# **NATIONAL IVORY ACTION PLAN (NIAP) OF CAMEROON (Revised)**

**April 2015**

At its 65th meeting held in Geneva in July 2014, the CITES Standing Committee requested countries of “secondary concern” (Cameroon, Congo, the Democratic Republic of the Congo, Egypt, Ethiopia, Gabon, Mozambique and Nigeria) and those “of importance to watch” (Angola, Cambodia and the Lao People’s Democratic Republic) to draw up national ivory action plans (NIAP) including implementation timeframes, with the aim of combating the illegal ivory trade. These plans were to be based on the six major pillars below, and to be broken down into priority actions.

- A. Legislation
- B. Legal proceedings
- C. Information-gathering and investigation
- D. National and international cooperation on wildlife crime
- E. Enforcement operations
- F. Communication and awareness-raising.

The NIAP drawn up by Cameroon with technical assistance from CITES consultants was submitted and approved by that body in February 2015. However, Cameroon was recommended to organize a technical meeting with all the stakeholders involved in effective implementation (other administrations and conservation partners) in order to secure approval of it at national level.

A workshop was held for this purpose from 13 to 15 April 2015. It resulted, on the one hand, in a recasting of the activities previously set down in the approved NIAP, which had been considered by the CITES consultants placed at our disposal to be achievable in the long term. Then there was a process of breaking down the activities into those considered to be priorities, as having a direct impact on this illegal trade. On the other hand, the various sources of funding were identified, in conjunction with an implementation timetable.

**National Ivory Action Plan of Cameroon, revised in accordance with the work and recommendations from the workshop for ownership of the plan, April 2015**
