THE INTERNATIONAL CONSORTIUM ON COMBATING WILDLIFE CRIME (ICCWC) MENU OF SERVICES

The ICCWC Menu of Services provides an indicative list of the training courses, tools and services available through ICCWC partner agencies. These can be delivered globally in accordance with the ICCWC Strategic Programme. Examples are provided overleaf, however, the list is not exhaustive. Please consult the Menu of Services for full details.

Capacity building and training tailored to specific needs and requests can also be provided.

Drawing upon their complementary mandates, unique pool of knowledge and expertise, and extensive national and regional networks, the five ICCWC partner agencies are uniquely placed to deliver a range of comprehensive interventions to strengthen criminal justice systems and build long-term capacity among authorities to address wildlife crime, providing them with the tools, services and technical support they need.

For activities implemented under the auspices of ICCWC, the Consortium will identify a lead ICCWC partner agency or multiple partner agencies responsible for coordinating arrangements for delivery of planned activities, in collaboration with the country, national authorities, regional bodies, or networks concerned.

Generous contributions from donors enable the Consortium to provide extensive support to national agencies, sub-regional and regional networks responsible for wildlife law enforcement. ICCWC is actively reaching out to identified member states to offer support. Each request for support from a member state is considered on an individual basis, in accordance with the priorities outlined in the ICCWC Strategic Programme. Support is subject to the availability of funds and resources. Further information on the ICCWC Strategic Programme can be found at <https://cites.org/eng/prog/iccwc.php>
