

CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES  
OF WILD FAUNA AND FLORA

---

Fifth Meeting of the Conference of the Parties

Buenos Aires (Argentina), 22 April to 3 May 1985

Interpretation and Implementation of the Convention

Trade in Leopard Skins

DRAFT RESOLUTIONS FROM ZAMBIA

1. After the preparation of document Doc. 5.23, the Republic of Zambia sent to the Secretariat two draft resolutions (Annexes 1 and 2)\* on trade in leopard skins.
2. These two drafts are similar to those submitted by Zimbabwe (Doc. 5.23 Annexes 2 and 3) and Zambia is seeking the approval of either of them.
3. The first draft seeks a mechanism similar to that suggested by the Seminar on CITES Implementation in Africa (Brussels, 1984) on the ivory trade. The second simply seeks an increment of the quota set forth for Zambia in Resolution Conf. 4.13.
4. In its 1983 Annual Report, Zambia indicates the export of a total of 112 leopard skins.

---

\* Following the decision taken on this subject by the Conference of the Parties, these two draft resolutions have been withdrawn by the delegation of Zambia (see document Plen. 5.6). Therefore, they are not reproduced in these Proceedings. (Note from the Secretariat).
