

**IV OTHER DOCUMENTS AND APPENDICES TO THE CONVENTION**

CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES  
OF WILD FAUNA AND FLORA

---

APPENDICES I AND II

as of 29 July 1983

INTERPRETATION

1. Species included in these appendices are referred to:
  - a) by the name of the species, or
  - b) as being all of the species included in a higher taxon or designated part thereof.
2. The abbreviation "spp." is used to denote all species of a higher taxon.
3. Other references to taxa higher than species are for the purposes of information or classification only.
4. The abbreviation "p.e." is used to denote species which are possibly extinct.
5. An asterisk (\*) placed against the name of a species or higher taxon indicates that one or more geographically separate populations, subspecies or species of that species or taxon are included in Appendix I and that these populations, subspecies or species are excluded from Appendix II.
6. Two asterisks (\*\*) placed against the name of a species or higher taxon indicate that one or more geographically separate populations, subspecies or species of that species or taxon are included in Appendix II and that these populations, subspecies or species are excluded from Appendix I.

7. The symbol (-) followed by a number placed against the name of a species or higher taxon denotes that designated geographically separate populations, subspecies, species, groups of species or families of that species or taxon are excluded from the appendix concerned, as follows:
- 101 Populations of Bhutan, India, Nepal and Pakistan
  - 102 Panthera tigris altaica (=amurensis)
  - 103 Population of West Greenland
  - 104 Australian population
  - 105 Populations of Afghanistan, Bhutan, Burma, India, Nepal and Pakistan
  - 106 Cathartidae
  - 107 Population of North America, except Greenland
  - 108 Population of the United States of America
  - 109 Melopsittacus undulatus, Nymphicus hollandicus and Psittacula krameri
  - 110 Population of Zimbabwe (ranching)
  - 111 Population of Papua New Guinea
  - 112 Population of Chile
  - 113 Coastal population of Chile
  - 114 All species which are not succulent
8. The symbol (+) followed by a number placed against the name of a species or higher taxon denotes that only designated geographically separate populations, subspecies or species of that species or taxon are included in the appendix concerned, as follows:
- +201 Populations of Bhutan, India, Nepal and Pakistan
  - +202 All North American subspecies and European population, except USSR
  - +203 Asian population
  - +204 Indian population
  - +205 Australian population
  - +206 Populations of Afghanistan, Bhutan, Burma, India, Nepal and Pakistan
  - +207 Mexican population
  - +208 Population of South America
  - +209 Populations of Algeria, the Central African Republic, Chad, Mali, Mauritania, Morocco, Niger, Nigeria, Senegal, Sudan, the United Republic of Cameroon and Upper Volta.
  - +210 All New Zealand species
  - +211 Population of Chile
  - +212 All species of the family in the Americas
  - +213 Coastal population of Chile

9. The symbol (=) followed by a number placed against the name of a species or higher taxon denotes that the name of that species or taxon shall be interpreted as follows:

- =301 Includes synonyms Bradypus boliviensis and Bradypus griseus
- =302 Includes synonym Priodontes giganteus
- =303 Includes genus Varecia
- =304 Includes generic synonym Avahi
- =305 Includes synonym Colobus badius kirki
- =306 Includes synonym Colobus badius rufomitratu
- =307 Includes generic synonym Simias
- =308 Includes genus Hylobates and its synonym Symphalangus
- =309 Includes synonyms Lutra annectens, Lutra enudris, Lutra incarum and Lutra platensis
- =310 Includes synonym Eupleres major
- =311 Also referenced as Lynx caracal, includes generic synonym Caracal
- =312 Also referenced as Lynx rufus escuinapae
- =313 Includes synonym Physeter catodon
- =314 Includes generic synonym Eubalaena
- =315 Also referenced as Equus onager khur
- =316 Includes generic synonym Dama, includes synonym dama
- =317 Includes generic synonyms Axis and Hyelaphus
- =318 Includes synonym Bos frontalis
- =319 Includes synonym Bos grunniens
- =320 Includes generic synonym Novibos
- =321 Includes synonym Oryx tao
- =322 Includes synonym Ovis aries ophion
- =323 Often traded under the name Ara caninde, a synonym of Ara ararauna
- =324 Includes generic synonyms Nicoria and Geoemyda (part)
- =325 Includes Alligatoridae, Crocodylidae and Gavialidae
- =326 Includes subfamilies Boinae, Erycinae and Pythoninae

10. In accordance with Article I, paragraph b(iii), of the Convention, the symbol (≠) followed by a number placed against the name of a species or higher taxon included in Appendix II designates parts or derivatives which are specified in relation thereto for the purposes of the Convention as follows:

- ≠1 Designates root
- ≠2 Designates timber
- ≠3 Designates trunks.

However, in accordance with Resolution Conf. 4.24 the Conference of the Parties recommended:

- a) that trade in all readily recognizable parts and derivatives of plants included in Appendix II be controlled under the Convention unless such specimens are specifically exempt; and
- b) that trade in seeds, spores and tissues cultures, and in cut flowers of artificially propagated orchids not be controlled under the Convention for plants included in Appendix II.

CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES  
OF WILD FAUNA AND FLORA

APPENDIX III

as of 29 July 1983

Interpretation

1. Species included in this appendix are referred to:
  - a) by the name of the species; or
  - b) as being all of the species included in a higher taxon or designated part thereof.
2. The abbreviation "spp." is used to denote all species of a higher taxon.
3. Other references to taxa higher than species are for the purpose of information or classification only.
4. An asterisk (\*) placed against the name of a species or higher taxon indicates that one or more geographically separate populations, subspecies or species of that species or taxon are included in Appendix I and that these populations, subspecies or species are excluded from Appendix III.
5. Two asterisks (\*\*) placed against the name of a species or higher taxon indicate that one or more geographically separate populations, subspecies or species of that species or taxon are included in Appendix II and that these populations, subspecies or species are excluded from Appendix III.
6. The symbol (=) followed by a number placed against the name of a species denotes that the name of that species shall be interpreted as follows:
  - =327 Includes synonym Cabassous gymnurus
  - =328 Includes generic synonym Fennecus
  - =329 Includes synonym Galictis allamandi
  - =330 Includes generic synonym Viverra
  - =331 Also referenced as Tragelaphus eurycerus; includes generic synonym Taurotragus
  - =332 Includes synonym Manis longicaudata
  - =333 Includes generic synonym Coendou
7. The name of the countries placed against the names of species or other taxa are those of the Parties submitting these species or taxa for inclusion in this appendix.
8. Any animal or plant, whether live or dead, of a species or other taxon listed in this appendix, is covered by the provisions of the Convention, as is any readily recognizable part or derivative thereof, except plant seeds, spores, and tissue cultures (Resolution Conf. 4.24).
