## **PART 2 - SUPPLEMENTARY QUESTIONS<sup>1</sup>**

Note: Questions in Part 2 are additional to those in Part 1, and relate to information on the provisions of the EC Regulations (Regulation (EC) No. 338/97 and Regulation (EC) No. 865/2006) that fall outside the scope of CITES.

Please be aware that questions in Part 2 have been updated since the last reporting period, and this new version should be used when submitting biennial reports.

The numbering of this section reflects that in Annex 2, Part 1, with the addition of (b) to distinguish the two. New questions that do not correspond to questions in Annex 2, Part 1 are marked "new". Unless otherwise stated, the legislation referred to below is Council Regulation (EC) No. 338/97.

<sup>1</sup> Part 2 agreed at COM 45

## B. Legislative and regulatory measures

1b	If not already provided under questions B (2) and B (4), please provide details of any national legislation that has been updated in this reporting period and attach the full legislative text.						
2b	If your country has planned, drafted or enacted any additional Regulation -relevant legislation, other than that reported under question B (2) or above, please provide the following details:						
	Title and date:			Status:			
	Brief description of contents:						
5b	Has your country adopted any stricter domestic measures, other than those reported under question B(5), specifically for non CITES-listed species <sup>2</sup> ?						
	Tick all applicable categories below that these categories apply to.

9b	Please provide the following details about Regulations-related violations:						
	i) Maximum penalties that may be imposed – 8 years;						
	ii) Or any other additional measures taken in relation to implementation of the Regulation not reported on in question B (9).						

<sup>2</sup> In this questionnaire, "non CITES-listed species" refers to species that are listed in the Regulation Annexes, but not in the CITES Appendices. They include some species in Annexes A and B and all those in Annex D.

### C. Compliance and enforcement measures

2b	Have any actions, in addition to those reported in C (2-9) above, been taken for Regulation-related violations?	Yes No No information	<input type="checkbox"/> <b>N</b> <input type="checkbox"/>
9b	Please provide the following details about Regulations-related violations: i) Maximum sanctions which have been imposed over this reporting period; ii) The outcomes of any prosecutions; For details see Annex 5.1. to this Questionnaire.		
16b	Has there been any review or assessment of Regulation-related enforcement, in addition to that reported under C (16) above?	Yes No No information	<input type="checkbox"/> <b>N</b> <input type="checkbox"/>
	Comments:		
18 new	Have specimens been marked to establish whether they were born and bred in captivity? (In accordance with <i>Commission Regulation (EC) No. 865/2006</i> , Article 66)	Yes No No information	<b>Y</b> <input type="checkbox"/> <input type="checkbox"/>
	Comments:		
19 new	Have any monitoring activities been undertaken to ensure that the intended accommodation for a live specimen at the place of destination is adequately equipped to conserve and care for it properly? (In accordance with Article 4 paragraph 1 (c) of <i>Council Regulation (EC) No. 338/97</i> ).	Yes No No information	<b>Y</b> <input type="checkbox"/> <input type="checkbox"/>
	Comments:		
20 new	Have national action plans for co-ordination of enforcement, with clearly defined objectives and timeframes been adopted, and are they harmonized and reviewed on a regular basis? (In accordance with <i>Commission Recommendation C (2007) 2551</i> , paragraph IIa.)	Yes No No information	<input type="checkbox"/> <b>N</b> <input type="checkbox"/>
	Comments: In our previous report for 2007-2008, there was answer "Yes" because we regarded our very detailed national legislation for CITES (see 1.B) as a <i>de-facto</i> national action plan for enforcement. Now we are discussing if there is a need for a separated action plan for enforcement with objectives going beyond the national law and with timeframes, regular harmonization and review. The national CITES law was thoroughly reviewed in 2010.		
21 new	Do enforcement authorities have access to specialized equipment and relevant expertise, and other financial and personnel resources? (In accordance with <i>Commission Recommendation C (2007) 2551</i> , paragraph IIb.)	Yes No No information	<b>Y*</b> <input type="checkbox"/> <input type="checkbox"/>
	If yes, please provide details.		
	*Comments: Generally yes (e.g. the Czech Environmental Inspectorate (CEI) has special equipment for handling and catching of live animals, specialised literature, PCs, cars etc.), but there are partial problems: - Financial and personal resources. Number of CITES inspectors at the CEI has been decreased by one third since 2006, namely from 18 to 12 persons today. Ca one half from these twelve people does work for CITES only partially. The number of CITES inspectors is not sufficient for controls on the territory of the Czech Republic. There are no sufficient financial resources for CITES controls and risk analysis (no money for analytical software, the CEI does not have an analytical expert etc.).		
22 new	Do penalties take into account inter alia the market value of the specimens and the conservation value of the species involved in the offence, and the costs incurred? (In accordance with <i>Commission Recommendation C (2007) 2551</i> , paragraph IIc.)	Yes No No information	<input type="checkbox"/> <b>N*</b> <input type="checkbox"/>
	*Comments: In our previous report for 2007-2008, there was answer "Yes" because our laws [Act on offences and Act on trade in endangered species (CITES)] prescribe general conditions that penalties must take into account gravity of the offence, importance and extent of consequences thereof. However, the penalties are often very low in practice and do not take into account the market and conservation value of the specimens.		

23 new	Are training and/or awareness raising activities being carried out for a) enforcement agencies, b) prosecution services, and c) the judiciary? (In accordance with <i>Commission Recommendation C (2007) 2551</i> , paragraph II d.)	Yes	<b>Y</b>
		No	<input type="checkbox"/>
		No information	<input type="checkbox"/>
24 new	Are regular checks on traders and holders such as pet shops, breeders and nurseries being undertaken to ensure in-country enforcement? (In accordance with <i>Commission Recommendation C (2007) 2551</i> , paragraph II g.)	Yes	<input type="checkbox"/>
		No	<b>N*</b>
		No information	<input type="checkbox"/>
*Comments: Checks are carried irregularly. Enforcement agencies do not have enough staff for regular checks. CITES and wildlife crime are not priority.			
25 new	Are risk and intelligence assessment being used systematically in order to ensure thorough checks at border-crossing points as well as in-country? (In accordance with <i>Commission Recommendation C (2007) 2551</i> , paragraph III h.)	Yes	<input type="checkbox"/>
		No	<b>N*</b>
		No information	<input type="checkbox"/>
*Comments: General risk and intelligence analysis is used by customs at border crossing points, but for CITES not systematically and only rarely. Other risk and intelligence assessment is missing.			
26 new	Are facilities available for the temporary care of seized or confiscated live specimens, and are mechanisms in place for their long-term re-homing, where necessary? (In accordance with <i>Commission Recommendation C (2007) 2551</i> , paragraph III i.)	Yes	<b>Y</b>
		No	<input type="checkbox"/>
		No information	<input type="checkbox"/>
Comments:			
27 new	Is cooperation taking place with relevant enforcement agencies in other Member States on investigations of offences under Regulation No. (EC) 338/97? (In accordance with <i>Commission Recommendation C (2007) 2551</i> , paragraph III e.)	Yes	<b>Y</b>
		No	<input type="checkbox"/>
		No information	<input type="checkbox"/>
Comments:			
28 new	Is assistance being provided to other Member States with the temporary care and long-term re-homing of seized or confiscated live specimens? (In accordance with <i>Commission Recommendation C (2007) 2551</i> , paragraph III j.)	Yes	<input type="checkbox"/>
		No	<b>N</b>
		No information	<input type="checkbox"/>
Comments:			
29 new	Is liaison taking place with CITES MAs and law enforcement agencies in source, transit and consumer countries outside of the Community as well as the CITES Secretariat, ICPO, Interpol and the World Customs Organization to help detect, deter and prevent illegal trade in wildlife through the exchange of information and intelligence? (In accordance with <i>Commission Recommendation C (2007) 2551</i> , paragraph III k.)	Yes	<b>Y</b>
		No	<input type="checkbox"/>
		No information	<input type="checkbox"/>
Comments: Problem with sharing of information officially. See Comments 27			
30 new	Is advice and support being provided to CITES MAs and law enforcement agencies in source, transit and consumer countries outside of the Community to facilitate legal and sustainable trade through correct application of procedures? (In accordance with <i>Commission Recommendation C (2007) 2551</i> , paragraph III l.)	Yes	<input type="checkbox"/>
		No	<b>N</b>
		No information	<input type="checkbox"/>
