

CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES
OF WILD FAUNA AND FLORA

Eighth Meeting of the Conference of the Parties

Kyoto (Japan), 2 to 13 March 1992

Interpretation and Implementation of the Convention

Proposals to Register the First Commercial Captive-Breeding
Operation for an Appendix I Animal Species

CONSIDERATION OF PROPOSALS

1. Pursuant to Resolution Conf. 7.10, China, Germany, Honduras, the Philippines and Zimbabwe, Parties to the Convention, have submitted proposals to register commercial captive-breeding operations for Appendix-I animal species for which no operation is registered yet with the Secretariat. These proposals concern the following species and operations:

China - Panthera tigris altaica, (Breeding Centre of Felidae Animals of Hengdaohezi)
- Alligator sinensis, (Anhui Research Centre of Chinese Alligator Reproduction)

Germany - Amazona leucocephala, (Papageienzucht Janeczek)

Honduras - Crocodylus acutus, (Cocodrilos Clal Continental, S.A. de C.V.)^{*}

Philippines - Polyplectron emphanum
- Caloenas nicobarica
- Amazona leucocephala
- Anodorhynchus hyacinthinus
- Ara ambigua
- Ara macao
- Ara maracana
- Ara militaris
- Ara rubrogenys
- Cacatua moluccensis
- Probosciger aterrimus

(Birds International, Inc.)

Zimbabwe - Diceros bicornis (National Captive-Breeding Centre for Black Rhino)

2. The proposals and supporting statements are attached to this document^{**}.
3. All these proposals are submitted for the consideration of the Conference of the Parties in spite of the fact that the following, in the opinion of the Secretariat, do not meet a fundamental recommendation of Resolutions Conf. 2.12 and Conf. 7.10, i.e. "that the proposal document that the species has been bred reliably to at least the second generation (F2) in captivity":

^{*} This proposal has been formally withdrawn by Honduras. (Note from the Secretariat).

^{**} As indicated in the "Foreward", these statements are not reproduced in these Proceedings. (Note from the Secretariat).

- Honduras - Crocodylus acutus
- Philippines - Polyplectron emphanum
- Amazona leucocephala
- Ara ambigua
- Ara maracana
- Ara militaris
- Ara rubrogenys
- Probosciger aterrimus
- Zimbabwe - Diceros bicornis
