

Convention on International Trade in Endangered Species  
of Wild Fauna and Flora

---

APPENDICES I AND II

as at 28 June 1979

INTERPRETATION:

1. Species included in these appendices are referred to:
  - a) by the name of the species; or
  - b) as being all of the species included in a higher taxon or designated part thereof.
2. The abbreviation "spp." is used to denote all species of a higher taxon.
3. Other references to taxa higher than species are for the purposes of information or classification only.
4. The abbreviation "p.e." is used to denote species which are possibly extinct.
5. An asterisk (\*) placed against the name of a species or higher taxon indicates that one or more geographically separate populations, subspecies or species of that species or taxon are included in Appendix I and that these populations, subspecies or species are excluded from Appendix II.
6. Two asterisks (\*\*) placed against the name of a species or higher taxon indicate that one or more geographically separate populations, subspecies or species of that species or taxon are included in Appendix II and that these populations, subspecies or species are excluded from Appendix I.
7. The symbol (+) followed by a number placed against the name of a species or higher taxon denotes that only designated geographically separate populations, subspecies or species of that species or taxon are included in the appendix concerned, as follows:

- +201 Population of South America
- +202 (A) North Pacific stock
  - (B) Stock in area from 0 degree longitude to 70 degrees east longitude, from the equator to the Antarctic Continent
- +203 Populations of Bhutan, India, Nepal and Pakistan
- +204 Italian population
- +205 All North American subspecies
- +206 Asian population
- +207 Indian population
- +208 Australian population
- +209 Himalayan population
- +210 Population of the United States of America
- +211 All New Zealand species
- +212 Population of Chile
- +213 All species of the family in the Americas
- +214 Australian populations

8. The symbol (-) followed by a number placed against the name of a species or higher taxon denotes that designated geographically separate populations, subspecies, species, groups of species or families of that species or taxon are excluded from the appendix concerned, as follows:

- 101 (A) Stock in North Atlantic off Iceland
  - (B) Stock in North Atlantic off Newfoundland
  - (C) Stock in area from 40 degrees south latitude to Antarctic Continent, from 120 degrees west longitude to 60 degrees west longitude
- 102 Populations of Bhutan, India, Nepal and Pakistan
- 103 Panthera tigris altaica (=amurensis)
- 104 Australian population
- 105 Cathartidae
- 106 Population of the United States of America
- 107 Australian population
- 108 Population of Papua New Guinea
- 109 Population of Chile
- 110 All species which are not succulent.

9. Any plant, whether alive or dead, as well as any readily recognizable part or derivative of a plant of a species or higher taxon included in Appendix II are covered by the provisions of the Convention, unless the symbol (>) followed by a number is placed against the name of that species or taxon. In such a case, only the plant, whether alive or dead, and the parts or derivatives designated as follows are concerned:

- >1 designates roots
- >2 designates timber
- >3 designates trunks

ZYGOPHYLLACEAE

Guaiacum sanctum > 2

Convention on International Trade in Endangered Species  
of Wild Fauna and Flora

---

APPENDIX III

as at 28 June 1979

Interpretation:

1. Species included in this appendix are referred to:
  - a) by the name of the species; or
  - b) as being all of the species included in a higher taxon or designated part thereof.
2. The abbreviation "spp." is used to denote all species of a higher taxon.
3. Other references to taxa higher than species are for the purpose of information or classification only.
4. An asterisk (\*) placed against the name of a species or higher taxon indicates that one or more geographically separate populations, subspecies or species of that species or taxon are included in Appendix I and that these populations, subspecies or species are excluded from Appendix III.
5. Two asterisks (\*\*) placed against the name of a species or higher taxon indicate that one or more geographically separate populations, subspecies or species of that species or taxon are included in Appendix II and that these populations, subspecies or species are excluded from Appendix III.
6. The name of the countries placed against the names of species or other taxa are those of the Parties submitting these species or taxa for inclusion in this appendix.
7. Any animal or plant, whether live or dead, of a species or other taxon listed in this appendix, is covered by the provisions of the Convention, as is any readily recognizable part or derivative thereof.

F A U N A

MAMMALIA

CHIROPTERA

Phyllostomatidae      Vampyrops lineatus      Uruguay

EDENTATA

Bradypodidae      Bradypus griseus      Costa Rica  
Choloepus hoffmanni      Costa Rica

Dasypodidae      Cabassous centralis      Costa Rica  
Cabassous gymnurus (tatouay)      Uruguay

PHOLIDOTA

Manidae      Manis gigantea      Ghana  
Manis longicaudata      Ghana  
Manis tricuspis      Ghana

RODENTIA

Sciuridae      Epixerus ebii      Ghana  
Sciurus deppei      Costa Rica

Anomaluridae      Anomalurus spp.      Ghana  
Idiurus spp.      Ghana

Hystriidae      Hystrix spp.      Ghana

Erethizontidae      Coendou spinosus      Uruguay

CARNIVORA

Canidae      Fennecus zerda      Tunisia

Procyonidae      Bassaricyon gabbii      Costa Rica  
Bassariscus sumichrasti      Costa Rica  
Nasua nasua solitaria      Uruguay
