Periodic Review of species included in Appendices I and II

OVERVIEW OF SPECIES UNDER PERIODIC REVIEW

1. This document has been prepared by the Secretariat.
2. In Resolution Conf. 14.8 (Rev. CoP17) on *Periodic Review of species included in Appendices I and II*, the Conference of the Parties agreed on a process and guidelines for the Animals and Plants Committee to undertake a periodic review of animal or plants species included in CITES Appendices, and in paragraph 6:
 6. *DIRECTS the Secretariat to maintain a record of the species selected for periodic review, including: species previously and currently reviewed; dates of relevant Committee documents; recommendations from the reviews; and any reports and associated documents;*
3. The Secretariat also recalls that, in paragraph 2 a) of Resolution Conf. 14.8 (Rev. CoP17), the Conference of the Parties further agreed that:
 - a) *normally, after every second meeting of the Conference of the Parties, the Animals and Plants Committees shall establish a schedule for the periodic review of the Appendices and identify a list of taxa they propose to review during the next two intersessional periods. The list should be established at the first meetings of the Committees after the meeting of the Conference of the Parties (CoP) that initiates the review period;*
4. The most recent schedule for the periodic review of the Appendices was established following the 17th meeting of the Conference of the Parties (CoP17; Johannesburg, 2016) for the next two intersessional periods, until the 19th meeting of the Conference of the Parties (CoP19; 2022). Therefore, the Animals and Plants Committees shall establish at their first meeting after CoP19 a new schedule and list of taxa proposed to be reviewed during the next two intersessional periods, until the 21st meeting of the Conference of the Parties (CoP21).

Overview of animal species in the periodic review process

5. The Secretariat last reported on the status of the periodic review of species included in Appendices I and II at the 30th meeting of the Animals Committee (AC30; Geneva, July 2018) in document AC30 Doc. 29.1. This document presented an overview of species under Periodic Review, including the summary of ongoing periodic reviews as of May 2017, in addition to those selected for the CoP17-CoP19 review period.
6. Regarding the species selected for review during the period CoP17-CoP19, the Animals Committee considered six reports presented by Australia (documents AC30 Doc. 29.2.1 to 29.2.6) on *Dasyornis*

longirostris, *Dasyornis broadbenti litoralis*, *Leporillus conditor*, *Pseudomys fieldi praeconis*, *Xeromys myoides*, and *Zyzomys pedunculatus*. The recommendations by Australia to transfer these taxa from Appendix I to II were agreed by the Animals Committee. Australia submitted amendment proposals CoP18 Props. 14 to 17, and CoP18 Props. 20 and 21. The Conference of the Parties adopted all of these proposals at its 18th meeting (CoP18, Geneva, 2019).

7. Additionally, Viet Nam submitted at CoP18 three amendment proposals for taxa that had been selected for the CoP16-CoP18 review period [CoP18 Prop. 33 (*Cuora bourreti*) transfer from Appendix II to Appendix I; CoP18 Prop. 34 (*Cuora picturata*) transfer from Appendix II to Appendix I; and CoP18 Prop. 35 (*Mauremys annamensis*) transfer from Appendix II to Appendix I]. The Conference of the Parties adopted these three proposals at CoP18, in line with recommendations of the Animals Committee.
8. In compliance with paragraph 6 of Resolution Conf. 14.8 (Rev. CoP17), the present document contains the record of animal species selected for review by the Animals Committee, as follows:
 - a) **Annex 1A:** record of animal species selected for review between the 13th and 15th meetings of the Conference of the Parties (CoP13; Bangkok, 2004 and CoP15; Doha, 2010).
 - b) **Annex 1B:** record of animal species selected for review between CoP15 and the 17th meeting of the Conference of the Parties (CoP17; Johannesburg, 2016);
 - c) **Annex 1C:** record of animal species selected for review between CoP16 and the 18th meeting of the Conference of the Parties (CoP18; Geneva, 2019)¹;
 - d) **Annex 1D:** record of animal species selected for review between CoP17 and the 19th meeting of the Conference of the Parties (CoP19, 2022); and,
 - e) **Annex 1E:** A summary of all cases of animal species that remain ongoing, as of April 2020.
9. The above record of animal species in the periodic review process will also be made available on the CITES website. The Secretariat will continue to update the website based on any relevant periodic reviews for animal species Parties might submit.

Overview of plant species in the periodic review process

10. At its 24th meeting (PC24; Geneva, July 2018), the Plants Committee considered document PC24 Doc. 25.1 on the overview of species under periodic review, including the summary of ongoing periodic reviews as of May 2017, in addition to those selected for the CoP17-CoP19 period. The Committee noted document PC24 Doc. 25.1. Furthermore, it agreed that *Dioscorea deltoidea* (selected for the CoP13-CoP15 review period) should be deleted from the list of species to be reviewed in accordance with paragraph 2 d) of Resolution Conf. 14.8 (Rev. CoP17), since no volunteer offered to undertake a review within two intersessional periods between meetings of the Conference of the Parties. Regarding the species selected for review during the CoP15-CoP17 period, the United States of America presented document PC24 Doc 25.2.1, which recommended to retain *Lewisia serrata* in Appendix II. The Plants Committee determined that *Lewisia serrata* met the criteria for retention in Appendix II in Resolution Conf. 9.24 (Rev. CoP17) on *Criteria for amendment of Appendices I and II*.
11. In compliance with paragraph 6 of Resolution Conf. 14.8 (Rev. CoP17), the present document contains the record of plant species selected for review by the Plants Committee, as follows:
 - a) **Annex 2A:** record of plant species selected for review between the 13th and 15th meetings of the Conference of the Parties (CoP13; Bangkok, 2004 and CoP15; Doha, 2010).
 - b) **Annex 2B:** record of plant species selected for review between CoP15 and the 17th meeting of the Conference of the Parties (CoP17; Johannesburg, 2016);

¹ At its 27th meeting (AC27; Veracruz, April 2014), the Animals Committee agreed to include as a matter of priority in the Periodic Review Process three animal species. Since these species were selected based on (now deleted) Decisions 16.124 to 16.126, they represent a "stand-alone" review period of animal species selected for review between CoP16 and CoP18.

- c) **Annex 2C:** record of plant species selected for review between CoP17 and the 19th meeting of the Conference of the Parties (CoP19, 2022); and
 - d) **Annex 2D:** a summary of all cases of plant species that remain ongoing, as of April 2020.
12. The above record of plant species in the periodic review process will also be made available on the CITES website. The Secretariat will continue to update the website based on any relevant periodic reviews for plant species Parties might submit.

Recommendations

13. The Animals and Plants Committees are invited to take note of this document and its Annexes.²

⁷ As per document [AC27 Doc. 24.1](#), the status of the review is generally ascribed to one of the four categories below :

- Review ongoing [species still being considered under paragraphs e) – k) of the Resolution Conf. 14.8 (Rev. CoP15)].
- Review completed (actions under paragraphs j) or k) of the Resolution fully undertaken).
- Review stopped (paragraphs j) or k) of the Resolution not completed and no further action planned).
- Species deleted from review (no volunteer offered to undertake a review, paragraph e) of the Resolution).

⁸ Reservations to CITES Appendices made by Parties are indicated by adding 'r' to the Appendix number.

⁹ AC23 (Geneva, April 2008) recommended to eliminate from periodic review: *Acinonyx jubatus*, *Caracal caracal*, *Catopuma temminckii*, *Leptailurus serval*, *Neofelis nebulosa*, *Pardofelis marmorata*, *Uncia uncia*.

⁴⁷ In Resolution Conf. 14.8 (Rev. CoP17), the Conference of the Parties agreed that the Committee should establish a schedule for the Periodic Review of the Appendices and identify a list of taxa they propose to review during the next two intersessional periods between meetings of the CoP. The Plants Committee, however, made the current selection of species for review under the guidelines for conducting the periodic review adopted by the Standing Committee at its 51st meeting (Bangkok, October 2004).

⁴⁸ For species selected prior to CoP17, steps refer to the process laid out in Resolution Conf. 14.8 (Rev. CoP15).

⁵² As per document PC21 Doc. 19.1, it was agreed that the status of the review should be ascribed to one of the four categories below :

- Review ongoing [species still being considered under paragraphs e) – k) of the Resolution Conf. 14.8 (Rev. CoP15)].
- Review completed (actions under paragraphs j) or k) of the Resolution fully undertaken).
- Review stopped (paragraphs j) or k) of the Resolution not completed and no further action planned).
- Species deleted from review (no volunteer offered to undertake a review, paragraph e) of the Resolution).

¹ At PC18, the Committee maintained an intersessional working group on *Aloe* spp. and *Euphorbia* spp. – both listed in Appendix I – and *Didiereaceae* spp. The reviews required under the provisions of the Resolution Conf. 14.8 (Rev. CoP17) were presented in document [PC18 Doc. 16.1.1](#), Annex 5, but it is not clear if there is enough information for the Committee to decide whether or not the listing criteria established by the Resolution Conf. 9.24 (Rev. CoP16) have been met. The Plants Committee, at its 21st meeting, agreed that there is insufficient information to determine if the 17 species of *Aloe* spp. in Appendix I; 17 species of *Didiereaceae* spp. in Appendix II and 10 species of *Euphorbia* spp. in Appendix I that were selected for the review period CoP13-CoP15 are appropriately listed in the Appendices. Madagascar was requested to submit a revised and updated version of Annex 5 of document [PC18 Doc. 16.1.1](#) to PC22, which should contain recommendations for the appropriate listing of the species and which should be translated. At PC22, Madagascar introduced document [PC22 Doc. 20.3.1](#). While noting that *Didiereaceae* was not endemic to Madagascar, speakers supported the conclusion reached by Madagascar, proposing no change to the current listing of these species. The review of *Aloe helenae* from Madagascar is ongoing (see Annex 1).

² In Resolution Conf. 14.8 (Rev. CoP17), the Conference of the Parties agreed that the Committee should establish a schedule for the Periodic Review of the Appendices and identify a list of taxa they propose to review during the next two intersessional periods between meetings of the CoP. The Plants Committee, however, made the current selection of species for review under the guidelines for conducting the periodic review adopted by the Standing Committee at its 51st meeting (Bangkok, October 2004).

³ For species selected prior to CoP17, steps refer to the process laid out in Resolution Conf. 14.8 (Rev. CoP15).

List of abbreviations

IUCN Categories used for the Red List:⁵⁸

Extinct (EX) – No known individuals remaining.

Extinct in the Wild (EW) – Known only to survive in captivity; or as a naturalized population outside its historic range.

Critically Endangered (CR) – Extremely high risk of extinction in the wild.

Endangered (EN) – High risk of extinction in the wild.

Vulnerable (VU) – High risk of endangerment in the wild.

Near Threatened (NT) – Likely to become endangered in the near future.

Least Concern (LC) – Lowest risk. Does not qualify for a more at risk category. Widespread and abundant taxa are included in this category.

Data Deficient (DD) – Not enough data to make an assessment of its risk of extinction.

Not Evaluated (NE) – Has not yet been evaluated against the criteria.

n/a – This taxon has not yet been assessed for the IUCN Red List

IUCN Criteria for Critically Endangered; Endangered and Vulnerable:

There is a hierarchical alphanumeric numbering system of criteria and subcriteria. More info could be found on http://www.iucnredlist.org/static/categories_criteria_3_1.

CITES Range States Distribution key

? – outstanding query over status

ex. – extinct

int. – introduced

"popn" for population.

⁵⁸ The IUCN Red List of Threatened Species (also known as the IUCN Red List or Red Data List), founded in 1963, is the world's most comprehensive inventory of the global conservation status of biological species.
