Any by-catch of shark (especially juveniles and gravid females) to be released alive, as far as possible, in the CCAMLR area.

A total of 26 marine protected areas established, covering 150,988 km², which represents about 4% of the total area of the EEZ (3,681,989 km²).

The practice of finning is prohibited. Sharks must be landed with fins totally or partially attached to the body (Law No. 20525 of 2011).

Limits to the size of fishing gears have been established.

Fishery vessels must have a fishing authorization (industrial vessels) or be enrolled in the artisanal fishing registry. Currently the user participation has been restricted by suspending industrial fishing authorizations and closing registration record in the artisanal fisheries.

The number of registered industrial and artisanal vessels to operate on these species has been limited (see above).
