

CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES
OF WILD FAUNA AND FLORA

Thirteenth meeting of the Conference of the Parties
Bangkok (Thailand), 2-14 October 2004

IUCN/TRAFFIC ANALYSES OF THE PROPOSALS TO AMEND THE CITES APPENDICES

1. This document has been prepared by IUCN – The World Conservation Union.
2. The *Analyses*, as these technical reviews are known, aim to provide as objective an assessment as possible of each amendment proposal against the requirements of the Convention as laid out in the listing criteria elaborated in Resolution Conf. 9.24 (Rev. CoP12) and other Resolutions and Decisions. An electronic copy of the *Analyses* (in PDF format) is annexed to the present document on the CITES website.
3. The summaries of the IUCN/TRAFFIC analyses of the proposals to amend the CITES Appendices have been bound into a separate smaller document for convenience and are available on the IUCN website at http://www.iucn.org/themes/ssc/citescop13/summary_analyses.htm.
4. A copy of the full *Analyses* and copies of the summaries have been sent to all Management and Scientific Authorities.
5. One copy of the full document will be made available by IUCN for each Party delegation at CoP13. Additional copies of the summary document will also be distributed.
