22 January 2019

**Subject:** CITES proposals to amend Appendices I and II for marine species

Dear Ivonne Higuero,

Thank you for your letter of 7 January 2019 regarding CITES proposals to amend Appendices I and II for marine species. As per your request, I would like to inform you that ICES holds a small amount of catch data on *Isurus oxyrinchus*, *Isurus paucus*, and a minor entry for *Rhinobatos spp* (by ASFIS taxonomic definition). These data may be duplicated in FAO or EU databases as part of catch data collections for FAO Area 27.

Please let me know if any more information is required.

Sincerely,

Anne Christine Brusendorff  
General Secretary
