

CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES
OF WILD FAUNA AND FLORA

Eighteenth meeting of the Conference of the Parties
Colombo (Sri Lanka), 23 May – 3 June 2019

Interpretation and implementation matters

Regulation of trade

Identification of specimens in trade

IDENTIFICATION OF CITES-LISTED TREE SPECIES

1. This document has been submitted by the Plants Committee.*
2. At its 17th meeting, the Conference of the Parties adopted Decisions 17.166 to 17.169 on *Identification (timber)* as follows:

Directed to Parties

17.166 *Parties are encouraged to expand or create and maintain scientific reference collections essential for the development of methodologies to identify CITES-listed tree species and distinguish them from look-alike species, in accordance with current best practices regarding collection, curation and facilitation of exchange of reference materials.*

Directed to the Plants Committee

17.167 *With respect to CITES-listed tree species, the Plants Committee shall, at its 23rd and 24th meetings:*

Concerning standard nomenclature:

- a) *prioritize taxa for the adoption of new or updated standard nomenclature references, in particular where nomenclature poses a barrier to identification of CITES-listed trees in trade;*
- b) *identify the research needs and resource requirements for the production of standard nomenclature references for priority taxa;*

Concerning wood and other material as reference samples for identification purposes, in collaboration with relevant stakeholders and building on information on existing initiatives previously made available to Parties:

- a) *determine, for all CITES-listed tree species, the locations and availability of existing reference samples or collections, and identify priorities in addressing gaps;*

* *The geographical designations employed in this document do not imply the expression of any opinion whatsoever on the part of the CITES Secretariat (or the United Nations Environment Programme) concerning the legal status of any country, territory, or area, or concerning the delimitation of its frontiers or boundaries. The responsibility for the contents of the document rests exclusively with its author.*

- b) *encourage interested Parties to identify, collect and curate reference samples, and facilitate exchange to make them available, as appropriate, to research institutions, law enforcement agencies, and other authorities concerned;*
- c) *identify and compile information on best practices for the collection and curation of reference samples, identifying gaps where they exist; and*
- d) *consider how best to assist and strengthen capacities for forensic work on identification of CITES-listed tree species in trade.*

17.168 *The Plants Committee shall update the Standing Committee on progress made on the implementation of Decisions 17.166-167 at the 70th meeting of the Standing Committee; and will report its findings and recommendations for consideration by the Conference of the Parties at its 18th meeting.*

Directed to the Secretariat

17.169 *The Secretariat shall, subject to external funding, in cooperation with the United Nations Office on Drugs and Crime (UNODC), the International Consortium on Combating Wildlife Crime (ICWC) and other relevant stakeholders, support the implementation of Decisions 17.166-168.*

Implementation of Decisions 17.166 to 17.169

3. The Plants Committee considered the implementation of Decision 17.167 at its 23rd and 24th meetings (PC23, Geneva, July 2017; PC24, Geneva, July 2018) on the basis of documents [PC23 Doc. 18.1](#) (submitted by the Secretariat) and [PC24 Doc. 15.1](#) (submitted by the co-chairs of the Plants Committees' timber identification working group).
4. In document [PC24 Doc 15.2](#), the Secretariat reported that a lack of specific funding had prevented implementation of Decision 17.169, supporting the implementation of Decisions 17.166 to 17.168. The Secretariat nevertheless highlighted several ongoing initiatives that contribute to improving the capacity of Parties for timber identification. It mentioned the completion of the CITESwoodID by German CITES authorities, which now includes 44 CITES-listed species in trade and 32 look-alike species (see also document [PC23 Doc. 18.2](#)), and a series of training activities on the *UNODC Best Practice Guide for Forensic Timber Identification*¹. The Secretariat described three projects in East Africa, Guatemala, and Indonesia with timber identification components that are being funded under the EU-CITES project *Supporting sustainable management of endangered tree species and conservation of the African Elephant*, and further noted the timber action plan of the Commission for Environmental Cooperation in the CITES North American Region.
5. At PC24, the Plants Committee established an in-session working group to:
 - a) assess the progress achieved in the implementation of Decisions 17.166 to 17.169 on *Identification of timber*, and consider the recommendations under paragraph 12 a) and d) of document PC24 Doc. 15.1 and paragraph 10 of document PC24 Doc. 15.2, as well as points specified in plenary; and
 - b) develop an updated set of draft decisions on timber identification, using as a basis the draft decisions as read in plenary by the representative of North America (Mr. Benitez Diaz), taking into consideration the points raised in plenary by the Chair of the Plants Committee.
6. Based on the report of the in-session working group, the Plants Committee recommended the deletion of Decision 17.166, noting that the focus of this Decision is a long-term instruction to Parties and its direction would be better placed within Resolution Conf. 10.13 (Rev. CoP15) on *Implementation of the Convention for timber species*. This recommendation is included in the proposed revisions of said Resolution, which are presented in document CoP18 Doc. 50. The Committee also recommended the replacement of Decisions 17.167 to 17.169 with the draft decisions presented in Annex 1 to the present document [see document [PC24 Com. 3 \(Rev. by Sec.\)](#)].

Recommendations

7. The Conference of the Parties is invited to:

- a) adopt the draft decisions on *Identification of timber and other wood products* presented in Annex 1 to this document, and
- b) note the progress made on the implementation of Decisions 17.166 to 17.169, and agree that they be deleted.

COMMENTS OF THE SECRETARIAT

[To be included]

Draft decisions on Identification of timber and other wood products

18.AA Directed to the Plants Committee

The Plants Committee shall, in collaboration with relevant stakeholders and building on information on existing initiatives:

- a) determine gaps and complementarities in various tools and knowledge sources for timber identification, such as existing field identification guidelines and keys, and on their availability and usefulness;
- b) develop standardized information templates and other tools that could be used by Parties to facilitate sharing information on the content and status of wood sample collections, and exchange with research institutions, law enforcement agencies, and other authorities;
- c) assist Parties in identifying existing laboratory services for the identification of timber and wood products and to strengthen screening and forensic capacity to identify CITES-listed tree species in trade;
- d) determine methods to stimulate global, regional and national exchange of best practices in wood identification technologies between Parties; and
- e) update the Standing Committee on progress made on the implementation of Decisions 18.AA to 18.CC; and report its findings and recommendations for consideration by the Conference of the Parties at its 19th meeting.

18.BB Directed to Parties

Parties are encouraged to collaborate with the Plants Committee, with relevant stakeholders and with existing initiatives in the implementation of Decision 18.AA, by:

- a) working with institutions having wood identification expertise, share information related to timber identification methods, tools and protocols for enforcement and customs officers;
- b) identifying existing laboratory services for the identification of timber and wood products, and strengthening screening and forensic capacity to identify CITES-listed tree species in trade;
- c) identifying effective wood identification training methods, tools and protocols for enforcement and customs officers;
- d) prioritizing the species of rosewoods and palisanders that would most benefit from the development of timber identification tools, protocols and materials; and
- e) reporting information on existing laboratories, effective wood identification training methods, tools and protocols for enforcement and customs officers, and the priority species of rosewoods and palisanders to the Secretariat

18.CC Directed to the Secretariat

The Secretariat shall:

- a) liaise with organizations having relevant expertise on timber identification, including the Global Timber Tracking Network (GTTN), International Association of Wood Anatomists (IAWA), International Tropical Timber Organization (ITTO), Thünen Centre of Competence on the Origin of Timber, European Forest Institute (EFI), United Nations Office on Drugs and Crime (UNODC), and the World Resources Institute (WRI) to identify shared priorities, in consultation with the Plants

Committee, including priority species, emerging techniques, standardized procedures, and collection and sharing of wood samples applicable to timber tracking tools;

- b) make the currently available guidance on wood identification accessible to Parties on a dedicated webpage of the CITES website; and
- c) report to the Plants Committee progress and updates of the paragraph supra.

TENTATIVE BUDGET AND SOURCE OF FUNDING
FOR THE IMPLEMENTATION OF DRAFT RESOLUTIONS OR DECISIONS

According to Resolution Conf. 4.6 (Rev. CoP16) on *Submission of draft resolutions, draft decisions and other documents for meetings of the Conference of the Parties*, the Conference of the Parties decided that any draft resolutions or decisions submitted for consideration at a meeting of the Conference of the Parties that have budgetary and workload implications for the Secretariat or permanent committees must contain or be accompanied by a budget for the work involved and an indication of the source of funding. The authors of this document propose the following tentative budget and source of funding.
