pollinia)
- seedling or tissue cultures obtained in vitro, in solid or liquid media, transported in sterile containers
- cut flowers of artificially propagated plants, or
- the fruits of artificially propagated plants of the genus *Vanilla* and parts and derivatives of those fruits.

Details of the specific requirements are outlined in the *Australian Guide to the list of CITES species*, which can be viewed at:

www.environment.gov.au/biodiversity/trade-use/lists/cites/pubs/cites.pdf

No permits are required for *Cymbidium* orchids that are artificially propagated, provided they are accompanied with appropriate documentation.

By carefully identifying species that are threatened by the international market demand, Australia can protect its biodiversity now and into the future.

Timber

Many species of timber are listed under CITES but once carved or processed they can be problematic to identify. CITES has developed a simple identification tool called *CITESwoodID*, which allows enforcement officers to effectively identify timber through looking at key characteristics or the grain and cross-sections. Copies of *CITESwoodID* are available from wildlife.communications@environment.gov.au.

Timber cross sections used in *CITESwoodID*

CITES Management and Scientific Authorities

Every signatory to CITES is required to designate a management authority to administer CITES in that nation. The management authority is responsible for issuing permits, and compliance, enforcement and reporting matters.

In Australia, both the management and scientific authorities are in the federal environment department. Like many signatories, Australia relies on its customs service to implement CITES at national borders.

Contact details for other CITES authorities around the world may be found at www.cites.org/common/directy/e_directy.html

A. Hoodia extract is a weight loss supplement, made popular by Oprah and Anna Nicole Smith, causing global demand to spike. Without regulation, the increasing demand could quickly lead to the wild populations being harvested to extinction.

B. The Venus Flytrap, *Dionaea Muscipula* is listed on Appendix II and can be traded with appropriate permits.

What else do I need to know?

Exports and imports of wildlife and wildlife products may also be subject to regulation under the Customs Act 1901 (administered by the Australian Customs and Border Protection Service) and the Quarantine Act 1908 (administered by the Australian Quarantine and Inspection Service). These organisations may be contacted through offices in each state capital, or through their head offices.

HUNTER BEWARE

**Don't let
your trophy
be the one
that got away!**

You may need a permit to import and export your hunting trophies, even if they were legally hunted or acquired.

Without the correct permits, they will be seized by the Australian Customs Service. Serious breaches may also attract a fine or imprisonment.

Species of interest include all Australian native species, bears, big cats, crocodiles, zebras, birds, dogs, deer and many more.

Get advice before you hunt!
