11	<p>Please provide details of any additional measures taken:</p> <p>Over a period of seven months (May – November 2012) the Inspection and Police conducted an Internet surveillance of national internet sites to identify advertisements regarding the sale of CITES specimens with emphasis on live specimens.</p> <p>During the surveillance 26 persons have been investigated by the Inspectors. Among them 12 persons (46%) offered for sale endangered parrot species, 4 persons (15%) offered for sale pythons, and 2 persons (7%) offered for sale tortoises. In addition to the live animals, the investigation also covered plant species (orchids and cacti) and non CITES species (e.g. squirrels, European polecat, geckos, butterflies).</p> <p>Inspection decisions were issued in 33% cases regarding parrots. During the investigation it was discovered that several CITES bird species (<i>Trichoglossus haematodus</i>, <i>Agapornis fischeri</i>, <i>Agapornis personatus</i>, <i>Lonchura oryzivora</i>, <i>Psephotus haematonotus</i>, <i>Platycercus eximius</i>, <i>Platycercus adscitus</i>, <i>Forpus spp</i>, <i>Cyanoramphus spp</i>, <i>Neopsephotus bourkii</i>, <i>Miopsitta monachus</i>, <i>Polytelis swainsonii</i>) were bred by individual without a breeding permit which is mandatory according to a national legislation. Actions have been taken against retail shops selling live animals due to inadequate living conditions for keeping in captivity specimen of Cockatoo. Decision on seizure was given to the individual. Birds were placed under temporal care of the individual from whom they have been confiscated until required documentation for commercial breeding will be obtained. A results of inspection investigation have also shown, that many natural persons breed animals for hobby (for non-commercial purposes), to some of them a warning has been issued for offering for sale of live animals without appropriate documents, for not marking of animals of wild species kept in captivity, and for failure to fulfill obligation of notification of the acquisition of endangered species to the Ministry.</p> <p>Police conducted its investigation of the internet offers between the 5. and 30. November 2012. They investigated 3 cases where the value of the specimen offered for sale was higher than 500 EUR. In one case, which involved a live Ara, the owner possessed all the necessary documentation; however the animal was not properly marked. The case was reported to the inspectors. In the other two cases brown bear trophies were offered for sale. In the first case the specimen was inherited and the owners removed the add when they were informed of the legislative requirements. In the other case the investigation is ongoing.</p> <p>Customs carried out stricter control of post parcels that could contain specimens of CITES in November 2012. During the surveillance no cases have been detected.</p>

ANNEX 1 - STRICTER DOMESTIC LEGISLATIVE MEASURES - SLOVENIA

1. OBLIGATION TO NOTIFY THE KEEPING OF LIVE ANIMALS IN CAPTIVITY AND INSURANCE OF ADEQUATE LIVING CONDITIONS

Whoever obtains large mammals, birds and reptiles and animals of the species specified in the ratified international treaties, with the purpose of keeping them in captivity, must notify the ministry thereof (Natural Conservation Act, Art. 19). The list of species to which this obligation applies is provided in Annex II to the *Order on the living conditions for and care of wild animals kept in captivity* (Official Gazette of RS, No. 90/01).

The list also includes species listed in the CITES Appendices I and II.

The specimens of wild animal species could only be kept in captivity if adequate living conditions are ensured. These conditions should meet at least minimal standards prescribed in Annex I of the Order.

The Environmental Agency of the Republic of Slovenia keeps the record of notifications and animal markings in accordance with Article 20 of the *Rules on the marking of animals of wild species kept in captivity* (Official Gazette of RS, No. 58/04).

2. PERMIT FOR CAPTIVE-BREEDING

Whoever intends to breed animals of indigenous or non-indigenous species must obtain a permit of the Ministry (Nature Conservation Act, Article 21). Conditions for obtaining a permit for captive-breeding for commercial purposes of specimens of species listed in CITES Appendices or nationally protected species are laid down in Article 29 of the *Decree on the course of conduct and protection measures in the trade in animal and plant species* (Official Gazette of RS, No. 39/08, 106/10, 78/12).

Scientific Authority, in cooperation with the inspection body, regularly monitors those breeding operations. Every year by 15 February, a breeder has to submit to the Management and Scientific Authorities an annual report on the breeding for the preceding year. When he acts contrary to the provisions under which the permit has been issued, the permit is withdrawn.

3. ASSESSMENT OF RISK TO NATURE

Prior to the import of plants or animals of non-indigenous species for the purpose of introduction or re-introduction into the wild or captive breeding or artificial propagation, a proposer must enclose with the application the findings of the (Nature Conservation Act, Arts. 17, 18 and 21). Assessment of risk to nature is carried out to avoid possible harmful effects to native fauna and flora in the case of deliberate release or incidental escape of specimens of non-indigenous species into the natural environment. The assessment of risk to nature is carried out by a competent legal or natural person designated by the minister in accordance with the *Rules on the assessment of risk to nature and on the authorisation*. The expense related to the carrying-out of the assessment of risk to nature is covered by the applicant.

4. PERMIT FOR KEEPING IN CAPTIVITY WITH THE PURPOSE OF PUBLIC EXHIBITION

A natural or legal person who intends to keep animals of indigenous or non-indigenous species in captivity with the purpose of public exhibition in zoos, aquariums, terrariums or similar facilities must obtain a permit of the Ministry (Nature Conservation Act, Art. 20). The

permit for zoos and similar facilities is issued by the Ministry responsible for nature protection in accordance with the provisions of the *Decree on zoos and similar facilities* (Official Gazette of RS, No. 37/03).

5. PROHIBITION OF KEEPING IN CAPTIVITY CERTAIN ANIMAL SPECIES

The *Decree on protected wild animal species* (Official Gazette of RS, No. 46/2004, 109/2004, 84/2005, 115/2007, 96/2008, 36/2009, 102/2011) in its Article 13 prohibits the keeping in captivity of wild specimens of species listed in its Annex I. It also prohibits keeping of live birds of prey (Falconiformes) and owls (Strigiformes). The derogations apply to a rescue centre and Zoos in accordance with the acts regulating their operation. Keeping of such specimens by other natural or legal persons is possible in exceptional cases on the basis of the permit issued by the Ministry if the prescribed conditions are met.

6. PROHIBITION OF KEEPING IN CAPTIVITY CETACEANS FOR COMMERCIAL PURPOSES

The *Decree on the course of conduct and protection measures in the trade in animal and plant species* (Official Gazette of RS, No. 39/08, 106/10, 78/12) in its Article 16 prohibits the use of specimens of the cetacean species (Cetacea) for commercial purposes, including for commercial dolphinariums and for therapeutic programs.

7. PROHIBITION OF TRANSPORT, MOVE, SALE, EXCHANGE OR OFFER FOR SALE OR EXCHANGE

The *Decree on protected animal species* in its Article 14 prohibits transport, moving, selling, exchanging or offering for sale or exchanging live or dead animals of the species listed in Annex 1 to this Decree if they have been taken from the wild. The derogations apply to keeping in captivity, transport and moving of live or dead animals if they were taken from the wild in accordance with the Article 6 of the *Decree on protected animal species*, or if specimens were legally taken from the wild, imported, seized and confiscated in accordance with the EU wildlife trade regulations.

8. ACQUISITION OF CONFISCATED LIVE SPECIMENS FOR COMMERCIAL PURPOSES

When Management Authority decides that the confiscated live specimens are to be handed over to a legal or natural person for commercial purposes (Article 34, para 5. of the *Decree on the course of conduct and protection measures in the trade in animal and plant species* (Official Gazette of RS, No. 39/08, 106/10, 78/12), such person should obtain a permit for captive breeding in accordance with Article 28 of the *Decree*.

9. OBLIGATION OF MARKING OF WILD ANIMALS IN CAPTIVITY

The *Rules on the marking of animals of wild species kept in captivity* (Official Gazette of RS, No. 58/04) lay down species that have to be marked. Animals of wild species to be marked under these Rules are mammals, birds and reptiles that are:

- listed in Annex A to Council Regulation (EC) No 338/97 on the protection of species of wild fauna and flora by regulating trade therein (OJ L 61, 3.3.1997, p. 1),
- listed in Annex B to Council Regulation (EC) No 338/97 and are part of a breeding stock,
- protected by a regulation governing the protection of wild animal species,
- birds of genera *Ara* and *Amazona*, and of species *Alisterus amboinensis*, *Aratinga euops*, *Cacatua alba*, *Cacatua ducorps*, *Cacatua galerita*, *Cacatua galerita triton*, *Cacatua leadbeateri*, *Cacatua sanguinea*, *Cacatua sulphurea citrinocristata*,

Callocephalon fimbriatum, *Calyptorhynchus baudinii*, *Calyptorhynchus funereus*, *Calyptorhynchus banksii*, *Chalcopsitta cardinalis*, *Cyclopsitta diophthalma diophthalma*, *Deropteryx accipitrinus fuscifrons*, *Eclectus roratus*, *Eos cyanogenia*, *Nestor notabilis*, *Northiella haematogaster naretha*, *Psittacula columboides*, *Psittacula longicauda*, *Psittacus erithacus*, *Pyrrhura rhodogaster*.

The Rules lay down methods of marking and types and quality of marks. Young turtles with the flat bottom part of the shell (plastron) shorter than 100 mm that have been bred by breeders having a breeding permit are not to be marked. Animals marked with marks approved by the competent authorities of other countries which are equal to marks specified in the Rules need not to be marked. The Rules also lay down that the animals that are lighter than 200 g or have not yet grown to that weight and birds that are marked by a closed ring should not be marked.

Birds hatched in captivity must be marked with closed rings. A bird must be marked with a ring with the inner diameter as stipulated in Annex 2 to the Rules. The leg bearing the ring must be undamaged. If the last two conditions are not fulfilled, a bird is considered as not marked. Where the inner diameter of the ring is not laid down, the bird is marked with an open ring appropriate to the size of the leg or with a microchip or by a description.

The marks should be supplied and marking carried out only by persons authorised by the Environmental Agency of Republic of Slovenia. The breeder must mark the animal within ten working days from its acquisition or within the five working days after the quarantine has been concluded if this is longer than ten working days. The marker issues a marking certificate after every marking and enters it in the electronic evidence which is kept by the Environmental Agency.

In case of parrots and lorries (order Psittaciformes) listed in Annex A of Council Regulation (EC) No 338/97, birds of prey (order Falconiformes) and owls (order Strigiformes) a deposit of samples for molecular and genetic analyses is mandatory. Samples are taken when the bird has grown sufficiently to make it impossible to take off its ring.

10. ENDANGERED AND INTERNATIONALLY PROTECTED ANIMAL SPECIES

The *Decree on protected wild animal species* (Official Gazette of RS, No. 46/2004, 109/2004, 84/2005, 115/07, 96/08, 36/09, 78/12) transposes the provisions of certain Articles of *Council Directive 79/409/EEC* (Bird Directive) and *Council Directive 92/43/EEC* (Habitat Directive) into national legal order and prescribes the protection measures for internationally protected animal species.

The provisions of the Decree apply to live and dead wild animals in all stages of development (eggs, including eggshells, larvae, pupae, young and adult animals), parts or derivatives of dead animals which appear from accompanying documents, the packaging or a mark or from any other circumstances, to be parts or derivatives of animals. Provisions also apply to animal structures such as nests, haunts, resting or breeding grounds etc. It is prohibited to consciously harm, poison, kill, take from the wild, hunt, capture or disturb animals of the species listed in Annex 1 to the Decree. It is also prohibited to transport, move, sell, exchange or offer for sale or exchange live or dead animals of the species listed in Annex 1 to the Decree that have been taken from the wild. The Annexes to the Decree also contain native species that are listed in CITES Appendices (e.g. sea mammals, brown bear, wolf, wild cat, lynx, otter, birds of prey and owls,

sea turtles etc.). Taking of live animals from the wild and keeping them in captivity or possessing their parts or derivatives or their structures protected by the Decree could be permitted by the Ministry in exceptional cases. Trade in dead specimens of brown bear is permitted if they were taken from the wild in accordance to the legislation.

11. ENDANGERED AND INTERNATIONALLY PROTECTED PLANT SPECIES

The *Decree on protected wild plant species* (Official Gazette of RS, No. 46/2004, 110/2004, 115/2007, 36/2009) transposes the provisions of certain Articles of *Council Directive 92/43/EEC* (Habitat Directive) into national legal order and prescribes the protection measures for internationally protected plant species. It is prohibited to consciously destroy, in particular to pick, cut, uproot and take from the wild, damage or collect plants of the species listed in Annex to the Decree and to threaten the existence of these species in their natural distribution range. The provisions of the Decree apply to wild plants, all plant parts (above-ground parts, especially flowers, fruit with seed, stalks, leaves; underground parts, especially corms, bulbs and tubers), their stages of development and derivatives. It is prohibited to transport, move, sell, exchange or offer for sale or exchange plants of the species listed in Annex to the Decree that have been taken from the wild. It is permitted to take from the wild, exploit or possess specimens of protected plant species, when they have been: taken from the wild in accordance with the Decree, taken from the wild in accordance with the regulations of the European Union, legally imported or seized or confiscated in accordance with the regulations.

12. COMMERCIAL ACTIVITIES INVOLVING SPECIMENS OF PROTECTED NATIVE SPECIES

In accordance with Article 16 of the *Decree on the course of conduct and protection measures in the trade in animal and plant species* (Official Gazette of RS, No. 39/08) it is prohibited to use for commercial purposes specimens of the species which are listed in Annex 1 to the *Decree on the protection of wild animal species* or in Annex 1 to the *Decree on the protection of wild plant species*, but not in Annex A to Regulation 338/97. The Management Authority exceptionally allows the use of such specimens for commercial purposes, provided that such specimens have been legally obtained, captive-bred or artificially propagated or are essential to the advancement of science. The Management Authority issues a certificate for that purpose. The derogation applies to seedling cultures or tissue cultures. The commercial use of parts of plants of species not listed in Annex A of Regulation 338/97/EC, including cut flowers, must be in accordance with the regulation governing the conservation of wild plant species.

13. RECORD-KEEPING OF TRADE IN ANIMALS OF WILD SPECIES

A natural or legal person who is engaged in trade in live animals must keep records on trade in animals. In accordance to the *Rules on record-keeping of trade in animals of wild species* (Official Gazette of RS, No. 5/2010) records of trade must be kept for animals that are listed in Annex A or B to the Council Regulation (EC) No 338/97 or Annex 1 to the *Decree on protected wild animal species* (Official Gazette of RS, No. 46/2004, 109/2004, 84/2005, 115/2007, 96/2008, 36/2009).
