Cuestiones específicas sobre las especies

Mantenimiento de los Apéndices

Examen periódico de especies

CUADRO PANORÁMICO DE ESPECIES INCLUIDAS  
EN EL EXAMEN PERIÓDICO

1. Este documento ha sido preparado por la Secretaría.
2. En la Resolución Conf. 14.8 (Rev. CoP17), sobre *Examen periódico de especies incluidas en los Apéndices I y II*, la Conferencia de las Partes acuerda un proceso y unas directrices para que los Comités de Fauna y de Flora realicen un examen periódico de las especies de fauna y de flora incluidas en los Apéndices de la CITES:

*ENCARGA a la Secretaría que mantenga un registro de las especies seleccionadas para el examen periódico, incluyendo las especies examinadas previa y actualmente; las fechas de los documentos relevantes del Comité; las recomendaciones derivadas de los exámenes; y cualquier informe o documentos asociados.*

3. En el Anexo 1 se muestra el registro de las especies de flora seleccionadas para su examen entre las reuniones 13ª y 15ª de la Conferencia de las Partes (CoP13, Bangkok, 2004 y CoP15, Doha, 2010).
4. En el Anexo 2 se muestra el registro de las especies de flora que deberían reexaminarse entre las reuniones 15ª y 17ª de la Conferencia de las Partes (CoP17, 2016). En el Anexo 2 se muestra el registro de especies de flora que estaba previsto revisar entre la CoP15 y la 17ª reunión de la Conferencia de las Partes (CoP17, Johannesburgo, 2016).
5. En su 21ª reunión (Veracruz, mayo de 2014), el Comité de Flora examinó los registros de las especies seleccionadas para el examen periódico y formuló varias recomendaciones sobre las especies objeto de examen que se reflejan en los cuadros que se muestran en los Anexos 1 y 2.
6. En el Anexo 3 figura una lista de las abreviaturas de la Lista Roja de Especies Amenazadas de la UICN y en el Anexo 6 figura una lista de los códigos ISO de los países. Ambos períodos de examen se resumen a continuación:

Período de examen	Resultados del proceso de examen periódico	Enmiendas resultantes a los Apéndices
<b>CoP13-CoP15:</b> <i>106 especies seleccionados para proceder al examen</i>	Se han completado 79 exámenes de especies	<ul style="list-style-type: none"> <li>• 1 especie se transfirió del Apéndice II al Apéndice I</li> <li>• 37 taxa se mantuvieron en el Apéndice I</li> <li>• 27 taxa se mantuvieron en el Apéndice II</li> <li>• 1 especie se suprimió del Apéndice I</li> <li>• 13 taxa/especies se suprimieron del Apéndice II</li> </ul>
	Se han suspendido 23 exámenes de especies, ya que las inclusiones en los Apéndices se enmendaron antes de que se finalizara el examen periódico	<ul style="list-style-type: none"> <li>• 1 especie se suprimió del Apéndice I</li> <li>• 19 especies se suprimieron del Apéndice II</li> <li>• 1 especie se transfirió del Apéndice I al Apéndice II</li> <li>• Se han suspendido 2 exámenes de especies sin modificaciones</li> </ul>
	1 examen de especies en curso <sup>1</sup>	
	2 especies que deberían reconsiderarse durante el periodo de examen entre la CoP15-CoP17 (Se requiere examinador)	(véase el Anexo 2)
<b>CoP15-CoP17:</b> <i>8 especies seleccionados para proceder al examen</i>	Se han completado 3 exámenes de especies	<ul style="list-style-type: none"> <li>• 1 especie mantenido en el Apéndice I</li> <li>• 1 especie mantenido en el Apéndice II</li> <li>• 1 especie se suprimió del Apéndice II</li> </ul>
	Se ha suspendido el examen de una especie ya que las inclusiones en los Apéndices se enmendaron antes de que se finalizase el examen periódico Se ha suspendido el examen de una especie – Especie suprimido del examen	<ul style="list-style-type: none"> <li>• 1 especie suprimido del Apéndice II</li> </ul>
	3 exámenes de especies en curso	

7. Los registros de las especies seleccionadas para el examen periódico, que figuran en los Anexos 1 a 3, siguen el mismo modelo y formato que las presentaciones anteriores de la Secretaría. Sin embargo, no está claro si los campos de datos que contienen información que pueda cambiar posteriormente (estado de la conservación; distribución) deben mantenerse actualizados, y la Secretaría agradecería recibir instrucciones al respecto. Además, en sus observaciones con relación al documento CoP17 Doc. 82.1, la Secretaría indicó que el mantenimiento de los registros para el Examen Periódico constituía una labor cada vez más ardua y que sería preferible desarrollar una base de datos sobre el Examen Periódico en línea manejable y en la que se puedan realizar búsquedas. La Secretaría no cuenta con financiación en el presupuesto ordinario para estas actividades, y sería necesario garantizar una financiación externa para establecer y mantener una base de datos sobre el Examen Periódico. Los costos serían de aproximadamente 50.000 dólares de EE.UU. para el período comprendido entre la CoP17 y la CoP18.

<sup>1</sup> En la PC18, el Comité mantuvo un Grupo de trabajo entre periodos de sesiones sobre *Aloe spp.*, *Euphorbia spp.* – ambas incluidas en el Apéndice I – y *Didiereaceae spp.* Los exámenes requeridos en la Resolución Conf. 14.8 (Rev. CoP17) se presentaron en el documento PC18 Doc. 16.1.1, Anexo 5, pero no está claro si hay suficiente información para que el Comité decida si se han cumplido o no los criterios de inclusión enunciados en la Resolución Conf. 9.24 (Rev. CoP16). El Comité de Flora acordó en su 21ª reunión que no hay suficiente información para determinar si las 17 especies de *Aloe spp.* en el Apéndice I; las 17 especies de *Didiereaceae spp.* en el Apéndice II y las 10 especies de *Euphorbia spp.* en el Apéndice I que fueron seleccionadas para el período de examen comprendido entre la CoP13 y la CoP15 están incluidas debidamente en los Apéndices. Se pidió a Madagascar que presente una versión revisada y actualizada del Anexo 5 al documento PC18 Doc. 16.1.1 a la 22ª reunión del Comité de Flora, que debe contener recomendaciones para la inclusión apropiada de las especies y que debe traducirse. En la PC22, Madagascar presentó el documento PC22 Doc. 20.3.1. Pese a constatar que *Didiereaceae* no era endémica de Madagascar, los oradores apoyaron la conclusión alcanzada por Madagascar, proponiendo que no se cambiase la inclusión actual de esas especies. El examen de *Aloe helenae* de Madagascar está en curso (véase Anexo 1)

## Recomendaciones

8. Se invita al Comité de Flora a:

- a) formular comentarios con relación a las observaciones de la Secretaría que aparecen en el párrafo 7;  
y
- b) tomar nota de esta información y decidir sobre nuevas medidas, basándose en los progresos comunicados por las Partes en relación con los exámenes pendientes.

<sup>1</sup> At PC18, the Committee maintained an intersessional working group on *Aloe* spp. and *Euphorbia* spp. – both listed in Appendix I – and Didiereaceae spp. The reviews required under the provisions of the Resolution Conf. 14.8 (Rev. CoP17) were presented in document [PC18 Doc. 16.1.1, Annex 5](#), but it is not clear if there is enough information for the Committee to decide whether or not the listing criteria established by the Resolution Conf. 9.24 (Rev. CoP16) have been met. The Plants Committee, at its 21st meeting, agreed that there is insufficient information to determine if the 17 species of *Aloe* spp. in Appendix I; 17 species of Didiereaceae spp. in Appendix II and 10 species of *Euphorbia* spp. in Appendix I that were selected for the review period CoP13-CoP15 are appropriately listed in the Appendices. Madagascar was requested to submit a revised and updated version of Annex 5 of document [PC18 Doc. 16.1.1](#) to PC22, which should contain recommendations for the appropriate listing of the species and which should be translated. At PC22, Madagascar introduced document [PC22 Doc. 20.3.1](#). While noting that Didiereaceae was not endemic to Madagascar, speakers supported the conclusion reached by Madagascar, proposing no change to the current listing of these species. The review of *Aloe helenae* from Madagascar is ongoing (see Annex 1).
