# CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES OF WILD FAUNA AND FLORA

CE

Seventy-seventh meeting of the Standing Committee Geneva (Switzerland), 6–10 November 2023

#### Compliance

#### National reports

#### REVISED REPORT FORMAT FOR THE IMPLEMENTATION REPORTS

- 1. This document has been prepared by the Secretariat.
- 2. At its 19th meeting (CoP19; Panama City, 2022), the Conference of the Parties adopted the indicators for the *CITES Strategic Vision* as presented in document CoP19 Com. II. 2. The indicators can be found <a href="https://example.com/here">here</a> in the section on the implementation report of the CITES website.
- 3. At CoP19, the Secretariat noted that questions would need to be added to the implementation report in order for the Secretariat to collect data against the indicators. The Secretariat further noted that the implementation report format follows the structure of the CITES Strategic Vision: 2008-2020 and as such would need to be restructured. Following the mapping of the CITES Strategic Vision 2021-2030 (see document SC77 Doc. 16) against the 2030 Sustainable Development Goals (SDGs) and the Kunming-Montreal Global Biodiversity Framework (GBF), the relevant goals and targets also need to be included for information and to facilitate use of the same data within different frameworks.
- 4. The implementation report format contained in Annex 1 to the present document is restructured to follow the *CITES Strategic Vision: 2021-2030* and mapped against the SDGs and the GBF. Any question that has simply changed location and been renumbered is shown in black and any questions that the Secretariat is proposing for inclusion are shown in red.
- 5. The Secretariat is proposing to separate at the end of the implementation report all the questions of the previous implementation report format that are not used for collecting data against the Strategic Vision indicators.
- 6. The Secretariat notes that the response rate for the submission of implementation reports in the past has been between 30 and 50 percent, as shown on the <u>CITES website</u>. To provide reliable and useful data for monitoring the implementation of the Strategic Vision through reporting on the indicators, the response rate needs to increase, preferably to be stable at no less than 50 per cent for each cycle. To that end, the Secretariat is exploring the feasibility of uploading the implementation report as an online survey and to send the exclusive link to the Management Authorities of each Party.
- 7. The Secretariat recalls that the submission deadline for the next implementation report is 31 October 2024, which is the last day of October of the year before each meeting of the Conference of the Parties.

#### Recommendations

- The Standing Committee is invited to:
  - a) review and agree on the amendments to the report format of the implementation reports in the Annex to the present document; and

b)	encourage Parties to submit their next implementation report by 31 October 2024 (covering 2021, 2022 and 2023) so that the Secretariat can gather the necessary data for reporting on progress towards achievement of the goals of the <i>CITES Strategic Vision</i> to the next meeting of the Conference of the Parties (CoP20) scheduled to take place in 2025.

#### Implementation report format

(revisions to existing text are shown as <u>underlined</u> (for new text) and <del>strikethrough</del> (for deleted text); new questions are indicated <u>in red</u>)

The format below follows the structure of the *CITES Strategic Vision: 2021-2030* and aims to collect information to enable the Strategic Vision indicators to be <u>monitored</u> implemented.

#### **CITES** vision statement

By 2030, all international trade in wild fauna and flora is legal and sustainable, consistent with the long-term conservation of species, and thereby contributing to halting biodiversity loss, to ensuring its sustainable use, and to achieving the 2030 Agenda for Sustainable Development.

Article VIII, paragraph 7 (b), of the Convention requires each Party to submit to the CITES Secretariat a report on legislative, regulatory and administrative measures taken to enforce the provisions of the Convention.

The report format allows Parties to present information in a standard manner, so that it can be easily collated, with three main objectives:

- i) To enable monitoring of the implementation and effectiveness of the Convention;
- ii) To facilitate the identification of major achievements, significant developments, or trends, gaps or problems and possible solutions; and
- iii) Provide a basis for substantive and procedural decision-making by the Conference of the Parties and various subsidiary bodies.

The questions of the implementation report follow the structure of the *Strategic Vision 2021-2030* and its indicators that are mapped against the Sustainable Development Goals and the Kunming-Montreal Global Biodiversity Framework to ensure synergies and consistent reporting.

Information on the nature and extent of CITES trade should be incorporated into the annual report [Article VIII paragraph 7 (a)], whereas the report provided under Article VIII paragraph 7 (b) should focus on measures taken to implement the Convention.

The report should cover the period indicated in <u>Resolution Conf. 11.17 (Rev. CoP19)</u> which urges that the report should be submitted to the Secretariat on 31 October of the year before each meeting of the Conference of the Parties (CoP). The reason for setting the report to be due a year in advance of the following CoP is to allow information to be collated so it can be considered by the Standing Committee in advance of CoP, and enable publication of the Strategic Vision indicators in advance of CoP.

Reports should be prepared in one of the three working languages of the Convention (English, French, Spanish).

Parties are *strongly* encouraged to prepare and submit their reports in electronic form <u>and to answer at a minimum all **questions in bold**</u>. This will facilitate timely integration of information from Parties into publication of the Strategic Vision Indicators. If reports are only provided in hard copy, resources will be needed at the Secretariat to make an electronic copy, and this is not good use of Secretariat resources.

The completed report should be sent to:

CITES Secretariat International Environment House Chemin des Anémones 11-13 CH-1219 Châtelaine-Geneva Switzerland

Email: info@cites.org

Tel: +41-(0)22-917-81-39/40 Fax: +41-(0)22-797-34-17

If a Party requires further guidance on completing their report, please contact the CITES Secretariat at the address above.

	If 'Yes', and your country has an appropriate forensic please indicate which species it applies to:	analys	is facil	ity for CITES-lis	sted species,			
3.4.1d (previously 1.7.3d)	Did your authorities participate in or initiate any multi- law enforcement operation(s) targeting CITES-listed s during the period covered in this report?	Yes  No  No information						
	If 'Yes', please provide a brief summary, including any other Parties:	/ lesso	ns lear	ned which mig	ht be helpful for			
3.4.1e (previously 1.7.3e)	Do <u>es</u> you <u>r country</u> have a standard operating procedurelevant agencies for submitting information related to offences to INTERPOL and/or the World Customs Or	CITE	S	Yes				
3.4.1f (previously 1.7.3f)	Does your country have legislative provisions for any of the following that can be applied to the investigation, prosecution and/or sentencing of CITES offences as appropriate?	Yes	No	No information	If yes, how many times was this used during the period covered by this report?			
	General crime <sup>3</sup>							
	Predicate offences <sup>4</sup>							
	Asset forfeiture <sup>5</sup>							
	Corruption <sup>6</sup>							
	International cooperation in criminal matters <sup>7</sup>							
	Organized crime <sup>8</sup>							

Capacity to use forensic technology means the ability to collect, handle and submit samples from crime scenes involving CITES-listed species to an appropriate forensic analysis facility, located either in your country or in another country(ies).

A multi-disciplinary law enforcement operation is one that involves officers from all relevant enforcement disciplines as appropriate, for example officers from Police, Customs and the wildlife regulatory authority. It could be either sub-national, national or international in scope.

General crime laws relate to offences such as fraud, conspiracy, possession of weapons, and other matters as set out in the national criminal code.

<sup>&</sup>lt;sup>4</sup> Article 2, paragraph (h) of the United Nations Convention against Transnational Organized Crime defines a predicate offence is an offence whose proceeds may become the subject of any of the money-laundering offences established under the Convention.

<sup>&</sup>lt;sup>5</sup> Asset forfeiture is the seizure and confiscation of assets obtained from criminal activities to ensure that criminals do not benefit from the proceeds of their crimes.

Provisions against corruption include national laws to implement the United Nations Convention against Corruption covering offences such as bribery of officials, embezzlement or misappropriation of public funds, trading in influence and abuse of functions by public officials

<sup>&</sup>lt;sup>7</sup> International cooperation in criminal matters includes legislation through which a formal request for mutual legal assistance and/or extradition of a person for criminal prosecution can be forwarded to another country.

Article 2, paragraph (a) of the United Nations Convention against Transnational Organized Crime defines an organized criminal group as a structured group of three or more persons, existing for a period of time and acting in concert with the aim of committing one or more serious crimes or offences established in accordance with the Convention, in order to obtain, directly or indirectly, a financial or other material benefit.

	Specia	alized investigation techniques <sup>1</sup>					
	If 'Yes' to any of the above, please explain how each is used for CITES offences? Please provide brief summary, including any lessons learned which might be helpful for other Parties:						
3.4.1g (previously 1.7.3g)		you <u>r country</u> have institutional capacity to implement the tive provisions listed in the question above against CITES es?	Yes				
	If 'No',	please provide a brief summary of your major capacity-build	ing needs:				
Objective 3	3.5	Parties work collaboratively across range, transit and desillegal trade chains, including through strategies to reduce billegal products, in order for trade to be legal and sustainable SDG Goals 15 & 17 GBF Targets 5, 16, 20 & 21	oth the supply of and demand for
