

CONVENTION SUR LE COMMERCE INTERNATIONAL DES ESPÈCES  
DE FAUNE ET DE FLORE SAUVAGES MENACÉES D'EXTINCTION

Séances conjointes de la 31<sup>e</sup> session du Comité pour les animaux et  
la 25<sup>e</sup> session du Comité pour les plantes  
Genève (Suisse), 17 juillet 2020

Questions spécifiques aux espèces

Maintien des Annexes

Examen périodique des espèces inscrites à l'Annexe I et à l'Annexe II

VUE D'ENSEMBLE DES ESPÈCES DANS L'EXAMEN PÉRIODIQUE

1. Le présent document a été préparé par le Secrétariat.
2. Dans la résolution Conf. 12.8 (Rev. CoP18), *Étude du commerce important de spécimens d'espèces de l'Annexe II*, la Conférence des Parties a convenu d'un processus et de lignes directrices pour guider l'examen périodique, par le Comité pour les animaux et le Comité pour les plantes, des espèces d'animaux ou de plantes inscrites aux annexes de la CITES et, dans le paragraphe 6 :
  6. *DONNE INSTRUCTION au Secrétariat de tenir un registre des espèces sélectionnées pour un examen périodique, y compris des espèces ayant fait l'objet ou faisant actuellement l'objet d'un examen, des dates des documents pertinents des Comités, des recommandations issues des examens, et de tout rapport et document connexes ;*
3. Le Secrétariat rappelle également que, dans le paragraphe 2 a) de la résolution Conf. 14.8 (Rev. CoP17), la Conférence des Parties a, en outre, décidé :
  - a) *normalement, toutes les deux sessions de la Conférence des Parties, le Comité pour les animaux et le Comité pour les plantes établissent un calendrier pour l'examen périodique des annexes et dressent une liste des taxons qu'ils proposent d'examiner au cours des deux périodes intersessions suivantes. Cette liste est établie à la première session de chaque Comité suivant la session de la Conférence des Parties (CoP) ayant lancé la période d'examen ;*
4. Le programme le plus récent pour l'examen périodique des annexes a été établi après la 17<sup>e</sup> session de la Conférence des Parties (CoP17 ; Johannesburg, 2016) pour les deux périodes intersessions suivantes, jusqu'à la 19<sup>e</sup> session de la Conférence des Parties (CoP19 ; 2022). En conséquence, à leur première session après la CoP19, le Comité pour les animaux et le Comité pour les plantes établiront un nouveau programme et la liste des taxons proposés pour examen durant les deux périodes intersessions suivantes, jusqu'à la 21<sup>e</sup> session de la Conférence des Parties (CoP21).

Vue d'ensemble des espèces dans l'examen périodique

5. Le Secrétariat a fait rapport pour la dernière fois sur l'état de l'examen périodique des espèces inscrites aux Annexes I et II à la 30<sup>e</sup> session du Comité pour les animaux (AC30 ; Genève, juillet 2018), dans le document AC30 Doc. 29.1. Ce document présentait une vue d'ensemble des espèces dans l'examen périodique, notamment un résumé des évaluations périodiques en cours en mai 2017, en plus de celles des espèces sélectionnées pour la période d'examen CoP17-CoP19.

6. Concernant les espèces sélectionnées pour la période d'examen CoP17-CoP19, le Comité pour les animaux a examiné six rapports présentés par l'Australie (documents AC30 Doc. 29.2.1 à 29.2.6) sur *Dasyornis longirostris*, *Dasyornis broadbenti litoralis*, *Leporillus conditor*, *Pseudomys fieldi paeconis*, *Xeromys myoides*, et *Zyzomys pedunculatus*. Le Comité pour les animaux a accepté les recommandations de l'Australie de transférer ces taxons de l'Annexe I à l'Annexe II. L'Australie a soumis des amendements aux propositions CoP18 Prop. 14 à 17, et CoP18 Prop. 20 et 21. La Conférence des Parties a adopté toutes ces propositions à sa 18<sup>e</sup> session (CoP18, Genève, 2019).
7. En outre, le Viet Nam a soumis à la CoP18 trois propositions d'amendement pour les taxons sélectionnés pour la période d'examen CoP16-CoP18 [CoP18 Prop. 33 (*Cuora bourreti*) transférer de l'Annexe II à l'Annexe I ; CoP18 Prop. 34 (*Cuora picturata*) transférer de l'Annexe II à l'Annexe I ; et CoP18 Prop. 35 (*Mauremys annamensis*) transférer de l'Annexe II à l'Annexe I]. La Conférence des Parties a adopté ces trois propositions à la CoP18, sur recommandation du Comité pour les animaux.
8. Conformément au paragraphe 6 de la résolution Conf. 14.8 (Rev. CoP17), le présent document contient le registre des espèces d'animaux sélectionnées pour examen par le Comité pour les animaux, comme suit :
  - a) **Annexe 1A** : espèces d'animaux sélectionnées pour examen entre la 13<sup>e</sup> et la 15<sup>e</sup> sessions de la Conférence des Parties (CoP13, Bangkok, 2004 et CoP15, Doha, 2010) ;
  - b) **Annexe 1B** : espèces d'animaux sélectionnées pour examen entre la CoP15 et la 17<sup>e</sup> session de la Conférence des Parties (CoP17, Johannesburg, 2016) ;
  - c) **Annexe 1C** : espèces d'animaux sélectionnées pour examen entre la CoP16 et la 18<sup>e</sup> session de la Conférence des Parties (CoP18, Genève, 2019)<sup>1</sup> ;
  - d) **Annexe 1D** : espèces d'animaux sélectionnées pour examen entre la CoP17 et la 19<sup>e</sup> session de la Conférence des Parties (CoP19, 2022) ; et
  - e) **Annexe 1E** : résumé de tous les cas d'espèces d'animaux encore en cours en date d'avril 2020.
9. Le registre des espèces animales faisant l'objet du processus d'examen périodique sera également mis à disposition sur le site web de la CITES. Le Secrétariat continuera de mettre à jour le site web en tenant compte de tout examen périodique pertinent pour des espèces animales que les Parties pourraient soumettre.

#### Vue d'ensemble des espèces de plantes dans le processus d'examen périodique

10. À sa 24<sup>e</sup> session (PC24 ; Genève, juillet 2018), le Comité pour les plantes a examiné le document PC24 Doc. 25.1 sur la vue d'ensemble des espèces dans l'examen périodique, y compris le résumé des examens périodiques en cours, en date de mai 2017, en plus des espèces sélectionnées pour la période CoP17-CoP19. Le Comité a pris note du document PC24 Doc. 25.1. En outre, il a décidé de supprimer *Dioscorea deltoidea* (sélectionnée pour la période d'examen CoP13-CoP15) de la liste des espèces à examiner, conformément au paragraphe 2 d) de la résolution Conf. 14.8 (Rev. CoP17), faute d'offre volontaire d'entreprendre un examen à l'intérieur de deux périodes intersessions entre les sessions de la Conférence des Parties. Concernant les espèces sélectionnées pour examen durant la période CoP15-CoP17, les États-Unis d'Amérique ont présenté le document PC24 Doc. 25.2.1, qui recommande de maintenir *Lewisia serrata* à l'Annexe II. Le Comité pour les plantes a déterminé que *Lewisia serrata* remplissait les critères de maintien à l'Annexe II énoncés dans la résolution Conf. 9.24 (Rev. CoP17), *Critères d'amendement des Annexes I et II*.
11. Conformément au paragraphe 6 de la résolution Conf. 14.8 (Rev. CoP17), le présent document contient le registre des espèces de plantes sélectionnées pour examen par le Comité pour les plantes, comme suit :
  - a) **Annexe 2A** : espèces de plantes sélectionnées pour examen entre la 13<sup>e</sup> et la 15<sup>e</sup> sessions de la Conférence des Parties (CoP13, Bangkok, 2004 et CoP15, Doha, 2010).

---

<sup>1</sup> À sa 27<sup>e</sup> session (AC27 ; Veracruz, avril 2014), le Comité pour les animaux a convenu d'inclure de manière prioritaire dans le processus d'examen périodique trois espèces animales. Comme ces espèces ont été sélectionnées sur la base des décisions 16.124 à 16.126 (maintenant supprimées), elles représentent une période d'examen « distincte » d'espèces animales sélectionnées pour examen entre la CoP16 et la CoP18.

- b) **Annexe 2B** : espèces de plantes sélectionnées pour examen entre la CoP15 et la 17<sup>e</sup> session de la Conférence des Parties (CoP17, Johannesburg, 2016) ;
  - c) **Annexe 2C** : espèces de plantes sélectionnées pour examen entre la CoP17 et la 19<sup>e</sup> session de la Conférence des Parties (CoP19, 2022) ; et
  - d) **Annexe 2D** : résumé de tous les cas d'espèces de plantes encore en cours en date d'avril 2020.
12. Le registre d'espèces de plantes dans le processus d'examen périodique figurant ci-dessus sera également mis à disposition sur le site web de la CITES. Le Secrétariat continuera de mettre à jour le site web en tenant compte de tout examen périodique pertinent d'espèces de plantes que les Parties pourraient soumettre.

Recommandations

13. Le Comité pour les animaux et le Comité pour les plantes sont invités à prendre note du présent document et de ses annexes<sup>2</sup>.

---

<sup>2</sup> Une liste d'abréviations et les codes ISO des pays figurent dans les **annexes 3 et 4**, respectivement.

<sup>7</sup> As per document [AC27 Doc. 24.1](#), the status of the review is generally ascribed to one of the four categories below :

- Review ongoing [species still being considered under paragraphs e) – k) of the Resolution Conf. 14.8 (Rev. CoP15)].
- Review completed (actions under paragraphs j) or k) of the Resolution fully undertaken).
- Review stopped (paragraphs j) or k) of the Resolution not completed and no further action planned).
- Species deleted from review (no volunteer offered to undertake a review, paragraph e) of the Resolution).

<sup>8</sup> Reservations to CITES Appendices made by Parties are indicated by adding '/r' to the Appendix number.

<sup>9</sup> AC23 (Geneva, April 2008) recommended to eliminate from periodic review: *Acinonyx jubatus*, *Caracal caracal*, *Catopuma temminckii*, *Leptailurus serval*, *Neofelis nebulosa*, *Pardofelis marmorata*, *Uncia uncia*.

<sup>20</sup> The IUCN Red List of Threatened Species; 2014.1; downloaded in June 2015; <http://www.iucnredlist.org/search>

<sup>21</sup> Range states and territories as presented in the Checklist of CITES Species; 2015; <http://checklist.cites.org/#/en>

<sup>22</sup> ISO country codes used as abbreviations; see Annex 4 or [http://www.iso.org/iso/country\\_codes/iso\\_3166\\_code\\_lists/country\\_names\\_and\\_code\\_elements.htm](http://www.iso.org/iso/country_codes/iso_3166_code_lists/country_names_and_code_elements.htm) for ISO country codes

<sup>23</sup> As per document [AC27 Doc. 24.1](#), the status of the review is generally ascribed to one of the four categories below :

- Review ongoing [species still being considered under paragraphs e) – k) of the Resolution Conf. 14.8 (Rev. CoP15)].
- Review completed (actions under paragraphs j) or k) of the Resolution fully undertaken).
- Review stopped (paragraphs j) or k) of the Resolution not completed and no further action planned).
- Species deleted from review (no volunteer offered to undertake a review, paragraph e) of the Resolution).

<sup>47</sup> In Resolution Conf. 14.8 (Rev. CoP17), the Conference of the Parties agreed that the Committee should establish a schedule for the Periodic Review of the Appendices and identify a list of taxa they propose to review during the next two intersessional periods between meetings of the CoP. The Plants Committee, however, made the current selection of species for review under the guidelines for conducting the periodic review adopted by the Standing Committee at its 51st meeting (Bangkok, October 2004).

<sup>48</sup> For species selected prior to CoP17, steps refer to the process laid out in Resolution Conf.14.8 (Rev. CoP15).

<sup>49</sup> The IUCN Red List of Threatened Species, 2014.1, downloaded in June 2015, <http://www.iucnredlist.org/search>

<sup>50</sup> Range states and territories as per the Checklist of CITES Species, 2015, <http://checklist.cites.org/#/en>

<sup>51</sup> ISO country codes used as abbreviations, see Annex4 or [http://www.iso.org/iso/country\\_codes/iso\\_3166\\_code\\_lists/country\\_names\\_and\\_code\\_elements.htm](http://www.iso.org/iso/country_codes/iso_3166_code_lists/country_names_and_code_elements.htm)

<sup>52</sup> As per document PC21 Doc. 19.1, it was agreed that the status of the review should be ascribed to one of the four categories below :

- Review ongoing [species still being considered under paragraphs e) – k) of the Resolution Conf. 14.8 (Rev. CoP15)].
- Review completed (actions under paragraphs j) or k) of the Resolution fully undertaken).
- Review stopped (paragraphs j) or k) of the Resolution not completed and no further action planned).
- Species deleted from review (no volunteer offered to undertake a review, paragraph e) of the Resolution).

<sup>1</sup> At PC18, the Committee maintained an intersessional working group on Aloe spp. and Euphorbia spp. – both listed in Appendix I – and Didiereaceae spp. The reviews required under the provisions of the Resolution Conf. 14.8 (Rev. CoP17) were presented in document [PC18 Doc. 16.1.1](#), Annex 5, but it is not clear if there is enough information for the Committee to decide whether or not the listing criteria established by the Resolution Conf. 9.24 (Rev. CoP16) have been met. The Plants Committee, at its 21st meeting, agreed that there is insufficient information to determine if the 17 species of Aloe spp. in Appendix I; 17 species of Didiereaceae spp. in Appendix II and 10 species of Euphorbia spp. in Appendix I that were selected for the review period CoP13-CoP15 are appropriately listed in the Appendices. Madagascar was requested to submit a revised and updated version of Annex 5 of document [PC18 Doc. 16.1.1](#) to PC22, which should contain recommendations for the appropriate listing of the species and which should be translated. At PC22, Madagascar introduced document [PC22 Doc. 20.3.1](#). While noting that Didiereaceae was not endemic to Madagascar, speakers supported the conclusion reached by Madagascar, proposing no change to the current listing of these species. The review of Aloe helenae from Madagascar is ongoing (see Annex 1).

<sup>2</sup> In Resolution Conf. 14.8 (Rev. CoP17), the Conference of the Parties agreed that the Committee should establish a schedule for the Periodic Review of the Appendices and identify a list of taxa they propose to review during the next two intersessional periods between meetings of the CoP. The Plants Committee, however, made the current selection of species for review under the guidelines for conducting the periodic review adopted by the Standing Committee at its 51st meeting (Bangkok, October 2004).

<sup>3</sup>. For species selected prior to CoP17, steps refer to the process laid out in Resolution Conf.14.8 (Rev. CoP15).

<sup>4</sup>. The IUCN Red List of Threatened Species, 2014.1, downloaded in June 2015, <http://www.iucnredlist.org/search>

<sup>5</sup>. Range states and territories as per the Checklist of CITES Species, 2015, <http://checklist.cites.org/#/en>

<sup>6</sup>. ISO country codes used as abbreviations , see Annex4 or [http://www.iso.org/iso/country\\_codes/iso\\_3166\\_code\\_lists/country\\_names\\_and\\_code\\_elements.htm](http://www.iso.org/iso/country_codes/iso_3166_code_lists/country_names_and_code_elements.htm)

<sup>7</sup>. As per document PC21 Doc. 19.1, it was agreed that the status of the review should be ascribed to one of the four categories below :

- Review ongoing [species still being considered under paragraphs e) – k) of the Resolution Conf. 14.8 (Rev. CoP15)].
- Review completed (actions under paragraphs j) or k) of the Resolution fully undertaken).
- Review stopped (paragraphs j) or k) of the Resolution not completed and no further action planned).
- Species deleted from review (no volunteer offered to undertake a review, paragraph e) of the Resolution).

List of abbreviations**IUCN Categories used for the Red List:**<sup>58</sup>

Extinct (EX) – No known individuals remaining.

Extinct in the Wild (EW) – Known only to survive in captivity; or as a naturalized population outside its historic range.

Critically Endangered (CR) – Extremely high risk of extinction in the wild.

Endangered (EN) – High risk of extinction in the wild.

Vulnerable (VU) – High risk of endangerment in the wild.

Near Threatened (NT) – Likely to become endangered in the near future.

Least Concern (LC) – Lowest risk. Does not qualify for a more at risk category. Widespread and abundant taxa are included in this category.

Data Deficient (DD) – Not enough data to make an assessment of its risk of extinction.

Not Evaluated (NE) – Has not yet been evaluated against the criteria.

n/a – This taxon has not yet been assessed for the IUCN Red List

**IUCN Criteria for Critically Endangered; Endangered and Vulnerable:**

There is a hierarchical alphanumeric numbering system of criteria and subcriteria. More info could be found on [http://www.iucnredlist.org/static/categories\\_criteria\\_3\\_1](http://www.iucnredlist.org/static/categories_criteria_3_1).

**CITES Range States Distribution key**

? – outstanding query over status

ex. – extinct

int. – introduced

“popn” for population.

---

<sup>58</sup> The IUCN Red List of Threatened Species (also known as the IUCN Red List or Red Data List), founded in 1963, is the world's most comprehensive inventory of the global conservation status of biological species.
