

CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES
OF WILD FAUNA AND FLORA

Twelfth meeting of the Standing Committee MIKE - ETIS Sub-Group
Geneva (Switzerland), 27 June 2005

MIKE and ETIS

ETIS PROGRESS REPORT

1. This cover note has been prepared by the Secretariat.
2. Under the terms of Resolution Conf. 10.10 (Rev. CoP12), the Elephant Trade Information System programme (ETIS) is established under the supervision of the Standing Committee and is managed and coordinated by TRAFFIC.
3. The Secretariat herewith transmits a progress report from Tom Milliken and Louisa Sangalakula, TRAFFIC East/South Africa.
4. The Standing Committee MIKE-ETIS Sub-Group is invited to note the report.

The Elephant Trade Information System (ETIS):

A report to the 53rd meeting of the CITES Standing Committee

Since the thirteenth meeting of the Conference of the Parties (CoP13), the following developments have taken place with respect to operation and management of the Elephant Trade Information System (ETIS):

Data Collection:

Since 06 July 2004, when ETIS was closed for the last analysis to CoP13, TRAFFIC has received 1004 records of elephant product seizures from 44 countries, of which 869 were input into ETIS and 16 were rejected. The remaining 119 cases are pending further clarification before data entry can be undertaken and are included together with 150 other cases that have been pending since CoP12 and CoP13 in Table 1, ***Seizures cases pending verification prior to entry into ETIS***. Thus, a total of 269 cases are pending further data verification at this time. It is worth noting that of the 464 cases pending at CoP13, 99 of these cases have since been verified and are included to ETIS, while 215 were rejected, primarily due to duplication.

Since CoP13, the Born Free Foundation has provided TRAFFIC on two occasions with information listed in their reports *A Global Problem, Elephant Poaching and Ivory Seizure Data 2000 – 2002* and *The Tip of the Tusk, Elephant Poaching and Ivory Seizures 1998 – 2004*. This has resulted in some 200 new cases from Cameroon, Central African Republic, Swaziland, Italy, Jordan, Finland, Slovakia and United Kingdom.

The CITES data collection process has yielded an additional 180 new cases from Botswana, Kenya, Hong Kong, Japan, Thailand, France and Canada.

Number of Records:

As of 31 May 2005, ETIS comprised 10 394 elephant product seizure records, representing law enforcement actions in 77 countries around the world. These data are presented in Table 2, ***Number of elephant product seizures by country by year***. The number of new elephant product seizures by country by year is presented in Table 3, ***Elephant product seizures cases entered into ETIS since CoP13***. This represents an increase of 968 new cases.

Outputs to the Parties:

Soon after CoP13, the CITES Secretariat distributed the 4th ETIS Country Report to the designated CITES Management Authorities in 166 Parties and 19 Non-Parties. These reports feature tabular summaries of all data in ETIS which pertain to a particular country, including all seizures made and reported by the country in question, as well as all seizures where the country in question was identified as a country of origin, country of export or re-export, or country of destination, or where a national of the country of the in question has been arrested in conjunction with an ivory seizure elsewhere in the world.

These reports provide an opportunity for each CITES Party to understand and review the status of the elephant product seizure data in ETIS which relates directly to them. TRAFFIC encourages countries to further verify the data and engage in dialogue concerning aspects of the data. In this regard, the Governments of Austria, the Netherlands, Poland, Swaziland and Sweden responded to the report either with new elephant product seizure data or corrections concerning existing information. The Government of the United Kingdom responded with a query.

Other Analytical Outputs

To enhance the implementation of ETIS within Southeast Asian region, TRAFFIC prepared a brief analysis of the participation of the ten ASEAN countries in ETIS. The article, entitled ***Urgent need for ASEAN to improve elephant ivory trade monitoring performance***, was featured on the TRAFFIC website in March 2005 (http://www.traffic.org/news/elephant_ivory.html). The analysis showed that very few ivory and

other elephant product seizures are being made by ASEAN countries, however, nearly six times as many seizures are being made and reported by other countries which link directly to the ASEAN region.

African and Asian Elephant Range States and ETIS

As has been reported in the past, a number of elephant range states have never reported any ivory or other elephant product seizures to ETIS since 1989 to the present.

Within Africa, the following African Elephant Range States have never provided any information to ETIS: Angola, Benin, Equatorial Guinea, Eritrea, Gambia, Ghana, Guinea Bissau, Liberia, Senegal, Somalia, Sudan and Togo.

Within Asian, the following Asian Elephant Range States have never provided any information to ETIS: Bangladesh, Cambodia, Indonesia, Lao People's Democratic Republic and Myanmar.

Fundraising for ETIS:

The Department of Environment, Food and Rural Affairs (DEFRA) in the United Kingdom has once again provided TRAFFIC with a grant of GBP32,000 for the operation and development of ETIS. TRAFFIC is grateful to DEFRA for almost single-handedly supporting ETIS.

Prepared by Tom Milliken and Louisa Sangalakula
