

CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES
OF WILD FAUNA AND FLORA

Twenty-third meeting of the Plants Committee
Geneva (Switzerland), 22 and 24-27 July 2017

Species specific matters

Maintenance of the Appendices

Periodic review of species included in Appendices I and II

OVERVIEW OF SPECIES UNDER PERIODIC REVIEW

1. This document has been prepared by the Secretariat.
2. In Resolution Conf. 14.8 (Rev. CoP17) on Periodic review of species included in Appendices I and II, the Conference of the Parties agrees on a process and guidelines for the Animals and Plants Committees to undertake a periodic review of animal or plant species included in the CITES Appendices and in paragraph 6:

DIRECTS the Secretariat to maintain a record of species selected for periodic review, including: species previously and currently reviewed, dates of relevant Committee documents, recommendations from the reviews, and any reports and associated documents.

3. Annex 1 shows the record of plant species selected for review between the 13th and 15th meetings of the Conference of the Parties (CoP13, Bangkok, 2004; CoP15, Doha, 2010).
4. The record of plant species to be reviewed between CoP15 and the 17th meeting of the Conference of the Parties (CoP17, Johannesburg, 2016) is shown in Annex 2.
5. At its 21st meeting (PC21; Veracruz, May 2014), the Plants Committee reviewed records of species selected for periodic review and made several recommendations concerning species under review which are reflected in the tables shown in Annexes 1 and 2.
6. Annex 3 shows the List of abbreviations of the IUCN Red List of Threatened Species and Annex 4 presents the list of ISO country codes. Both review periods are summarized below:

Review period	Result of the periodic review process	Resulting amendments to the Appendices
CoP13-CoP15: 106 species selected for review	79 species reviews were completed	<ul style="list-style-type: none"> 1 species transferred from Appendix II to Appendix I 37 taxa were retained in Appendix I 27 taxa were retained in Appendix II 1 species deleted from Appendix I 13 taxa/species were deleted from Appendix II
	23 species reviews were stopped as the listings were amended before the Periodic Review was completed	<ul style="list-style-type: none"> 1 species deleted from Appendix I 19 species deleted from Appendix II 1 species transferred from Appendix I to II 2 species review stopped without changes
	1 species reviews ongoing ¹	
	2 species to be reconsidered by the CoP15-CoP17 Review Period (reviewer required)	(see Annex 2)
CoP15-CoP17: 8 species selected for review	3 species review were completed	<ul style="list-style-type: none"> 1 species retained in Appendix I 1 species retained in Appendix II 1 species to delete from Appendix II
	1 species review was stopped as the listing was amended before the Periodic Review was completed	<ul style="list-style-type: none"> 1 species deleted from Appendix II
	1 species review stopped – Species deleted from review	
	3 species reviews ongoing	

7. The records of species selected for Periodic Review, as presented in Annexes 1 to 3, follow the same form and format as previous submissions by the Secretariat. However, it is not clear if data fields containing information that may modify over time (conservation status; distribution) need to be kept up to date, and the Secretariat would appreciate guidance in this regard. Furthermore, in its comments on document CoP17 Doc. 82.1, the Secretariat indicated that maintaining the records for the Periodic Review was increasingly demanding. It would be preferable to develop a searchable and manageable online Periodic Review database. The Secretariat has no core funding for these activities, and external funding would need to be secured for establishing and maintaining a Periodic Review database. The costs could be in the order of USD 50,000 for the period between CoP17 and CoP18.

¹ At PC18, the Committee maintained an intersessional working group on *Aloe* spp. and *Euphorbia* spp. – both listed in Appendix I – and *Didiereaceae* spp. The reviews required under the provisions of the Resolution Conf. 14.8 (Rev. CoP17) were presented in document [PC18 Doc. 16.1.1](#), Annex 5, but it is not clear if there is enough information for the Committee to decide whether or not the listing criteria established by the Resolution Conf. 9.24 (Rev. CoP16) have been met. The Plants Committee, at its 21st meeting, agreed that there is insufficient information to determine if the 17 species of *Aloe* spp. in Appendix I; 17 species of *Didiereaceae* spp. in Appendix II and 10 species of *Euphorbia* spp. in Appendix I that were selected for the review period CoP13-CoP15 are appropriately listed in the Appendices. Madagascar was requested to submit a revised and updated version of Annex 5 of document [PC18 Doc. 16.1.1](#) to PC22, which should contain recommendations for the appropriate listing of the species and which should be translated. At PC22, Madagascar introduced document [PC22 Doc. 20.3.1](#). While noting that *Didiereaceae* was not endemic to Madagascar, speakers supported the conclusion reached by Madagascar, proposing no change to the current listing of these species. The review of *Aloe helenae* from Madagascar is ongoing (see Annex 1).

Recommendations:

8. The Plants Committee is invited to:
 - a) comment on the Secretariats' observations in paragraph 7; and
 - b) take note of this information and decide on further steps, based on progress reported by Parties on pending reviews.

Periodic Review of the Appendices – Plants

REVIEW PERIOD BETWEEN COP13 (2004) AND COP15 (2010)^{2 3}

Taxon; CITES Appendix	Meeting when the species were selected [paragraph b)]	Date the Parties were informed [paragraph e)]	Date the Standing Committee was informed [paragraph h)]	Document containing the review report [paragraph i)]	Recommendation [paragraph j)]	Range States requested to submit proposal [paragraph j (ii)]	IUCN Red List category ⁴ Range States and territories ^{5 6}	Status of the review ⁷ , reviewing Party, Notes
Medicinal plants								
<i>Saussurea costus</i> (I)	PC15 (May 2005)	19 July 2005 Notification No. 2005/037	2 June 2007 (SC55 Doc. 18)	PC19 Inf. 7	PC19 SumRec Retain in Appendix I	---	n/a IN, PK	Review completed
<i>Dioscorea deltoidea</i> (II)	PC15 (May 2005)	19 July 2005 Notification No. 2005/037	2 June 2007 (SC55 Doc. 18)	---	---	---	n/a AF, BT, KH, CN, IN, LA, NP, TH, VN	To be reconsidered between CoP15 & CoP17
Timber species								
<i>Balmea stormiae</i> (I)	PC15 (May 2005)	19 July 2005 Notification No. 2005/037	2 June 2007 (SC55 Doc. 18)	---	---	Species deleted from review	n/a GT, MX, SV	Review stopped. PC22 Com. 2

² In Resolution Conf. 14.8 (Rev. CoP17), the Conference of the Parties agreed that the Committee should establish a schedule for the Periodic Review of the Appendices and identify a list of taxa they propose to review during the next two intersessional periods between meetings of the CoP. The Plants Committee, however, made the current selection of species for review under the guidelines for conducting the periodic review adopted by the Standing Committee at its 51st meeting (Bangkok, October 2004).

³ Steps refer to the process laid out in Resolution Conf. 14.8 (Rev. Cop17).

⁴ The IUCN Red List of Threatened Species, 2014.1, downloaded in June 2015, <http://www.iucnredlist.org/search>

⁵ Range states and territories as per CITES Species +, 2015, <http://www.speciesplus.net/>

⁶ ISO counties codes used as abbreviations, see Annex 4 or http://www.iso.org/iso/country_codes/iso_3166_code_lists/country_names_and_code_elements.htm

⁷ As per document PC21 Doc. 19.1, it was agreed that the status of the review should be ascribed to one of the four categories below :

- Review ongoing [species still being considered under paragraphs e) – k) of the Resolution Conf. 14.8 (Rev. CoP15)].
- Review completed (actions under paragraphs j) or k) of the Resolution fully undertaken).
- Review stopped (paragraphs j) or k) of the Resolution not completed and no further action planned).
- Species deleted from review (no volunteer offered to undertake a review, paragraph e) of the Resolution).

Taxon; CITES Appendix	Meeting when the species were selected [paragraph b)]	Date the Parties were informed [paragraph e)]	Date the Standing Committee was informed [paragraph h)]	Document containing the review report [paragraph i)]	Recommendation [paragraph j)]	Range States requested to submit proposal [paragraph j (ii)]	IUCN Red List category ⁴ Range States and territories ^{5 6}	Status of the review ⁷ , reviewing Party, Notes

Didiereaceae spp. (17 species) PC22 recommended to retain 11 species in Appendix II PC22 Com.2								
<i>Alluaudia ascendens</i> (II) = <i>Didierea ascendens</i> Drake	PC15 (May 2005)	19 July 2005 Notification No. 2005/037	2 June 2007 (SC55 Doc. 18)	PC18 Doc. 16.1.1 Annex 5	PC18	---	n/a MG	Review completed. ¹ MG submitted PC22 Doc. 20.3.1
<i>Alluaudia comosa</i> (II) = <i>Didierea comosa</i> Drake	PC15 (May 2005)	19 July 2005 Notification No. 2005/037	2 June 2007 (SC55 Doc. 18)	PC18 Doc. 16.1.1 Annex 5	PC18	---	n/a MG	Review completed. ¹ MG submitted PC22 Doc. 20.3.1

¹ At PC18, the Committee maintained an intersessional working group on *Aloe* spp. and *Euphorbia* spp. – both listed in Appendix I – and Didiereaceae spp. The reviews required under the provisions of the Resolution Conf. 14.8 (Rev. CoP17) were presented in document [PC18 Doc. 16.1.1, Annex 5](#), but it is not clear if there is enough information for the Committee to decide whether or not the listing criteria established by the Resolution Conf. 9.24 (Rev. CoP16) have been met. The Plants Committee, at its 21st meeting, agreed that there is insufficient information to determine if the 17 species of *Aloe* spp. in Appendix I; 17 species of Didiereaceae spp. in Appendix II and 10 species of *Euphorbia* spp. in Appendix I that were selected for the review period CoP13-CoP15 are appropriately listed in the Appendices. Madagascar was requested to submit a revised and updated version of Annex 5 of document [PC18 Doc. 16.1.1](#) to PC22, which should contain recommendations for the appropriate listing of the species and which should be translated. At PC22, Madagascar introduced document [PC22 Doc. 20.3.1](#). While noting that Didiereaceae was not endemic to Madagascar, speakers supported the conclusion reached by Madagascar, proposing no change to the current listing of these species. The review of *Aloe helenae* from Madagascar is ongoing (see Annex 1).

Taxon; CITES Appendix	Meeting when the species were selected [paragraph b)]	Date the Parties were informed [paragraph e)]	Date the Standing Committee was informed [paragraph h)]	Document containing the review report [paragraph i)]	Recommendation [paragraph j)]	Range States requested to submit proposal [paragraph j (ii)]	IUCN Red List category ⁴ Range States and territories ^{5 6}	Status of the review ⁷ , reviewing Party, Notes

<i>Dudleya stolonifera</i>	PC19 (April 2011)	21 September 2011 Notification No. 2011/038	27 July 2012	CoP16 Prop.57			n/a US	Review stopped CoP16 Prop.57 (US) CoP16 deleted from Appendix II (2013)
Portulacaceae								

² In Resolution Conf. 14.8 (Rev. CoP17), the Conference of the Parties agreed that the Committee should establish a schedule for the Periodic Review of the Appendices and identify a list of taxa they propose to review during the next two intersessional periods between meetings of the CoP. The Plants Committee, however, made the current selection of species for review under the guidelines for conducting the periodic review adopted by the Standing Committee at its 51st meeting (Bangkok, October 2004).

³ Steps refer to the process laid out in Resolution Conf. 14.8 (Rev. Cop17).

⁴ The IUCN Red List of Threatened Species, 2014.1, downloaded in June 2015, <http://www.iucnredlist.org/search>

⁵ Range states and territories as per CITES Species +, 2015, <http://www.speciesplus.net/>

⁶ ISO countries codes used as abbreviations, see Annex 4 or http://www.iso.org/iso/country_codes/iso_3166_code_lists/country_names_and_code_elements.htm

⁷ As per document PC21 Doc. 19.1, it was agreed that the status of the review should be ascribed to one of the four categories below :

- Review ongoing [species still being considered under paragraphs e) – k) of the Resolution Conf. 14.8 (Rev. CoP15)].
- Review completed (actions under paragraphs j) or k) of the Resolution fully undertaken).
- Review stopped (paragraphs j) or k) of the Resolution not completed and no further action planned).
- Species deleted from review (no volunteer offered to undertake a review, paragraph e) of the Resolution).

List of abbreviations

The **IUCN Red List of Threatened Species** (also known as the **IUCN Red List** or **Red Data List**), founded in 1963, is the world's most comprehensive inventory of the global [conservation](#) status of [biological species](#).

n/a – This taxon has not yet been assessed for the IUCN Red List

IUCN Categories:

- Extinct (EX) – No known individuals remaining.
- Extinct in the Wild (EW) – Known only to survive in captivity, or as a naturalized population outside its historic range.
- Critically Endangered (CR) – Extremely high risk of extinction in the wild.
- Endangered (EN) – High risk of extinction in the wild.
- Vulnerable (VU) – High risk of endangerment in the wild.
- Near Threatened (NT) – Likely to become endangered in the near future.
- Least Concern (LC) – Lowest risk. Does not qualify for a more at risk category. Widespread and abundant taxa are included in this category.
- Data Deficient (DD) – Not enough data to make an assessment of its risk of extinction.
- Not Evaluated (NE) – Has not yet been evaluated against the criteria.

IUCN Criteria for CRITICALLY ENDANGERED, ENDANGERED AND VULNERABLE:

There is a hierarchical alphanumeric numbering system of criteria and subcriteria. More info could be found on http://www.iucnredlist.org/static/categories_criteria_3_1
