

NOTIFICATION TO THE PARTIES

No. 2023/015

Geneva, 10 February 2023

CONCERNING:

Results of the 19th meeting of the Conference of the Parties (CoP19)

1. In order to facilitate the amendment by Parties of their national legislation following the amendment of Appendices at the 19th meeting of the Conference of the Parties (Panama City, 2022), the Secretariat has made available as an Annex to this Notification the updated Appendices.
2. In accordance with the provisions of Article XV, paragraph 1, sub-paragraph (c), of the Convention, most of the amendments adopted at CoP19 enter into force 90 days after that meeting, i.e., on 23 February 2023, for all Parties except those which make reservations in accordance with paragraph 3 of that Article. The amendments for the following species will enter into force 12, 18 or 24 months after the meeting as specified below and in the Appendices:

Pycnonotus zeylanicus: Entry into effect delayed by 12 months, i.e., until 25 November 2023

Carcharhinidae spp.: Entry into effect delayed by 12 months, i.e., until 25 November 2023

Thelenota spp.: Entry into effect delayed by 18 months, i.e., until 25 May 2024

Handroanthus spp.^{#17}: Entry into effect delayed by 24 months, i.e., until 25 November 2024

Roseodendron spp.^{#17}: Entry into effect delayed by 24 months, i.e., until 25 November 2024

Tabebuia spp.^{#17}: Entry into effect delayed by 24 months, i.e., until 25 November 2024

3. The Secretariat will replace the Appendices on its website on 23 February 2023. The CITES Checklist and Species+ will also be updated on 23 February 2023.
4. In accordance with Resolution Conf. 4.25 (Rev. CoP18) on *Reservations*, Parties are reminded that, where a species is deleted from one Appendix of the Convention and simultaneously included in another, any reservation entered in relation to that species is rendered invalid. Any Party wishing to enter a reservation against the inclusion of that species in Appendix I or II at CoP19 should do so by 23 February 2023, pursuant to Article XV, paragraph 3, as applicable.

^{#17} Logs, sawn wood, veneer sheets, plywood and transformed wood.

5. The new, revised and continued Decisions as well as the new and revised Resolutions adopted at CoP19 were posted on the CITES website on 10 February 2023. In accordance with paragraph 7 of Resolution Conf. 4.6 (Rev. CoP18), the recommendations contained in these Resolutions and Decisions enter into effect 90 days after the meeting at which they are adopted, i.e., on 23 February 2023.
6. The Secretariat wishes to further draw the Parties' attention to the following changes to the Appendices:
 - a) *Pachypodium windsorii* – The seventh Conference of the Parties (Lausanne, 1989) adopted listing proposal 56 which transferred *Pachypodium baronii* and two other *Pachypodium* species from Appendix II to Appendix I. The proposal made clear that the variant *P. windsorii* (Poisson) Pichon 1949 with its synonym *P. windsorii* (Poisson) were included within the species name *Pachypodium baronii*. The 2007 update to the standard nomenclature reference for *Pachypodium* spp. lists *P. windsorii* as a species in its own right. Since then, *P. windsorii* was considered as listed in Appendix II, as part of the genus listing of *Pachypodium* spp. This deviates from the intent of the original listing proposal to list *P. baronii*, including *P. windsorii*, in Appendix I. Considering this background, it is clear that the omission of *P. windsorii* from Appendix I is an oversight. The Secretariat has therefore added *P. windsorii* in Appendix I.
 - b) an error in Notification to the Parties No. 2022/081 about the name of one of the species proposed for inclusion in Appendix III for South Africa was corrected. The Appendices in the Annex to this Notification include *Othonna cacalioides* (not *Crassosthonna cacalioides*) in Appendix III.

Appendices I, II and III

valid from 23 February 2023

Interpretation

1. Species included in these Appendices are referred to:
 - a) by the name of the species; or
 - b) as being all of the species included in a higher taxon or designated part thereof.
2. The abbreviation “spp.” is used to denote all species of a higher taxon.
3. Other references to taxa higher than species are for the purposes of information or classification only. The common names included after the scientific names of families are for reference only. They are intended to indicate the species within the family concerned that are included in the Appendices. In most cases this is not all of the species within the family.
4. The following abbreviations are used for plant taxa below the level of species:
 - a) “ssp.” is used to denote subspecies; and
 - b) “var(s).” is used to denote variety (varieties).
5. As none of the species or higher taxa of FLORA included in Appendix I is annotated to the effect that its hybrids shall be treated in accordance with the provisions of Article III of the Convention, this means that artificially propagated hybrids produced from one or more of these species or taxa may be traded with a certificate of artificial propagation, and that seeds and pollen (including pollinia), cut flowers, seedling or tissue cultures obtained *in vitro*, transported in sterile containers of these hybrids are not subject to the provisions of the Convention.
6. The names of the countries in parentheses placed against the names of species in Appendix III are those of the Parties submitting these species for inclusion in this Appendix.
7. When a species is included in Appendix I, II or III, the whole, live or dead, animal or plant is always included. In addition, all parts and derivatives thereof are also included in the same Appendix unless, for animal species listed in Appendix III and plant species listed in Appendix II or III, the species is annotated with the symbol # followed by a number to indicate that only specific parts and derivatives are included. The symbol # followed by a number placed against the name of a species or higher taxon included in Appendix II or III refers to a footnote that indicates the parts or derivatives of animals or plants that are designated as 'specimens' subject to the provisions of the Convention in accordance with Article I, paragraph (b), subparagraph (ii) or (iii).
8. The terms and expressions below, used in annotations in these Appendices, are defined as follows:

Extract

Any substance obtained directly from plant material by physical or chemical means regardless of the manufacturing process. An extract may be solid (e.g. crystals, resin, fine or coarse particles), semi-solid (e.g. gums, waxes) or liquid (e.g. solutions, tinctures, oil and essential oils).

Finished musical instruments

A musical instrument (as referenced by the Harmonized System of the World Customs Organization, Chapter 92; musical instruments, parts and accessories of such articles) that is ready to play or needs only the installation of parts to make it playable. This term includes antique instruments (as defined by the Harmonized System codes 97.05 and 97.06; Works of art, collectors' pieces and antiques).

Finished musical instrument accessories

A musical instrument accessory (as referenced by the Harmonized System of the World Customs Organization, Chapter 92; musical instruments, parts and accessories of such articles) that is separate from the musical instrument, and is specifically designed or shaped to be used explicitly in association with an instrument, and that requires no further modification to be used.

Finished musical instrument parts

A part (as referenced by the Harmonized System of the World Customs Organization, Chapter 92; musical instruments, parts and accessories of such articles) of a musical instrument that is ready to install and is specifically designed and shaped to be used explicitly in association with the instrument to make it playable.

Finished products packaged and ready for retail trade

Products, shipped singly or in bulk, requiring no further processing, packaged, labelled for final use or the retail trade in a state fit for being sold to or used by the general public.

Powder

A dry, solid substance in the form of fine or coarse particles.

Shipment

Cargo transported under the terms of a single bill of lading or air waybill, irrespective of the quantity or number of containers or packages; or pieces worn, carried or included in personal baggage.

Ten (10) kg per shipment

*For the term "10 kg per shipment", the 10 kg limit should be interpreted as referring to the weight of wood of each individual annotated species of genus *Dalbergia* or *Guibourtia* present in the items in the shipment. The 10 kg limit is to be assessed only against the individual weights of the portions of wood of each individual annotated species contained in each item of the shipment, and not against the total weight of the shipment. The total weights present of each individual annotated species are considered individually to determine whether a CITES permit or certificate is required for each individual annotated species, and weights of different individual annotated species are not added together for this purpose.*

Transformed wood

Defined by Harmonized System code 44.09: Wood (including strips, friezes for parquet flooring, not assembled), continuously shaped (tongued, grooved, rebated, chamfered, V-jointed, beaded, moulded, rounded or the like) along any of its edges, ends or faces, whether or not planed, sanded or end-jointed.

Woodchips

Wood that has been reduced to small pieces.

^{A2} A zero export quota for wild specimens traded for commercial purposes.

	Appendices		
	I	II	III
CAMELIDAE Guanaco, vicuna			
	<p><i>Vicugna vicugna</i> (Except the populations of: Argentina [populations of the Provinces of Catamarca, Jujuy and Salta, and semi-captive populations of the Provinces of Catamarca, Jujuy, La Rioja, Salta and San Juan], Chile [populations of the region of Arica and Parinacota and of the region of Tarapacá], Ecuador, Peru and the Plurinational State of Bolivia, which are included in Appendix I)</p>	<p><i>Lama guanicoe</i></p> <p><i>Vicugna vicugna</i>^{A3} (Only the populations of Argentina [populations of the Provinces of Catamarca, Jujuy and Salta, and semi-captive populations of the Provinces of Catamarca, Jujuy, La Rioja, Salta and San Juan], Chile [populations of the region of Arica and Parinacota and of the region of Tarapacá], Ecuador, Peru and the Plurinational State of Bolivia; all other populations are included in Appendix I)</p>	

^{A3} For the exclusive purpose of allowing international trade in fibre from vicuñas (*Vicugna vicugna*) and their derivative products, only if the fibre comes from the shearing of live vicuñas. Trade in products derived from the fibre may only take place in accordance with the following provisions:

- Any person or entity processing vicuña fibre to manufacture cloth and garments must request authorization from the relevant authorities of the country of origin (Countries of origin: The countries where the species occurs, that is, Argentina, Bolivia, Chile, Ecuador and Peru) to use the "vicuña country of origin" wording, mark or logo adopted by the range States of the species that are signatories to the Convention for the Conservation and Management of the Vicuña.
- Marketed cloth or garments must be marked or identified in accordance with the following provisions:
 - For international trade in cloth made from live-sheared vicuña fibre, whether the cloth was produced within or outside of the range States of the species, the wording, mark or logo must be used so that the country of origin can be identified. The VICUÑA [COUNTRY OF ORIGIN] wording, mark or logo has the format as detailed below:

This wording, mark or logo must appear on the reverse side of the cloth. In addition, the selvages of the cloth must bear the words VICUÑA [COUNTRY OF ORIGIN].

- For international trade in garments made from live-sheared vicuña fibre, whether the garments were produced within or outside of the range States of the species, the wording, mark or logo indicated in paragraph b) i) must be used. This wording, mark or logo must appear on a label on the garment itself. If the garments are produced outside of the country of origin, the name of the country where the garment was produced should also be indicated, in addition to the wording, mark or logo referred to in paragraph b) i).
- For international trade in handicraft products made from live-sheared vicuña fibre produced within the range States of the species, the VICUÑA [COUNTRY OF ORIGIN] - ARTESANÍA wording, mark or logo must be used as detailed below:

- If live-sheared vicuña fibre from various countries of origin is used for the production of cloth and garments, the wording, mark or logo of each of the countries of origin of the fibre must be indicated, as detailed in paragraphs b) i) and ii).
- All other specimens shall be deemed to be specimens of species listed in Appendix I and the trade in them shall be regulated accordingly.

		<i>Cryptoprocta ferox</i> <i>Eupleres goudotii</i> <i>Fossa fossana</i>	
FELIDAE Cats			
	<i>Acinonyx jubatus</i> ^{A5} <i>Caracal caracal</i> (Only the population of Asia; all other populations are included in Appendix II) <i>Catopuma temminckii</i> <i>Felis nigripes</i> <i>Herpailurus yagouaroundi</i> (Only the populations of Central and North America; all other populations are included in Appendix II) <i>Leopardus geoffroyi</i> <i>Leopardus guttulus</i> <i>Leopardus jacobita</i> <i>Leopardus pardalis</i> <i>Leopardus tigrinus</i> <i>Leopardus wiedii</i>	FELIDAE spp. ^{A1 A4} (Except the species included in Appendix I)	

^{A1} Specimens of the domesticated form are not subject to the provisions of the Convention.

^{A4} For *Panthera leo* (African populations): a zero annual export quota is established for specimens of bones, bone pieces, bone products, claws, skeletons, skulls and teeth removed from the wild and traded for commercial purposes. Annual export quotas for trade in bones, bone pieces, bone products, claws, skeletons, skulls and teeth for commercial purposes, derived from captive breeding operations in South Africa, will be established and communicated annually to the CITES Secretariat.

^{A5} Annual export quotas for live specimens and hunting trophies are granted as follows: Botswana: 5; Namibia: 150; Zimbabwe: 50. The trade in such specimens is subject to the provisions of Article III of the Convention.

	<i>Perameles bougainville</i>		
THYLACOMYIDAE Bilby			
	<i>Macrotis lagotis</i>		
PERISSODACTYLA			
EQUIDAE Horses, wild asses, zebras			
	<i>Equus africanus</i> {Excludes the domesticated form, which is referenced as <i>Equus asinus</i> , and is not subject to the provisions of the Convention} <i>Equus grevyi</i> <i>Equus hemionus hemionus</i> <i>Equus hemionus khur</i> <i>Equus hemionus luteus</i> <i>Equus przewalskii</i>	<i>Equus hemionus</i> (Except the subspecies included in Appendix I) <i>Equus kiang</i> <i>Equus zebra hartmannae</i> <i>Equus zebra zebra</i>	

	Appendices		
	I	II	III
RHINOCEROTIDAE Rhinoceroses			
	RHINOCEROTIDAE spp. (Except the subspecies included in Appendix II)	<i>Ceratotherium simum simum</i> (Only the populations of Eswatini ^{A8} , Namibia ^{A9} and South Africa ^{A8} ; all other populations are included in Appendix I)	
TAPIRIDAE Tapirs			
	TAPIRIDAE spp. (Except the species included in Appendix II)	<i>Tapirus terrestris</i>	
PHOLIDOTA			
MANIDAE Pangolins			
	<i>Manis crassicaudata</i> <i>Manis culionensis</i> <i>Manis gigantea</i> <i>Manis javanica</i> <i>Manis pentadactyla</i> <i>Manis temminckii</i> <i>Manis tetradactyla</i> <i>Manis tricuspis</i>	<i>Manis spp.</i> (Except the species included in Appendix I)	
PILOSA			
BRADYPODIDAE Three-toed sloths			
		<i>Bradypus pygmaeus</i> <i>Bradypus variegatus</i>	

^{A8} The populations of Eswatini and South Africa of *Ceratotherium simum simum* are included in Appendix II for the exclusive purpose of allowing international trade in live animals to appropriate and acceptable destinations and hunting trophies. All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

^{A9} The population of Namibia of *Ceratotherium simum simum* is included in Appendix II for the exclusive purpose of allowing international trade in live animals for *in-situ* conservation only, and only within the natural and historical range of *Ceratotherium simum* in Africa. All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

DASYPROCTIDAE Agoutis			
			<i>Dasyprocta punctata</i> (Honduras)

^{A10} Populations of Botswana, Namibia, South Africa and Zimbabwe (listed in Appendix II):

For the exclusive purpose of allowing:

- a) trade in hunting trophies for non-commercial purposes;
- b) trade in live animals to appropriate and acceptable destinations, as defined in Resolution Conf. 11.20 (Rev. CoP18), for Botswana and Zimbabwe and for *in situ* conservation programmes for Namibia and South Africa;
- c) trade in hides;
- d) trade in hair;
- e) trade in leather goods for commercial or non-commercial purposes for Botswana, Namibia and South Africa and for non-commercial purposes for Zimbabwe;
- f) trade in individually marked and certified ekipas incorporated in finished jewellery for non-commercial purposes for Namibia and ivory carvings for non-commercial purposes for Zimbabwe;
- g) trade in registered raw ivory (for Botswana, Namibia, South Africa and Zimbabwe, whole tusks and pieces) subject to the following:
 - i) only registered government-owned stocks, originating in the State (excluding seized ivory and ivory of unknown origin);
 - ii) only to trading partners that have been verified by the Secretariat, in consultation with the Standing Committee, to have sufficient national legislation and domestic trade controls to ensure that the imported ivory will not be re-exported and will be managed in accordance with all requirements of Resolution Conf. 10.10 (Rev. CoP18) concerning domestic manufacturing and trade;
 - iii) not before the Secretariat has verified the prospective importing countries and the registered government-owned stocks;
 - iv) raw ivory pursuant to the conditional sale of registered government-owned ivory stocks agreed at CoP12, which are 20,000 kg (Botswana), 10,000 kg (Namibia) and 30,000 kg (South Africa);
 - v) in addition to the quantities agreed at CoP12, government-owned ivory from Botswana, Namibia, South Africa and Zimbabwe registered by 31 January 2007 and verified by the Secretariat may be traded and despatched, with the ivory in paragraph g) iv) above, in a single sale per destination under strict supervision of the Secretariat;
 - vi) the proceeds of the trade are used exclusively for elephant conservation and community conservation and development programmes within or adjacent to the elephant range; and
 - vii) the additional quantities specified in paragraph g) v) above shall be traded only after the Standing Committee has agreed that the above conditions have been met; and
- h) no further proposals to allow trade in elephant ivory from populations already in Appendix II shall be submitted to the Conference of the Parties for the period from CoP14 and ending nine years from the date of the single sale of ivory that is to take place in accordance with provisions in paragraphs g) i), g) ii), g) iii), g) vi) and g) vii). In addition such further proposals shall be dealt with in accordance with Decisions 16.55 and 14.78 (Rev. CoP16).

On a proposal from the Secretariat, the Standing Committee can decide to cause this trade to cease partially or completely in the event of non-compliance by exporting or importing countries, or in the case of proven detrimental impacts of the trade on other elephant populations.

All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

^{A1} Specimens of the domesticated form are not subject to the provisions of the Convention.

CLASS REPTILIA (REPTILES)	I	II	III
CROCODYLIA Alligators, caimans, crocodiles			
		CROCODYLIA spp. (Except the species included in Appendix I)	
ALLIGATORIDAE Alligators, caimans			
	Alligator sinensis Caiman crocodilus apaporiensis Caiman latirostris (Except the populations of Argentina and Brazil ^{A11} , which are included in Appendix II) Melanosuchus niger (Except the populations of Brazil and Ecuador ^{A12} which are included in Appendix II)		
CROCODYLIDAE Crocodiles			
	Crocodylus acutus (Except the populations of Colombia [Integrated Management District of Mangroves of the Bay of Cispata, Tinajones, La Balsa and Surrounding Areas, Department of Córdoba], Cuba and Mexico ^{A13} which are included in Appendix II) Crocodylus cataphractus Crocodylus intermedius Crocodylus mindorensis Crocodylus moreletii (Except the populations of Belize ^{A14} and Mexico, which are included in Appendix II)		

^{A11} The population of Brazil of *Caiman latirostris* is included in Appendix II subject to a zero annual export quota for wild specimens traded for commercial purposes.

^{A12} The population of Ecuador of *Melanosuchus niger* is included in Appendix II subject to a zero annual export quota until an annual export quota has been approved by the CITES Secretariat and the IUCN/SSC Crocodile Specialist Group.

^{A13} The population of Mexico of *Crocodylus acutus* is included in Appendix II subject to a zero export quota for wild specimens for commercial purposes.

^{A14} The population of Belize of *Crocodylus moreletii* is included in Appendix II with a zero quota for wild specimens traded for commercial purposes.

	Appendices		
	I	II	III
	<p><i>Crocodylus niloticus</i> (Except the populations of Botswana, Egypt^{A15}, Ethiopia, Kenya, Madagascar, Malawi, Mozambique, Namibia, South Africa, Uganda, the United Republic of Tanzania^{A16}, Zambia and Zimbabwe, which are included in Appendix II)</p> <p><i>Crocodylus palustris</i></p> <p><i>Crocodylus porosus</i> (Except the populations of Australia, Indonesia, Malaysia^{A17}, Papua New Guinea and the Philippines [population of the Palawan Islands]^{A18}, which are included in Appendix II)</p> <p><i>Crocodylus rhombifer</i></p> <p><i>Crocodylus siamensis</i></p> <p><i>Osteolaemus tetraspis</i></p> <p><i>Tomistoma schlegelii</i></p>		
GAVIALIDAE Indian gaviial			
	<i>Gavialis gangeticus</i>		
RHYNCHOCEPHALIA			
SPHENODONTIDAE Tuatara			
	<i>Sphenodon</i> spp.		
SAURIA			
AGAMIDAE Spiny-tailed lizards, agamas			
			<p><i>Calotes ceylonensis</i> (Sri Lanka)</p> <p><i>Calotes desilvai</i> (Sri Lanka)</p> <p><i>Calotes liocephalus</i> (Sri Lanka)</p>

^{A15} The population of Egypt of *Crocodylus niloticus* is included in Appendix II subject to a zero quota for wild specimens traded for commercial purposes.

^{A16} The population of the United Republic of Tanzania of *Crocodylus niloticus* is included in Appendix II subject to an annual export quota of no more than 1,600 wild specimens including hunting trophies, in addition to ranched specimens.

^{A17} The population of Malaysia of *Crocodylus porosus* is included in Appendix II with wild harvest restricted to the State of Sarawak and a zero quota for wild specimens for the other States of Malaysia (Sabah and Peninsular Malaysia), with no change in the zero quota unless approved by the Parties.

^{A18} The population of the Palawan islands, Philippines, of *Crocodylus porosus* is included in Appendix II subject to a zero annual export quota for wild specimens traded for commercial purposes.

		<i>Cistanche deserticola</i> ^{#4}	
PALMAE (ARECACEAE) Palms			
		<i>Beccariophoenix madagascariensis</i> ^{#4} <i>Dypsis decaryi</i> ^{#4}	

- ^{P3} Artificially propagated hybrids of the following genera are not subject to the provisions of the Convention, if conditions, as indicated under a) and b), are met: *Cymbidium*, *Dendrobium*, *Phalaenopsis* and *Vanda*:
- Specimens are readily recognizable as artificially propagated and do not show any signs of having been collected in the wild such as mechanical damage or strong dehydration resulting from collection, irregular growth and heterogeneous size and shape within a taxon and shipment, algae or other epiphyllous organisms adhering to leaves, or damage by insects or other pests; and
 - when shipped in non-flowering state, the specimens must be traded in shipments consisting of individual containers (such as cartons, boxes, crates or individual shelves of CC-containers) each containing 20 or more plants of the same hybrid; the plants within each container must exhibit a high degree of uniformity and healthiness; and the shipment must be accompanied by documentation, such as an invoice, which clearly states the number of plants of each hybrid; or
 - when shipped in flowering state, with at least one fully open flower per specimen, no minimum number of specimens per shipment is required but specimens must be professionally processed for commercial retail sale, e.g. labelled with printed labels or packaged with printed packages indicating the name of the hybrid and the country of final processing. This should be clearly visible and allow easy verification.

Plants not clearly qualifying for the exemption must be accompanied by appropriate CITES documents.

^{#4} All parts and derivatives, except:

- seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from *Beccariophoenix madagascariensis* and *Dypsis decaryi* exported from Madagascar;
- seedling or tissue cultures obtained *in vitro* transported in sterile containers;
- cut flowers of artificially propagated plants;
- fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus *Vanilla* (Orchidaceae) and of the family Cactaceae;
- stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera *Opuntia* subgenus *Opuntia* and *Selenicereus* (Cactaceae);
- finished products of *Aloe ferox* and *Euphorbia antisyphilitica* packaged and ready for retail trade; and
- finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of *Bletilla striata*, *Cynoches cooperi*, *Gastrodia elata*, *Phalaenopsis amabilis* or *Phalaenopsis lobbii*.

^{P4} Seedling or tissue cultures obtained *in vitro* and transported in sterile containers are not subject to the provisions of the Convention only if the specimens meet the definition of 'artificially propagated' agreed by the Conference of the Parties.

WELWITSCHIACEAE Welwitschia		<i>Welwitschia mirabilis</i> #4	
ZAMIACEAE Cycads		ZAMIACEAE spp. #4 (Except the species included in Appendix I)	
	<i>Ceratozamia</i> spp. <i>Encephalartos</i> spp. <i>Microcycas calocoma</i> <i>Zamia restrepoi</i>		

#1 All parts and derivatives, except:
a) seeds, spores and pollen (including pollinia);
b) seedling or tissue cultures obtained *in vitro* transported in sterile containers;
c) cut flowers of artificially propagated plants; and
d) fruits, and parts and derivatives thereof, of artificially propagated plants of the genus *Vanilla*.

#2 All parts and derivatives except:
a) seeds and pollen; and
b) finished products packaged and ready for retail trade.

#4 All parts and derivatives, except:
a) seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from *Beccariophoenix madagascariensis* and *Dypsis decaryi* exported from Madagascar;
b) seedling or tissue cultures obtained *in vitro* transported in sterile containers;
c) cut flowers of artificially propagated plants;
d) fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus *Vanilla* (Orchidaceae) and of the family Cactaceae;
e) stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera *Opuntia* subgenus *Opuntia* and *Selenicereus* (Cactaceae);
f) finished products of *Aloe ferox* and *Euphorbia antisyphilitica* packaged and ready for retail trade; and
g) finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of *Bletilla striata*, *Cynoches cooperi*, *Gastrodia elata*, *Phalaenopsis amabilis* or *Phalaenopsis lobbii*.

	Appendices		
	I	II	III
ZINGIBERACEAE Ginger lily, Natal ginger			
		<i>Hedychium philippinense</i> ^{#4} <i>Siphonochilus aethiopicus</i> (Only the populations of Eswatini, Mozambique, South Africa and Zimbabwe; no other population is included in the Appendices)	
ZYGOPHYLLACEAE Lignum-vitae			
		<i>Bulnesia sarmientoi</i> ^{#11} <i>Guaiaacum</i> spp. ^{#2}	

^{#4} All parts and derivatives, except:

- seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from *Beccariophoenix madagascariensis* and *Dypsis decaryi* exported from Madagascar;
- seedling or tissue cultures obtained *in vitro* transported in sterile containers;
- cut flowers of artificially propagated plants;
- fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus *Vanilla* (Orchidaceae) and of the family Cactaceae;
- stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera *Opuntia* subgenus *Opuntia* and *Selenicereus* (Cactaceae);
- finished products of *Aloe ferox* and *Euphorbia antisyphilitica* packaged and ready for retail trade; and
- finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of *Bletilla striata*, *Cynoches cooperi*, *Gastrodia elata*, *Phalaenopsis amabilis* or *Phalaenopsis lobbii*.

^{#11} Logs, sawn wood, veneer sheets, plywood, powder and extracts. Finished products containing such extracts as ingredients, including fragrances, are not considered to be covered by this annotation.

^{#2} All parts and derivatives except:

- seeds and pollen; and
- finished products packaged and ready for retail trade.
