

RESULTADO 1: Taxa animales incluidos en el Apéndice I extraídos del medio silvestre (códigos de origen: “W”, “R”, “U” y sin comunicar origen) para fines comerciales (código de propósito: “T”) durante el período 2006-2015. Se excluyeron las especies que fueron objeto de propuestas a la Conferencia de las Partes en la CITES durante la CoP15, la CoP16 o la CoP17, así como las especies incluidas en el proceso de Examen del Comercio Significativo de la CITES desde 2005, al igual que instancias de comercio originadas en países donde la población no está incluida en el Apéndice I (es decir, inclusiones divididas).

RESULTADO 3: Taxa animales incluidos en el Apéndice I que no son objeto de comercio directo o cuya comercialización directa es mínima (≤ 5 registros de comercio), procedentes de todos los orígenes, durante el período 2006-2015. El número de registros de comercio está basado únicamente en el comercio notificado por los exportadores. Las especies que fueron objeto de propuestas a la Conferencia de las Partes en la CITES durante la CoP15, la CoP16 o la CoP17; las especies incluidas en el proceso del Examen del Comercio Significativo de la CITES desde 2005; y las especies incluidas en el Apéndice I en niveles taxonómicos más altos (p. ej., *Lemuridae* spp.) fueron excluidas de este resultado.

RESULTADO 4: Taxa animales incluidos en el Apéndice II que no son objeto de comercio directo o cuya comercialización directa es mínima (≤ 5 registros de comercio), procedentes de todos los orígenes, durante el período 2006-2015. El número de registros de comercio está basado únicamente en el comercio notificado por los exportadores. Las especies que fueron objeto de propuestas a la Conferencia de las Partes en la CITES durante la CoP15, la CoP16 o la CoP17; las especies incluidas en el proceso del Examen del Comercio Significativo de la CITES desde 2005; y las especies incluidas en el Apéndice I en niveles taxonómicos más altos (p. ej., *Primates* spp.) fueron excluidas de este resultado.
