

NOTIFICACIÓN A LAS PARTES

No. 2023/110

Ginebra, 11 de septiembre de 2023

ASUNTO:

ESTADOS UNIDOS DE AMÉRICA

U.S. Fish and Wildlife Service Great Ape Conservation Fund:
Aviso de Oportunidad de Financiamiento (NOFO)

1. La presente notificación se publica a petición de los Estados Unidos de América.
2. El Great Ape Conservation Fund ha publicado un nuevo [Aviso de Oportunidad de Financiación \(NOFO\)](#) centrado en garantizar la conservación a largo plazo de las poblaciones de grandes simios en estado salvaje.
3. La NOFO está dirigida específicamente a cuatro taxones de grandes simios africanos, incluidos dos taxones de gorilas en peligro crítico. Se hace hincapié en las zonas que se enfrentan a problemas de fragmentación del hábitat y conectividad.
4. Las dos prioridades de financiación de esta NOFO incluyen: Promover la conservación a largo plazo de los gorilas del río Cross y los chimpancés de Nigeria-Camerún en su paisaje transfronterizo; y Asegurar el hábitat para promover la conservación a largo plazo de los gorilas de Grauer y los chimpancés orientales en la República Democrática del Congo.
5. Este trabajo está financiado en virtud de un acuerdo interinstitucional entre el Servicio de Pesca y Vida Silvestre de Estados Unidos y la Oficina de Desarrollo, Democracia e Innovación de USAID.
6. Se insta a las partes interesadas a que presenten sus solicitudes de acuerdo con los detalles que figuran en el Anexo de esta Notificación (disponible únicamente en inglés) antes del **4 de octubre de 2023**.
7. Cualquier consulta relativa a esta oportunidad de financiamiento debe dirigirse directamente a: Sr. Ken Cameron, greatapeafrica@fws.gov.

A. Program Description

Authority:

Applications awarded under this announcement will be funded through a Participating Agency Program Agreement (PAPA) between the US Fish and Wildlife Service (Service) and the United States Agency for International Development (USAID) Bureau for Development, Democracy, and Innovation (DDI). The Activity Title of the Agreement is Critical Capacity Partnership signed on August 17, 2021. Section 632(b) of the Foreign Assistance Act of 1961, as amended (FAA), 22 U.S.C section 2392 (b).

Assistance Listing Number:

15.629

Background, Purpose and Program Requirements:

The U.S. Fish and Wildlife Service's (Service) mission is to work with others to conserve, protect and enhance fish, wildlife, plants, and their habitats for the continuing benefit of the American people. The International Affairs Program delivers on this mission through its financial and technical assistance programs by supporting strategic projects that deliver measurable conservation results for priority species and their habitats around the world.

The **goal** of the U.S. Fish and Wildlife Service's African Great Ape Program is to ***ensure the long-term conservation of African great ape populations in the wild***. We do this through financial and technical assistance to support effectively implemented site-based ape conservation projects, strengthen the evidence base for ape conservation, and further develop ape conservation capacity in African ape range states.

In support of this overall goal and in combination with other strategies, this assistance program is working towards three objectives in the indicated conservation areas:

(1) reduction of threats to wildlife and habitat;

Desired results may include, as appropriate, (1a) increased ape habitat under legal management status, (1b) improved connectivity of existing ape strongholds, (1c) reduction of illegal destructive extractive practices in ape habitat, (1d) reduction of apes in the bushmeat and live ape trade, and (1e) reduction of infectious disease threats to apes.

(2) generation of scientific data to guide conservation action;

Desired results may include, as appropriate, (2a) advanced understanding of ape distribution and abundance, (2b) determined effectiveness of specific conservation actions, and (3c) improved understanding of disease affecting apes through applied research.

(3) strengthened individual and organizational conservation capacity;

Desired results may include, as appropriate, (3a) improved capacity to manage community lands in ape habitat, (3b) the positive and negative effects/impacts of the project on local communities are understood and are reflected in project

activities; (3c) robust monitoring and evaluation program is developed and implemented, and (3d) landscape-wide coordination and communication are strengthened.

Applicants may choose to include additional objectives or are welcome to use different terminology or framing to describe proposal goals and objectives that align with a project's existing strategic planning or local context. All proposed outcomes and activities, however, should collectively facilitate the delivery of meaningful results consistent with the Service's program goal and objectives above. Applicants should clearly indicate how data generated by proposed activities will be made available to the great ape conservation community.

Human population growth over the coming decades is projected to be significant and will undoubtedly result in increased pressures on apes and ape habitat, both within and outside of formal protected areas (PAs). The Service is prioritizing support for the conservation of great ape strongholds, which we're defining as robust ape populations of a given taxon living in suitable habitat. Ape strongholds may exist within formally recognized PAs, outside of PAs, or both.

This **Notice of Funding Opportunity** targets four African great ape taxa: (a) Cross River gorillas (*Gorilla gorilla diehli*), (b) Nigeria-Cameroon chimpanzees (*Pan troglodytes ellioti*), (c) Grauer's gorillas (*Gorilla beringei graueri*), and (c) eastern chimpanzees (*Pan troglodytes schweinfurthii*). Applications should address one of the two following focus areas:

- 1. Promoting the long-term conservation of Cross River gorillas and Nigeria-Cameroon chimpanzees in their transboundary landscape.**

The Cross River gorilla (*Gorilla gorilla diehli*) is the least numerous of the gorilla taxa, estimated to number fewer than 300 individuals. The majority exist as a single metapopulation, occurring in multiple small groups of 10-30 individuals in nine core areas, including community reserves and core protected areas (Afi Mountain Wildlife Sanctuary, Mbe Mountains and Cross River National Park in Nigeria and Takamanda National Park, Mone River Forest Reserve and Kagwene Gorilla Sanctuary in Cameroon) within the 12,000km² Nigeria-Cameroon trans-frontier landscape. A third or more of the population ranges outside of protected areas. Threats include hunting, habitat loss and fragmentation reducing connectivity between subpopulations, and infectious disease. Classified as critically endangered by the IUCN, the population is believed to be stable.

The Nigeria-Cameroon chimpanzee (*Pan troglodytes ellioti*), endemic to southern Nigeria and western Cameroon, is the least numerous of the chimpanzee subspecies. The total population is estimated to be fewer than 9,000 individuals widely distributed in small groups in both forest and savanna woodland. Fewer than 1,000 occur within the Cross River gorilla range, where they are found in four protected areas and numerous community forests. Hunting is the principal threat to the species. Classified as endangered by the IUCN, the overall population has declined by at least 50% in the past 20-30 years and continues on a decreasing trend.

The Service has supported conservation of both taxa in this landscape since 2004, including protected area creation and management, wildlife monitoring, and community engagement. Results include creation of Kagwene Gorilla Sanctuary and Takamanda

National Park in 2008, the Afi Mountain Wildlife Sanctuary in 2000, and Tofala Hill Wildlife Sanctuary in 2014; establishment of the Gorilla Guardian program to provide better protection and monitoring of gorillas in Cameroon's unprotected forests; and reduced levels of poaching in recent years. The Service seeks primarily to further reduce pressures on already degraded and fragmented habitat; enhance connectivity between gorilla sub-populations; and enhance current understanding of gorilla and chimpanzee status in the landscape. Applications should include a robust recovery plan. Activities may include: (1) strengthening connectivity between ape sites through improved conservation management of protected and unprotected habitat, 2) implementing SMART-based wildlife and habitat monitoring, 3) reassessing ape abundance and distribution to inform future program planning, and 4) improving transboundary conservation, including seeking World Heritage site designation.

Anticipated award: One award, for a total budget of up to USD\$1.5 million over a period of three years. As stated above, the award period (duration) is expected to be three years. However, applicants may request renewal funding for the project for an additional two years (for a total of five years), which if approved, may be awarded as a continuation amendment to the initial award. Approval of renewal funding is subject to the availability of funds, program authority, satisfactory performance, and compliance with award terms and conditions.

2. Securing habitat to promote the long-term conservation of Grauer's gorillas and eastern chimpanzees in the Democratic Republic of the Congo

The Grauer's gorilla (*Gorilla beringei graueri*) is endemic to the Democratic Republic of the Congo (DRC), where they are estimated to number fewer than 7,000 individuals. Though this landscape includes national parks and community reserves, most of the gorilla population is found outside of protected areas. Threats, including hunting and the live ape trade, habitat degradation and loss associated with resource extraction, and infectious disease are exacerbated by decades of regional security issues. Classified as critically endangered by the IUCN, the population has suffered precipitous population declines of nearly 80% over the past 20-30 years and continues on a decreasing trend.

The eastern chimpanzee (*Pan troglodytes schweinfurthii*) is the most numerous of the chimpanzee subspecies, estimated to number over 200,000 individuals inhabiting a broad geographic range. Up to a quarter their population overlaps with the Grauer's gorilla range. Classified as endangered by the IUCN, numbers are on a decreasing trend.

The Service has supported ape conservation in this landscape since 2006, including surveying and monitoring, strengthening law enforcement, protected area demarcation, community engagement, and creation of the Oku Community Reserve. Results include strengthened community engagement, a significant increase in ape habitat under community management, improved knowledge of ape populations, development of a public-private partnership management agreement for Kahuzi-Biega National Park, and improved standards for law enforcement and monitoring practices.

The Service will consider proposals for projects in the following geographies identified as priority gorilla populations in the 2012-2022 Conservation Action Plan: Maiko South, Kaseke, Kahuzi-Biega, Tayna-Usala, and Itombwe. The Service seeks to 1) increase the

amount of ape habitat under improved management, and 2) strengthen the connectivity between ape strongholds. Activities may include: 1) effectively managing protected and unprotected ape habitat, 2) engaging and supporting communities in establishing community-managed ape habitat, and 3) strengthening habitat connectivity between gorilla sub-populations.

For work in national parks, applicants should have management agreements in place prior to issuing of an award.

Anticipated award: Two awards, each for a total budget of up to USD\$1.5 million over a period of three years. As stated above, the award period (duration) is expected to be three years. However, applicants may request renewal funding for the project for an additional two years (for a total of five years), which if approved, may be awarded as a continuation amendment to the initial award. Approval of renewal funding is subject to the availability of funds, program authority, satisfactory performance, and compliance with award terms and conditions.

B. Federal Award Information

B1. Total Funding

Estimated Total Funding

\$4,500,000

B2. Expected Award Amount

Maximum Award

\$1,500,000

Minimum Award

\$1,000,000

B3. Expected Award Funding and Anticipated Dates

Expected Award Funding

\$4,500,000

Expected Award Date

January 01, 2024

Estimated award date is January 1, 2024.

B4. Number of Awards

Expected Number of Awards

A total of two to three awards are anticipated: a single 3-year award in the Cross River gorilla landscape; and one to two 3-year awards in the Grauer's gorilla landscape. The maximum for any single award is \$1,500,000 over a 3-year period. Actual award amounts are contingent upon the number of awards and funds availability.

B5. Type of Award

Funding Instrument Type

G - Grant

C. Eligibility Information

C1. Eligible Applicants

Eligible Applicants

25 – Others (see text field entitled “Additional Information on Eligibility” for clarification)

Additional Information on Eligibility

Applicants may be multi-national secretariats, U.S. and foreign non-profits, non-governmental organizations, community and Indigenous organizations, and U.S. and foreign public and private institutions of higher education.

C2. Cost Sharing or Matching

Cost Sharing / Matching Requirement

No

Percentage of Cost Sharing / Matching Requirement

Cost sharing is the portion of program costs not borne by the Service. Under this program, cost share is not required but may be committed voluntarily. Though Voluntary Committed Cost Share (See 2 CFR 200.1) is not required, as prescribed by the Great Ape Conservation Act of 2000, preference will be given to projects that include cost share funds. Cost share should be necessary and reasonable to accomplish project objectives, and allowable in accordance with [2 CFR 200 Subpart E—Cost Principles](#).

Applicants may consider all types of cost sharing, including in-kind and public-private partnerships. Examples include the use of office space owned by other entities; donated or borrowed supplies and equipment; (non-federal) sponsored travel costs; waived indirect costs; and program activities, translations, or consultations conducted by qualified volunteers. Assign a monetary value in U.S. dollars to each in-kind contribution. The values of offered cost-share should be included in the detailed budget and explanations of contributions should be included in the Budget Narrative whether cash or in-kind.

If the proposed project is a component of a larger program, identify other funding sources and the specific funding amount to be provided by those sources. In addition, it is recommended that the Budget Narrative address the overall cost-effectiveness of the proposal, including leveraging institutional or other resources.

Funds provided by another U.S. Federal Government agency or another Service award cannot be reported as cost share but contributions should be noted and explained in detail in the Budget Narrative.

If cost share is included in the budget, written records must be maintained to support all allowable costs that are claimed as its contribution to cost share, as well as costs to be paid by the Federal government. Such records are subject to audit.

C3. Other

Funds provided under this program may not be used for assistance to governments, parts of government, or government employees in countries that USAID notifies the Service to be ineligible for assistance.

Awards are contingent on funding eligibility and policy circumstances in each country and may be subject to special coordination or communication with USAID and/or its partners. In limited cases, the Service may request that applicants remove certain activities or countries from the project to meet funding or policy requirements.

Foreign Entities or Projects:

State Sponsors of Terrorism: This program will not fund projects in [countries determined by the U.S. Department of State to have repeatedly provided support for acts of international terrorism](#) and therefore are subject to sanctions restricting receipt of U.S. foreign assistance and other financial transactions.

Office of Foreign Assets Control Sanctions: This program will not fund projects in countries subject to [comprehensive sanction programs administered by the U.S. Department of Treasury, Office of Foreign Asset Control](#) without proper licenses.

In-Country Licenses, Permits, or Approvals: Entities conducting activities outside the U.S. are responsible for coordinating with appropriate U.S. and foreign government authorities as necessary to obtain all required licenses, permits, or approvals before undertaking project activities. The Service does not assume responsibility for recipient compliance with the laws, regulations, policies, or procedures of the foreign country in which they are conducting work.

Excluded Parties:

The DOI conducts a review of the SAM.gov Exclusions database for all applicant entities and their key project personnel prior to award. The DOI cannot award funds to entities or their key project personnel identified in the SAM.gov Exclusions database as ineligible, prohibited/restricted or otherwise excluded from receiving Federal contracts, certain subcontracts, and certain Federal assistance and benefits, as their ineligibility condition applies to this Federal program.

D. Application and Submission Information

D1. Address to Request Application Package

This funding opportunity contains everything needed to apply. To request paper copies of materials, please contact GreatApeAfrica@fws.gov.

D2. Content and Form of Application Submission

SF-424, Application for Federal Assistance

All applicants must submit the Standard Form (SF)-424, Application for Federal Assistance. This form is available with the announcement on Grants.gov and in GrantSolutions. The form must be

complete and signed by an Authorized Representative. For all applicants except individuals and commercial entities, the Authorized Representative's signature on a standard application form submitted to the Service represents their certification that the entity's financial management system meets [2 CFR §200.302](#) financial management requirements. The non-Federal entity's financial management system must be sufficient to:

1. Permit the preparation of required reports;
2. Trace funds to a level of expenditures adequate to establish that the entity has used such funds per Federal statutes, regulations, and terms and conditions of the Federal award;
3. Provide for the requirements in [2 CFR §200.302\(b\)](#); and
4. Comply with [§200.334](#) Retention requirements for records, [§200.335](#) Requests for transfer of records, [§200.336](#) Methods for collection, transmission, and storage of information, and [§200.337](#) Access to records.

If this application requests more than \$100,000 in Federal funds, the Authorized Representative's signature on or submission of the SF-424 form in GrantSolutions also represents their certification of the statements in 43 CFR Part 18, Appendix A-Certification Regarding Lobbying.

When completing the SF-424 Application form, enter only the amount requested from this Federal program in Box 18a, Estimated Federal Funding. Include any other Federal sources of funding in Box 18e. Estimated Other Funding and identify any such sources and amounts in the required Budget Narrative (see below). For individuals applying as a private citizen (i.e., unrelated to any business or nonprofit organization you may own or operate in your name), do NOT include your Social Security Number on this or any other document to be submitted with your application! When completing the SF-424 Application form, individuals must enter in Box 8b. Employee/Taxpayer Identification Number (EIN/TIN) the substitute number "444-44-4444." Individuals may register in SAM.gov but are not required to have a SAM.gov registration. For individuals without a SAM.gov registration enter in Box 8c. the substitute Unique Entity Identifier (UEI) "KA5HQCLKUVW1".

Project Abstract Summary (OMB Number 4040-0019)

Applicants must complete and submit the Project Abstract Summary form. The Project Abstract Summary form must provide a brief award description. The description must be in plain language that the public can understand without viewing the full application proposal. It should include a brief, simple description of the project purpose, activities to be performed, deliverables and expected outcomes, intended beneficiaries, and subrecipient activities, if known at the time of submission.

Do not include personally identifiable, sensitive, or proprietary information in the award description as this is available to the public. Use only English characters, numbers, punctuation, and standard symbols. Use of non-English, non-standard characters (also referred to as special or extended ASCII characters) will result in the award description failing to be reported correctly to USASpending.gov. Award descriptions are limited to 4,000 characters or less. Applicants should check the length of the award description and proofread for proper grammar and spelling.

For applicants applying through Grants.gov: Applicants must download and complete the Grants.gov "Project Abstract Summary" form from the full text announcement. To submit the Grants.gov "Project Abstract Summary" form with the application, applicants must add the form

as an attachment to the Grants.gov “Attachments” form that is included in the application package.

For applicants applying through GrantSolutions-Grants Management Module (GS-GMM): Applicants must enter the information in the Project Abstract Summary screen. Do not upload a document in place of entering the information directly into GS-GMM Project Abstract Screen.

Project Narrative

Due to character limitations, the full text will be included in the published version of the Full Announcement.

Please note: Project narratives should be ten pages or fewer. Pages should be numbered sequentially. Project summary, figures, tables, maps, curriculum vitae, and required standard forms do not count toward the ten-page limit.

1. **Project title:** Provide a basic description of the project, including the location and country, in the title. If this is a continuation of an earlier funded proposal, use the same title and include the appropriate number to denote that this is a subsequent proposal, such as “Ape Conservation – 2”. Please note: This title will be the reference title archived and communicated in all future documents. The Service may modify the project title for clarity.
2. **Statement of Need:** This section should answer the question, “Why is this project necessary?” Clearly identify the wildlife, habitat or biodiversity targeted for conservation (including any existing estimates of population size, geographic range or extent, where relevant); a description of the direct threats that affect the targeted species at the project site/taxa of concern; and the specific threats that the project will address. This section should describe how the proposed activities are expected to lead to desired conservation outcomes, such as the reduction of direct threats or improvement of the status of species and habitats. Summarize previous or on-going efforts (of you/your organization and other organizations or individuals) that are relevant to the proposed work, including how the proposal differs from past work, or builds upon it, and how the applicant plans to expand upon the successes, failures, and lessons learned from past efforts.

It is important for applicants to show that conservation project proposals are based on the best available evidence. Applicants are encouraged to describe and cite the evidence base for the most important conservation activities within a proposal. For example, applicants should describe the existing evidence that suggests proposed activities will be effective, with a focus on activities that may have substantial or sensitive consequences or activities that are considered high risk by the project. To identify evidence for conservation activities, applicants are encouraged to search and cite the Conservation Evidence database (<https://www.conservationevidence.com/>). The evidence base may also include published or grey literature, previous personal experience, Indigenous and/or traditional knowledge, evidence review and synthesis libraries (e.g., CEEDER, Evidence for Nature and People Data Portal), or species assessments published under the Endangered Species Act and the IUCN Red List of Threatened Species. If a proposed activity is considered

sensitive or high risk but has little to no existing evidence base among these information sources, applicants are encouraged to discuss where new evidence is needed to understand effectiveness. Further guidance and examples are available in Parks et al. (2022) Funding Evidence-Based Conservation and its supplementary materials.

If you have received funding previously from the Service for this specific project work or site, provide a summary of the funding, associated activities, products, outcomes, and associated measurable conservation results. A table may be the most efficient way to convey this information: including columns for donor, reference number, amount funded, year of activity, and bullet points of major activities, outcomes, products, and associated measurable conservation results. Projects with funding from any other U.S. government source or eligible for any other U.S. government source should add a section describing the activities supported and the added value of Service support. Please note how the proposal differs or builds upon funding available from other major donors. Former recipients of Service support should note that every proposal is expected to be a stand-alone document. Not all proposal reviewers may be familiar with past grants and a summary of activities and accomplishments helps all reviewers to better understand the proposal in context.

- 3. Project Goals, Objectives, Activities and Methods:** This section should answer the question, “What do you want to achieve and how are you going to do it?” State the long-term goals of what your project aims to achieve. Objectives are the specific steps that you will take to reach your stated goals. Your objectives must be attainable within the project period and should be specific, measurable, and realistic. Activities are the specific actions to be undertaken to fulfill the project objectives and reach the project goal(s). The proposed project activities narrative must be detailed enough for reviewers to make a clear connection between the activities and the proposed project costs. Provide a detailed description of the method(s) used to carry out each activity.

The following is an example of the recommended format:

GOAL:

Objective 1.

Activity 1.1

Activity 1.2

Objective 2.

Activity 2.1

Objective 3.

Activity 3.1

Activity 3.2

Activity 3.3

Consider including activities that meet one or more of the following conditions:

- a. Activities that clearly address the specific direct threats described in the above section titled: Statement of Need.
 - b. Activities that are feasible and likely to be successfully implemented as stated;
 - c. Activities that apply the best scientific and/or technical information and methods available;
 - d. Activities that include the participation of local partners in project activities, including meaningful involvement of government, community, or civil society stakeholders; and
 - e. Activities resulting in benefits continuing beyond the period of performance of the project.
4. **Project Timetable:** This section should answer the question, “Over what period will project activities be implemented? Provide a timetable indicating roughly when activities or project milestones are to be accomplished. Include any resulting tables, spreadsheets or flow charts within the body of the project narrative (do not include as separate attachments). The timetable should not propose specific dates but instead group activities by month for each month over the entire proposed project period.
5. **Stakeholder Coordination/Involvement:** This section should answer the question, “Who is impacted by this project and how will they be incorporated into the project (e.g. consultation mechanisms, inclusion in governance system, outreach, etc.)?” As applicable, describe how you/your organization has coordinated with and involved other relevant organizations, indigenous peoples, local communities or individuals in planning the project, and detail if/how they will be involved in conducting project activities, disseminating project results, and/or incorporating your results/products into their activities. Please describe any previous work with these stakeholders and how working with them relates to the specific threats and target audiences. Where multiple groups are working in the same site or are listed as stakeholders in the proposal, letters of endorsement specifically referring to this proposal and the proposed collaboration from each partner organization will strengthen your proposal and may be requested by reviewers. If the project impacts changes in access to resources for indigenous peoples and local communities, letters of support or documentation may be requested by the reviewers.

For projects where Indigenous Peoples are present in or have a collective attachment to the project area and there are either: (i) risks of possible adverse impacts on their human rights, livelihoods, and/or culture; (ii) the potential for adverse impacts on their lands and territories, natural resources, or sacred sites (whether the land is under traditional ownership title or based on customary use and occupation); or (iii) threats that might result in physical relocation from those lands, letters should explain the planned or completed process for how the project will obtain/has obtained free, prior, and informed consent (FPIC) in line with USAID’s Policy on Promoting the Rights of Indigenous Peoples, in addition to national and international laws, regarding proposed project activities. Technical support documents for implementing FPIC are available at

<https://biodiversitylinks.org/library/key-resources#parks>
<https://biodiversitylinks.org/library/key-resources#parks>.

6. **Support for Protected Areas:** Projects with activities taking place in a protected area must address the following questions regarding social safeguards. Technical support documents for implementing these safeguards are available at <https://biodiversitylinks.org/library/key-resources#parks> to help applicants and recipients of USAID-funded projects apply these requirements and avoid or mitigate social risks associated with conservation activities for parks and protected areas. If the applicant believes that any of these items are not applicable, an explanation for this determination must be provided:
- a. How will information detailing the proposed project and potential impacts be shared with local communities and the free, prior, and informed consent of affected indigenous communities be obtained in accordance with USAID’s Policy on Promoting the Rights of Indigenous Peoples?;
 - b. How will the potential impacts of the proposed project on existing land or resource claims by affected local communities or indigenous peoples be considered and addressed in a management plan?;
 - c. What is the plan for providing proper training and monitoring to any eco-guards, park rangers, and other law enforcement personnel regarding safe and fair application of the law, including respect for human rights and avoiding intimidation or unnecessary use of force?; and
 - d. Do effective grievance and redress mechanisms for reporting human rights abuse, misconduct, and other grievances exist? If not, what are the plans for their establishment?
7. **Project Monitoring and Evaluation:** This section should answer the question, “How will you evaluate the progress and success of this project?”. Building on the stated project objectives, which must be specific and measurable, identify what you will measure (i.e., quantitative/quantifiable indicators) and how you will measure it (i.e., methods, sample size, survey tools). Except for the USAID standard indicator below, indicators should not be outputs (products) but rather should reflect a change in capacity, human behavior, threat, or status of the target species. Applicants may reference relevant indicators as developed under the IUCN Green List of Protected and Conserved Areas.

The following table format is recommended:

Objective	Indicator (i.e., what you will measure to track your progress toward achieving the objective)	Monitoring Method (i.e., how you will measure the indicator)	Current Status (if known)	Desired Status
------------------	---	--	-------------------------------------	-----------------------

In addition to project-specific indicators, projects funded under this announcement will be required to report progress against USAID's standard indicators for biodiversity projects. If one or more of the following indicators are relevant to the project, include them in your monitoring plan.

- EG 10.2-1 Number of hectares of biologically significant areas showing improved biophysical conditions as a result of USG assistance
- EG 10.2-2 Number of hectares of biologically significant areas under improved natural resource management as a result of USG assistance
- EG 10.2-3 Number of people with improved economic benefits derived from sustainable natural resource management and/or biodiversity conservation as a result of USG assistance
- EG 10.2-4 Number of people trained in sustainable natural resources management and/or biodiversity conservation as a result of USG assistance
- EG 10.2-5 Number of laws, policies, or regulations that address biodiversity conservation and/or other environmental themes officially proposed, adopted, or implemented as a result of USG assistance
- EG 10.2-6 Number of people that apply improved conservation law enforcement practices as a result of USG assistance

8. **Description of Entities Undertaking the Project:** This section should answer the question, "Who will carry out the project, and what are their specific qualifications?" Provide a brief description of the applicant organization and all participating entities and/or individuals. Where relevant, refer to any institutional codes of conduct or safeguarding policies the applicant has in place to demonstrate its capacity to implement the proposed project in accordance with relevant laws and best practices. Based on the activities involved, reviewers may request additional information regarding institutional policies and codes of conduct that demonstrate such measures are in place. Identify which of the proposed activities each agency, organization, group, or individual is responsible for conducting or managing. On the Form SF-424, Application for Federal Assistance, provide complete contact information for the individual within the organization who will oversee/manage the project activities on a day-to-day basis. Provide brief (**1-page**) *curricula vitae* for key personnel, identifying their qualifications to meet the project objectives. To prevent unnecessary transmission of Personally Identifiable Information, **DO NOT include Social Security numbers, the names of family members, marital status, religion or physical characteristics or any other personal or sensitive information including marital status, religion or physical characteristics in the description of key personnel qualifications.**

9. **Sustainability:** This section should answer the question, "What is your long-term plan

for this project beyond the Service funding period?” As applicable, describe which project activities will continue beyond the proposed project period, who will continue the work or act on the results achieved, and how and at what level you expect these future activities will be funded.

10. **Literature Cited:** (if applicable) include as an addendum and not within the text of the proposal.
11. **Map of Project Area:** This section should answer the question, “Where is the project located?” The map should clearly delineate the project area, showing its location relative to national borders and other pertinent geographic features (e.g. protected areas, rivers, etc.), and be large enough and of adequate resolution as to be legible. Label pertinent features, including those referenced in the project narrative. Multiple maps may be used, if appropriate.
12. **Government Letter of Endorsement:** For projects implemented outside of the United States, non-governmental applicants must include a recent letter of support (no older than two years) from the appropriate local, regional, or national government wildlife or conservation authority. A current Memorandum of Understanding (MOU) between the applicant and the government authority may be accepted as long as the MOU references the proposed work. Where appropriate, letters of support from local communities or project beneficiaries should be provided. Endorsement letters should be in English and make specific reference to the Service and the proposed work. If a support or endorsement letter is not in English, applicants must also provide an English translation of the letter.

SF-424A, Budget Information for Non-Construction Programs

Applicants must complete and submit the SF-424A Budget Information form for Non-Construction Programs or Projects. All required application forms are available with this announcement on Grants.gov or in GrantSolutions. Federal award recipients and subrecipients are subject to Federal award cost principles in Title 2 of the Code of Federal Regulations (CFR) part 200. Applicants must show funds requested from this Federal program separately from any other Federal sources of funding. In “Section A – Budget Summary” on the SF-424A form enter in the first row the funding requested from this Federal program. Identify any other Federal funding sources and amounts in the required Budget Narrative (see below).

Budget Table

Applicants must include an itemized Budget Table following the table format below. If your Budget Table requires more than one page, verify that the column headings and row titles appear on all pages. For multi-year or multi-phase projects, please include a separate budget table and narrative for each year/phase with subtotals.

If the proposed project is a component of a larger program, identify leveraged funds and other resources available and/or needed to accomplish the desired objectives (leveraged funds are funds that run parallel to or outside of the proposed SERVICE project budget). Include the specific funding amount to be provided by those sources and the relevant activities they will

contribute to. In addition, it is recommended that the Budget Narrative address the overall cost-effectiveness and feasibility of the proposal, including leveraging institutional or other resources.

The itemized budget should provide enough information for reviewers to be able to understand the cost basis and calculation at a glance. For example, a \$3,300 charge for lodging should include the formula for how the cost was calculated (e.g., *Lodging for 20 nights x 11 people x \$15/night = \$3,300*). For personnel salary costs, include the baseline salary figures and the estimates of time (e.g., *50% time on project*).

For any salaries, staff time, or contractors for which Service funds are requested, the person should be identified, and their qualifications described in the Project Narrative (Description of Entities Undertaking the Project). For any training, a description of the training should be included in the Methods section. For any meetings, a description of participants, a draft agenda, and desired outputs should be provided.

Expenses listed as “Miscellaneous” or “etc.” are unallowable. Unless conditions listed under [200.433 Contingency provisions](#) are applicable, “contingencies” are unallowable. Expenses listed as “Other” must be clearly identified and described in the Budget Narrative.

Applicants should be aware of and comply with the requirements of [200.216 Prohibition on certain telecommunications and video surveillance services or equipment](#).

Equipment: Equipment is defined as an item with a per-unit cost of \$5,000 or more and a service life of more than one year. If the item meets these criteria, all federal procurement policies and procedures must be followed. If an item does not meet these criteria, it should be considered a supply and listed under cost category E. Justify any equipment purchase/rental in the budget narrative. If equipment previously purchased with Federal funds is available for the project, provide a list of that equipment and identify the Federal funding source. For expensive items or large single purchases, provide detailed technical specifications or a pro forma invoice.

Supplies: List items separately using unit costs and the percentage of each unit cost being charged to the award for photocopying, postage, telephone/fax, printing, and office supplies (e.g., Telephone: \$50/month x 50% = \$25/month x 12 months).

Contractual:

1. Subawards: For each subaward, provide a detailed line-item breakdown explaining specific services in a separate tab in the Budget Table and Narrative. Subaward budgets should include the same level of detail for personnel, fringe benefits, travel, equipment, supplies, other direct costs, and indirect costs required of the direct applicant. If indirect costs are charged on a subaward budget, include the subrecipient’s NICRA.

2. Consultant Fees: For example, lecture fees, honoraria, travel, and per diem for outside speakers or independent evaluators: list number of people and rates per day (e.g., *2 x \$150/day x 2 days*). Consultant/outside expert fees/honoraria should be consistent with the level of experience and based on a fair market value.

Go to <http://www.fws.gov/international/pdf/sample-budget.pdf> to view a sample project budget table.

Category/Budget Item	Units	Cost per Unit (\$)	No. of Units	Total	USFWS	Recipient

INDIRECT CHARGES				\$ xxx	\$ xxx	\$ xxx
GRAND TOTAL					\$xxx	\$xxx

Budget Narrative

Applicants must include a budget narrative that describes and justifies requested budget items and costs. In your budget narrative, describe how the SF-424 Budget Information, "Object Class Category" totals were determined. For personnel salary costs, generally describe how estimates were determined by identifying what type of staff will support the project and how much time

they will contribute to the project (in hours or workdays). Describe any proposed [items of cost that require prior approval](#) under the [Federal award cost principles](#), including any anticipated subawarding, transferring, or contracting out of any work under the award. If equipment previously purchased with Federal funds is available for the project, provide a list of that equipment and identify the Federal funding source. Identify any third-party cash or in-kind contributions that a partner or other entity will contribute to the project and describe how the contributions directly and substantively benefit completion of the project. For in-kind contributions, identify the source, the amount, and the valuation methodology used to determine the total value. See [2 CFR §200.306](#) for more information.

Conflict of Interest Disclosure

Per the Financial Assistance Interior Regulation (FAIR), [2 CFR §1402.112](#), applicants must state in their application if any actual or potential conflict of interest exists at the time of submission.

- *Applicability.*
 - This section intends to ensure that non-Federal entities and their employees take appropriate steps to avoid conflicts of interest in their responsibilities under or with respect to Federal financial assistance agreements.
 - In the procurement of supplies, equipment, construction, and services by recipients and by sub recipients, the conflict of interest provisions in [2 CFR§200.318](#) apply.
- *Notification.*
 - Non-Federal entities, including applicants for financial assistance awards, must disclose in writing any conflict of interest to the DOI awarding agency or pass-through entity in accordance with [2 CFR §200.112](#).
 - Recipients must establish internal controls that include, at a minimum, procedures to identify, disclose, and mitigate or eliminate identified conflicts of interest. The recipient is responsible for notifying the Financial Assistance Officer in writing of any conflicts of interest that may arise during the life of the award, including those that have been reported by sub recipients.
- *Restrictions on lobbying.* Non-Federal entities are strictly prohibited from using funds under a grant or cooperative agreement for lobbying activities and must provide the required certifications and disclosures pursuant to [43 CFR §18](#) and [31 USC §1352](#).
- *Review procedures.* The Financial Assistance Officer will examine each conflict of interest disclosure on the basis of its particular facts and the nature of the proposed grant or cooperative agreement, and will determine whether a significant potential conflict exists and, if it does, develop an appropriate means for resolving it.

Failure to resolve conflicts of interest in a manner that satisfies the government may be cause for termination of the award. Failure to make required disclosures may result in any of the remedies described in [2 CFR §200.339](#), Remedies for noncompliance, including suspension or debarment (see also [2 CFR §180](#)).

Uniform Audit Reporting Statement

All U.S. states, local governments, Indian tribes, institutions of higher education, and non-profit organizations expending \$750,000 USD or more in Federal award funds in the applicant's fiscal year must submit a Single Audit report for that year through the [Federal Audit Clearinghouse's Internet Data Entry System](#), in accordance with 2 CFR 200 subpart F. U.S. state, local government, Indian tribes, institutions of higher education, and non-profit applicants must state if your organization was or was not required to submit a Single Audit report for the most recently closed fiscal year. If your organization was required to submit a Single Audit report for the most recently closed fiscal year, provide the EIN associated with that report and state if it is available through the [Federal Audit Clearinghouse](#) website.

Certification Regarding Lobbying

Applicants requesting more than \$100,000 in Federal funding must certify to the statements in [43CFR Part 18, Appendix A-Certification Regarding Lobbying](#). If this application requests more than \$100,000 in Federal funds, the Authorized Official's signature on the appropriate SF-424, Application for Federal Assistance form also represents the entity's certification of the statements in [43 CFR Part 18, Appendix A](#).

Disclosure of Lobbying Activities

Applicants and recipients must not use any federally appropriated funds (annually appropriated or continuing appropriations) or matching funds under a Federal award to pay any person for lobbying in connection with the award. Lobbying is influencing or attempting to influence an officer or employee of any U.S. agency, a Member of the U.S. Congress, an officer or employee of the U.S. Congress, or an employee of a Member of the U.S. Congress connection with the award. Applicants and recipients must complete and submit the [SF-LLL, "Disclosure of Lobbying Activities"](#) form **if** the Federal share of the proposal or award is more than \$100,000 **and** the applicant or recipient has made or has agreed to make any payment using non-appropriated funds for lobbying in connection with the application or award. The SF-LLL form is available with this Funding Opportunity on Grants.gov. See 43 CFR, Subpart 18.100 for more information on when additional submission of this form is required.

Overlap or Duplication of Effort Statement

Applicants must provide a statement indicating if there is any overlap between this Federal application and any other Federal application, or funded project, in regard to activities, costs, or time commitment of key personnel. If no such overlap or duplication exists, state, "There are no overlaps or duplication between this application and any of our other Federal applications or funded projects, including in regard to activities, costs, or time commitment of key personnel". If any such overlap exists, provide a complete description of overlaps or duplications between this proposal and any other federally funded project or application in regard to activities, costs, and time commitment of key personnel, as applicable. Provide a copy of any overlapping or duplicative proposal submitted to any other potential funding entity and identify when that proposal was submitted, to whom (entity name and program), and when you anticipate being notified of their funding decision. When overlap exists, your statement must end with "We understand that if at any time we receive funding from another source that is duplicative of the funding we are requesting from the U.S. Fish and Wildlife Service in this application, we will immediately notify the U.S. Fish and Wildlife Service point of contact identified in this Funding Opportunity in writing."

D3. Unique Entity Identifier and System for Award Management (SAM)

Identifier and System for Award Management (SAM.gov) Registration:

This requirement does not apply to individuals applying for funds as an individual (i.e., unrelated to any business or nonprofit organization you may own, operate, or work within), or any entity with an exception to bypass SAM.gov registration with prior approval from the funding bureau or office in accordance with bureau or office policy. All other applicants are required to register as a financial assistance recipient in SAM.gov prior to submitting a Federal award application and obtain a [Unique Entity Identifier \(UEI\)](#). A Federal award may not be made to an applicant that has not completed the SAM.gov registration. If an applicant selected for funding has not completed their SAM.gov registration by the time the program is ready to make an award, the program may determine the applicant is not qualified to receive an award. Federal award recipients must also continue to maintain an active SAM.gov registration with current information through the life of their Federal award(s). Entities already registered in SAM.gov should review their registration to confirm that they are registered as a financial assistance recipient, which requires completion of the SAM.gov “Financial Assistance General Certifications and Representations”. See the “Submission Requirements” section of this document below for more information on SAM.gov registration.

Applicants can register on the [SAM.gov](#) website. The “Help” tab on the website contains User Guides and other information to assist you with registration. The Grants.gov “[Register with SAM](#)” page also provides detailed instructions. Applicants can contact the supporting Federal Service Desk for help registering in SAM. Once registered in SAM, entities must renew and revalidate their SAM registration at least once every 12 months from the date previously registered. Entities are strongly encouraged to revalidate their registration as often as needed to ensure their information is up to date and reflects changes that may have been made to the entity’s IRS information. If applicable, foreign entities who want to receive payment directly to a U.S. bank account must enter and maintain valid, current banking information in SAM.

D4. Submission Dates and Times

Due Date for Applications

10/04/2023

Application Due Date Explanation

Applications must be submitted electronically through GrantSolutions by 11:59 PM ET on the listed application due date.

Applications must be submitted in English. Late applications will not be accepted. A confirmation email containing an assigned application number beginning with “FWS-” will be sent to applicants upon submission. If you do not receive this email within five days of the opportunity closing date, contact GreatApeAfrica@fws.gov. DO NOT SUBMIT YOUR APPLICATION MORE THAN ONCE. Duplicate applications will be discarded. Please see more information about submission requirements in section D7. Other Submission Requirements.

D5. Intergovernmental Review

An intergovernmental review may be required for applications submissions from a U.S. state or local government prior to submission. Applicants must contact their State's Single Point of Contact (SPOC) to comply with the state's process under [Executive Order 12372](#). The State Single Point of Contact list is available on the [OMB Office of Federal Financial Management website](#).

D6. Funding Restrictions

The Service will not fund:

- the purchase of firearms or ammunition;
- gathering information by persons who conceal their true identity;
- buying or purchasing of intelligence, evidence or information or paying informants;
- law enforcement operations that, to arrest suspects, prompt them to carry out illegal activities (entrapment); and
- any activity that would circumvent sanctions, laws, or regulations of either the U.S. or the country of the proposed activity.

The following cost elements **are not allowable** under this program:

- Publication of materials for distribution within the United States that are not related to the program
- Pre-award Costs - Expenses incurred before the specified dates of award period of performance (unless prior written approval is received.)
- Programs designed to advocate policy views or positions of foreign governments or views of a particular political faction
- Entertainment and/or alcoholic beverages
- Purchase of land
- Direct support or the appearance of direct support for individual or single-party electoral campaigns
- Duplication of services immediately available through municipal, provincial, or national government
- Provision of salary support to government officials

Indirect Costs: Individuals

Individuals applying for and receiving funds separate from a business or non-profit organization they may operate are not eligible to charge indirect costs to their award. If you are an individual applying for funding, you must not include any indirect costs in your proposed budget.

Indirect Costs: Organizations

The Federal awarding agency that provides the largest amount of direct funding to your organization is your cognizant agency for indirect costs, unless otherwise assigned by the White House Office of Management and Budget (OMB). If the Department of the Interior (DOI) is your organization's cognizant agency, the Interior Business Center (IBC) will negotiate your indirect cost rate. Contact the IBC by phone 916-930-3803 or using the [IBC Email Submission Form](#). See the [IBC Website](#) for more information.

Organizations must have an active Federal award before they can submit an indirect cost rate proposal to their cognizant agency. Failure to establish an approved rate during the award period renders all costs otherwise allocable as indirect costs unallowable under the award. Recipients may not shift unallowable indirect costs to another Federal award unless specifically authorized to do so by legislation.

Required Indirect Cost Statement to be submitted by Organization:

U.S. state or local government entities receiving more than \$35 million in direct Federal funding must include the following statement in their application and attach a copy of their most recently negotiated rate agreement:

- We are a U.S. state or local government entity receiving more than \$35 million in direct Federal funding. We submit our indirect cost rate proposals to our cognizant agency. Our current indirect cost rate is [insert rate]. Attached is a copy of our most recently negotiated rate agreement/certification.

U.S. state or local government entities receiving \$35 million or less in direct Federal funding must include the applicable statement from this list:

- We are a U.S. state or local government entity receiving \$35 million or less in direct Federal funding. We prepare and retain for audit an indirect cost rate proposal and documentation per 2 CFR 200, Appendix VII. Our current indirect cost rate is [insert rate], which is charged against [insert a complete description of the direct cost base used to distribute indirect costs to the award].
- We are a U.S. state or local government entity receiving \$35 million or less in direct Federal funding. We have not prepared an indirect cost rate proposal and documentation per 2 CFR §200, Appendix VII and elect to charge the de minimis rate of 10% of Modified Total Direct Costs as defined in 2 CFR §200.1. We understand we must use this methodology consistently for all Federal awards until we choose to establish a rate per 2 CFR §200. We understand we must notify the Service in writing if we establish a rate that changes the methodology used to charge indirect costs during the award period. We understand that additional Federal funds may not be available to support an unexpected increase in indirect costs during the project period and that such changes are subject to review, negotiation, and prior approval by the Service.

All other organizations must include the applicable statement from this list and any related documentation in their application. Please note, an organization with a current negotiated (including provisional) rate may not elect to charge the 10% de minimis rate of Modified Total Direct Costs during the period covered by their current negotiated rate.

- We are an organization with a current negotiated indirect cost rate. In the event we receive an award, we will charge indirect costs per our current negotiated rate agreement. Attached is a copy of our current rate agreement.
- We are an organization with a negotiated indirect cost rate that has expired. Attached is copy of our most recently negotiated rate agreement. If we receive an award, we will submit an indirect cost rate proposal to our cognizant agency within 90 calendar days after the award date. We understand we must provide the Service a copy of our approved rate agreement before charging indirect costs to the Federal award.
- We are an organization that has never negotiated an indirect cost rate with our cognizant agency. Our indirect cost rate is [insert rate], which is charged against [insert a complete description of the direct cost base used to distribute indirect costs to the award]. If we receive an award, we will submit an indirect cost rate proposal to our cognizant agency within 90 calendar days after the award date. We understand we must provide the Service a copy of our approved rate agreement before charging indirect costs to the Federal award.
- We are an organization that does not have a current negotiated (including provisional) rate. In the event an award is made, we elect to charge the de minimis rate of 10% of Modified Total Direct Costs as defined in 2 CFR §200.1. We understand we must use this methodology consistently for all Federal awards until such time as we negotiate a different rate with our cognizant agency. We understand that we must notify the Service in writing if during the award period we establish a rate that changes the methodology used to charge indirect costs to the award. We understand that additional Federal funds may not be available to support an unexpected increase in indirect costs and that such changes are subject to review, negotiation, and prior approval by the Service.
- We are an organization submitting a [insert either “Cooperative Fish and Wildlife Research Unit Program” or “Cooperative Ecosystem Studies Unit Network”] project proposal, which has an indirect cost rate cap of [insert rate; CRU is currently 15%; CESU is currently 17.5%]. In the event we receive an award, we understand that if we have a current negotiated (including provisional) indirect cost rate agreement we must charge the capped indirect cost rate to the same base identified in our approved indirect cost rate agreement. We understand we must request prior approval from the awarding program to use the [2 CFR 200.1 Modified Total Direct Costs](#) (MTDC) base instead of our approved base and that we must submit such requests with our application, including a calculation showing how use of the MTDC base results in an overall reduction in the total indirect costs recovered. If we do not have current negotiated (including provisional) rate, we understand we must charge the capped indirect cost rate against Modified Total Direct Costs (MTDC) as defined in 2 CFR §200.1. If we have never negotiated a rate, we understand we must use the de minimis rate of 10% of MTDC.
- We are an organization that will charge all costs directly.

D7. Other Submission Requirements

The Service uses the GrantSolutions system to manage financial assistance applications and awards. Applicants must register in and conduct any subsequent award business with the Service in GrantSolutions. To apply, your organization and organization officials must be established in GrantSolutions. To register your organization in GrantSolutions, send an email to help@grantsolutions.gov with the following information:

Subject: New Organization Request

- Organization/Individual Name
- Point of Contact first and last name, email, and phone number
- Organization Type
- SAM.gov Unique Entity Identifier (not required for individuals or Service-waived entities)
- Organization Employer Identification Number (Applicants that are INDIVIDUALS DO NOT include your social security number)
- Address

Organizational details should match those in the organization's SAM.gov registration. To establish organization official accounts and user role(s), complete a Recipient User Account Request Form for each official and email it to help@grantsolutions.gov. The GrantSolutions entity user roles are: Authorizing Official (ADO); Principal Investigator/Program Director (PI/PD); Support Specialist (GSS); Financial Officer (FO); and Financial Support Staff (FSS). All roles can do the following: enter applications, amendments, and reports, view awards, and view and create notes. The ADO and the PI/PD roles can also submit applications, amendments, and reports. The FO role can also submit reports. At a minimum, registered organizations must assign someone to the ADO and PI/PD roles. For more information, see the GrantSolutions Recipient Training and FAQs web page. For GrantSolutions registration, submission, and other assistance contact their Customer Support by telephone at 1-866-577-0771 or by email at help@grantsolutions.gov.

Applicants must be registered in the System for Award Management before attempting to register in GrantSolutions. If you experience problems registering or submitting an application in GrantSolutions, you may be granted a waiver. If you wish to seek a waiver, you must submit supporting documentation to demonstrate the issues you are experiencing. Documentation may include computer screenshots showing error messages or email communication with the GrantSolutions Help Desk attempting to resolve the issue. The request must be submitted at least **three** days before the submission deadline. Please send your waiver request to DIC_GRANTS@fws.gov.

E. Application Review Information

E1. Criteria

Merit Review Criteria

Proposals will be evaluated and scored on how well each addresses program priorities and the requested proposal elements. High priority, well-justified projects that address all of the requested proposal elements will receive higher scores. The Service will consider the following *criteria* in evaluating proposals:

1. **Likelihood of conservation impact** in support of the Service Africa Great Ape Program goal and objectives outlined in Section A, specifically:
 - To what degree the proposed project is likely to contribute to one or more of the following:
 - reduced threats to ape populations and habitats;
 - scientific data needed to guide future conservation efforts and adequately articulates how that data will be made available;
 - strengthening individual and organizational conservation capacity;
 - Whether the objectives have incorporated desired results;
2. **Capacity of the applicant organization and staff to implement the project**, including:
 - Whether the proposal demonstrates the applicant’s ability to implement the proposed activities effectively (e.g. activities are logistically feasible, adequately resourced, achievable within the designated time frame, and under the authority of the applicant);
 - Whether the proposal is clear, concise, and complete;
 - Whether the proposal provides sufficient detail regarding relevant qualifications and institutional policies of the applicant, including experience of key personnel;
 - If applicable, whether the applicant has received a positive record of accomplishment with the Service based on previous grant support;
 - The degree to which the project has authority over the project operations and staff;
3. **Evidence of collaboration with or inclusion of key stakeholders**, including host country governments and impacted indigenous peoples and local communities.
 - Whether the project demonstrates that it has considered both positive and negative impacts on stakeholders and appropriately incorporated such into objectives and activities;
 - Where relevant, whether the application references specific consultation, input, facilitation, or participatory activities with stakeholders;
 - Whether the proposal has sufficient detail regarding coordination of project activities with similar, ongoing, or planned activities of other stakeholders.

The Service may also consider the following *sub-criteria* to break ties and further distinguish between applications with equivalent scores:

- Inclusion of matching funds

E2. Review and Selection Process

Prior to award, the program will review any applicant statement regarding potential overlap or duplication between the project to be funded and any other funded or proposed project in terms of activities, funding, or time commitment of key personnel. Depending on the circumstances, the program may request modification to the application, other pending applications, or an active award, as needed to eliminate any duplication of effort, or the FWS may choose not to fund the selected project.

Prior to award, the program will conduct and document a review of the proposed budget to ensure figures are calculated correctly, proposed costs are clearly linked to the project narrative and seem necessary and reasonable, no obviously unallowable costs are included, costs requiring prior approval are identified and described, indirect cost are applied correctly, and any program match or cost share requirements are addressed.

The program may not make a Federal award to an applicant that has not completed the SAM.gov registration. If an applicant selected for funding has not completed their SAM.gov registration by the time the Bureau is ready to make an award, the program may determine that the applicant is not qualified to receive an award. The program can use that determination as a basis for making an award to another applicant.

Prior to award, the program will evaluate the risk posed by applicants as required in [2 CFR §200.206](#). Prior to approving awards for Federal funding in excess of the simplified acquisition threshold (currently \$250,000), the Bureau is required to review and consider any information about or from the applicant found in the Federal Awardee Performance and Integrity Information System. The Bureau will consider this information when completing the risk review. The Bureau uses the results of the risk evaluation to establish monitoring plans, recipient reporting frequency requirements, and to determine if one or more of the specific award conditions in [2 CFR §200.208](#) should be applied to the award.

The Service's International Affairs program evaluates proposals by scoring how well each proposal addresses the program priorities and the requested elements listed in the E1. Criteria section above. Programs MUST ensure that: (1) applications are reviewed and evaluated by qualified reviewers; (2) applications are scored and selected based on announced criteria and sub-criteria; (3) consideration is given to applicant risk and past performance; (4) competitive applications are ranked; and (5) funding determinations are made. Programs must establish an evaluation plan comprised of five basic elements: (1) merit review criteria and subcriteria; (2) a rating system for competitive applications (e.g., adjectival, color coding, numerical, or ordinal); (3) evaluation standards or descriptions which explain the basis for assignment of the various rating system grades/scores; (4) program policy factors; and (5) the basis for selection.

The following describes the review and selection process:

1. **Initial Program Officer review for minimum programmatic requirements:** After submission, each proposal will be reviewed by the relevant Program Officer to ensure that the proposal meets minimum programmatic requirements before advancing to the merit review. The minimum programmatic requirements are listed in Section E1. Criteria. The Program Officer will share with the merit review panel any proposals that did not

meet minimum programmatic requirements and the reasons why, and the panel will have an opportunity to discuss.

2. **Recruitment of merit review panel:** Prior to convening a merit review panel, a Service Program Officer will identify, recruit, and receive approval for each reviewer on the merit review panel. A minimum of five U.S. Government employees are required for each panel: at least three merit reviewers, one panel chair, and one recorder. Only permanent U.S. Government staff may score proposals. Prior to participating in any review or evaluation process, all staff and peer reviewers, evaluators, panel members, and advisors must sign and return to the program office Point of Contact the “Department of the Interior Conflict of Interest Certification” form. By signing this form, the reviewer certifies that they have no conflict of interest or that the reviewer agrees to recuse themselves from scoring or commenting on proposals for which they have a conflict of interest or appearance thereof. This form must be signed and filed before a reviewer can participate in the merit review panel. For a copy of this form, contact the Service Point of Contact identified in the Agency Contacts section below. If any Service staff contributed to the development of the cooperative agreement, they must recuse themselves from being a scoring member of the review panel.
3. **Merit review to evaluate the proposal for funding:** The application will then be reviewed by the approved merit review panel with specific subject area and/or regional expertise. The Service may also solicit technical advice from qualified U.S. Government experts to provide additional information during the panel review and/or discuss the proposal with known past and present partners who are relevant technical experts to verify project feasibility and to encourage coordination and collaboration among projects on the ground.
4. **Preliminary scoring:** After reading the proposal, reviewers will individually assign a 1-3 score to the application, based on the degree to which the application addresses the priorities and anticipated objectives listed above, the completeness of the proposal, and the degree to which it demonstrates the capacity to implement the program. The scoring system is as follows:
 - Category 1: Fund. Excellent proposal with no issues or revisions needed. Important, critical, compelling, high-priority project and proposal meets all program requirements. Minor revisions are allowed before funding is finalized.
 - Category 2: Fund with Revisions. Proposal is acceptable but requires revisions in order to adequately meet program requirements. Applicant may resubmit with revisions, addressing the review panel’s concerns and conditions.
 - Category 3: Do Not Fund. Proposal does not adequately address goals, objectives, and desired outcomes as stated in the Notice of Funding Opportunity. Is unlikely to achieve the desired impact, and/or proposal has other fundamental issues or problems that make it unsuitable for this program.
5. **Consensus scoring and ranking:** Each panel reviewer submits their individual scores to the panel chair prior to the review. The panel chair will organize the scores to identify

trends and areas of alignment amongst the reviewers. These trends and areas of alignment may be used to facilitate the panel discussion (i.e., the highest ranked proposals may get discussed first). During the review, the panel will discuss the proposal and agree on a consensus score using the same 1-3 scoring system above. The panel recorder will document any pertinent discussion items that demonstrate how a panel reached consensus to provide sufficient support for the consensus score. Ultimately, it is the consensus score of the review panel that will determine whether the proposal is recommended for award. The Service will attempt to fund all projects in the highest ranked category (Category 1). If available funding is insufficient to fund them all, proposals within the highest ranked category will be further ranked, then funded in order of that ranking.

USAID Mission Concurrence: Applications recommended for funding by the Service’s merit review panel must receive concurrence by the relevant USAID Mission(s) before award in accordance with USAID Automated Directives System (ADS) 201.3.3.6.

Proposal revisions: Following review, applicants whose proposals scored a Category 1 or a Category 2 in merit review may be asked to provide revisions to the project scope and/or budget before an award is made. Applicants whose project is recommended for funding may be asked to demonstrate financial capabilities to manage Federal funds in accordance with standards set in [2 CFR 200.302 Financial management](#).

Communication of funding decisions: Successful applicants will receive an official Notice of Award sent via GrantSolutions. Unsuccessful applicants will receive an email from the Program Officer stating that the application was not recommended for funding. If the proposal was not recommended for funding, the applicant may request feedback (via the Program Officer) from the merit review panel. Funding decisions are typically made within 180 days. If we have not contacted you regarding our funding decision within 180 days, you may contact the Service Program Officer using the contact information in section G.2.

E3. CFR – Regulatory Information

See the [Service’s General Award Terms and Conditions](#) for the general administrative and national policy requirements applicable to Service awards. The Service will communicate any other program- or project-specific special terms and conditions to recipients in their notices of award.

E4. Anticipated Announcement and Federal Award Dates

F. Federal Award Administration Information

F1. Federal Award Notices

See the [DOI Standard Terms and Conditions](#) for the administrative and national policy requirements applicable to DOI awards.

See the [Service's General Award Terms and Conditions](#) for the general administrative and national policy requirements applicable to Service awards.

Buy America Provision for Infrastructure: Required Use of American Iron, Steel, Manufactured Products, and Construction Materials

As required by Section 70914 of the Infrastructure Investment and Jobs Act ([Pub. L. 117-58](#)), on or after May 14, 2022, none of the funds under a federal award that are part of a Federal financial assistance program for infrastructure may be obligated for a project unless all the iron, steel, manufactured products, and construction materials used in the project are produced in the United States, unless subject to an approved waiver. Recipients conducting infrastructure projects under the award must include related requirements all subawards, including all contracts and purchase orders for infrastructure work or products under this program. For the full text term applicable to infrastructure and related waiver request standards and procedures, see the [Service's General Award Terms and Conditions](#).

Applications awarded under this announcement will be funded through a Participating Agency Program Agreement between the Service and the United States Agency for International Development, Bureau for Development, Democracy, and Innovation. The Activity Title of the Agreement is Critical Capacity Partnership signed on August 17, 2021. Recipients are subject to the special terms and conditions outlined below:

1. Special Reporting and Information

Per the PAPA, the Service will contact the recipient to obtain the following information:

a. USAID Biodiversity Standard Indicator Reporting

Recipients must report on up to six USAID standard indicators, as applicable to each award, annually on or before September 30. The Service will provide the Performance Indicator Reference Sheet (PIRS) describing the indicators, including acceptable measurement methods and disaggregation. Results during each U.S. federal fiscal year (October 1 through September 30) are aggregated with results of similar partnerships to better communicate the scale and impact of FWS-managed and Agency-wide USAID conservation programs. Standard indicators are not a substitute for activity-specific measures useful for adaptive management and learning.

- b. Eliminate, Neutralize and Disrupt (END) Wildlife Trafficking Act Reporting
USAID and the Service are key members of the U.S. Task Force on Wildlife Trafficking, responsible for implementation of the END Wildlife Trafficking Act. Reporting on indicators related to wildlife trafficking response or status in END Act Focus Countries may be requested.

2. Special Provisions – Co-branding and Co-marking

All projects, activities, public communications, and commodities funded partially or fully by USAID are subject to the Service and USAID co-branding and co-marking standards and requirements. The use of the Service and USAID names and the reproduction of the logos on any garment, piece of equipment, commemorative item or other object, or within a publication, media event, or in conjunction with an event or other activity, when the use is essentially a public service and will contribute to the educational and conservation program must request and receive approval from the Service for co-branding and co-marking. To obtain the necessary approval, a written email request to the Service program is required. The email request should include entity's name, address, full description of item/s to carry the logos, how the item or name will be used, presented and/or distributed.

If the request is approved by the Service, the recipient must follow USAID's branding and marking guidelines available at <https://www.usaid.gov/branding> and follow the Service's instructions for use of the Service logo.

3. Data and Information Products

2 CFR 200.315 applies to all data and information products generated with federal financial assistance. Data and information products under this award should generally be publicly available and actively shared with appropriate international, national, and regional platforms and networks, in order to maximize their conservation and other development value. Data or information products that are law-enforcement-sensitive, that could put individual people, places or wildlife at risk, or that only serve time-limited project management purposes should not be made public or otherwise shared with those lacking a need to know.

4. Special Provisions – Compliance with USAID Policy Guidance

- a. USAID 2020 Gender Equality and Women's Empowerment Policy:
<https://www.usaid.gov/policy/gender-equality-womens-empowerment>.

It is expected that activities carried out under this award do not disadvantage women and give consideration to how to address disadvantages women often face in developing countries. Progress reporting and monitoring and evaluation exercises must include sex-disaggregated data for all people-level indicators. The Service may, as it deems warranted, conduct gender analyses to inform the development, implementation, and adaptation of activities under this award. The Service will inform the recipient of any such gender analyses relevant to the award, as well as expectations for incorporating the analyses' recommendations into the activity.

b. USAID Policy on Promoting the Rights of Indigenous Peoples

If it is determined by the Service that Indigenous Peoples may be stakeholders to an activity, the recipient should comply with USAID's Policy on Promoting the Rights of Indigenous Peoples, April 2020: <https://www.usaid.gov/policy/indigenous-peoples>. The recipient should apply principles related to analysis, engagement, safeguards, and partnership in order to respect and strengthen Indigenous Peoples' rights and development.

5. Special Provisions – Environmental Regulations

USAID environmental regulations codified in Federal Regulations (22 CFR 216) and in USAID's ADS Chapters 201 and 204 (<https://www.usaid.gov/about-us/agency-policy/series-200>), should be followed in order to ensure environmental and social safeguards are in place while executing the Program. An Environmental Mitigation and Monitoring Plan (EMMP) is required and has been completed, reviewed, and approved. The EMMP reflects environmental and social risks identified in the USAID/DDI Initial Environmental Examination (IEE), including a Climate Risk Assessment and social safeguards for work related to protected areas. Resources for understanding and applying protected area social safeguards are available at <https://biodiversitylinks.org/library/key-resources#parks>. If environmental and social risks identified in the IEE are applicable and the approved EMMP identifies mitigation actions, an Environmental Mitigation and Monitoring Report (EMMR) on the application of the EMMP must be submitted concurrent with project reporting. The Service will provide an EMMR reporting template if applicable.

6. Special Provisions - Support to Law Enforcement

a. This award may fund conservation efforts authorized under the Foreign Assistance Act that require working with or providing direct support to

entities meeting the definition of “foreign security force,” which may include law enforcement personnel, park rangers, police, or customs officials. However, the Leahy Law prohibits assistance to security forces known to have committed a gross violation of human rights. To apply the Leahy Law, the U. S. Department of State screens individuals and units intended to receive assistance before the commencement of any support. All forms of support to a foreign security force, including provision of training, workshop participation, technical assistance, and direct purchase of material or equipment, are subject to vetting for any record of human rights violations (i.e., “Leahy vetting”).

- b. Leahy vetting must be completed in advance of assistance being delivered. The Service will provide the necessary form to the recipient; the form should be completed and returned to the Service at least 30 business days before the applicable training or assistance activity will take place. The recipient must encrypt the form before emailing it to protect Personally Identifiable Information (PII). Individuals or units that have passed this screening are eligible to receive assistance for up to one year before being vetted again.
- c. Any anticipated support for law enforcement not previously identified in the application must first be approved by the Service as part of a scope of work change prior to implementation of such support under this award.

7. Special Provisions - Investment Promotion

- a. No funds or other support provided under this award may be used in a project or activity reasonably likely to involve the relocation or expansion outside of the United States of an enterprise located in the United States if non-U.S. production in such relocation or expansion replaces some or all of the production of, and reduces the number of employees at, said enterprise in the United States.
- b. No funds or other support provided under this award may be used in a project or activity, the purpose of which is the establishment or development in a foreign county of any export processing zone or designated area where the labor, environmental, tax tariff, and safety laws of the country would not apply, without prior written approval of USAID. The recipient must contact the Service to obtain USAID approval.
- c. No funds or other support provided under this award may be used in an activity that contributes to the violation of internationally recognized

rights of workers in the cooperating country, including those in any designated zone or area in that country.

8. Special Provisions - Eligible Countries

This award is issued with funds appropriated under the Foreign Assistance Act and such funds will only be expended for assistance to countries eligible for assistance under the Foreign Assistance Act of 1961, as amended, or under acts appropriating funds for foreign assistance.

9. Special Provisions – Country-level Coordination

The Service has obtained concurrence from the relevant USAID Mission(s) where the award will be implemented. Any required or encouraged specific conditions related to in-country coordination with the relevant USAID Mission(s) that go beyond routine coordination and information sharing are included in the special conditions section of this award.

10. Special Provision – Source and Commodities

- a. In accordance with 22 CFR Part 228 and USAID ADS Chapter 310 and 312, suppliers of commodities and services financed under this award are authorized from country code 935. Country code 935 is defined as the United States, the Cooperating Country, and developing countries other than advanced developing nations, and excluding prohibited sources. A list of these countries is available at ADS 310 (<https://www.usaid.gov/ads/policy/300/310>)
- b. If the Service approved the recipient’s purchase of a motor vehicle under this award, the recipient is authorized to purchase or lease a vehicle manufactured outside the United States, as the requirement in 22 CFR 228.19(b) has been waived.
- c. The Service may authorize the source and nationality of a procurement under this award in a country other than as specified in this section, only if:
 - i. The procurement is of commodities or services of a type that is not produced in and available for purchase in any country authorized under this award; or
 - ii. The Service determines in writing on a case-by-case basis that procurement in such other country is necessary (a) to meet unforeseen circumstances, such as emergency situations, or (b) to promote

efficiency in the use of U.S. foreign assistance resources, including to avoid impairment of foreign assistance objectives.

- iii. The authorization for procurement under this paragraph must be in writing and must set forth the basis for the authorization. The recipient must seek written authorization from the Service before making such purchases.

11. Special Provisions – Other Agreements

1. In each Cooperating Country in which a framework economic assistance bilateral agreement governing privileges, immunities, and tax exemptions of USAID-financed personnel, entities, and commodities is not in effect, the Service, with the assistance of USAID and, if necessary, the United States Embassy in the Cooperating Country, will seek to obtain for its personnel, contractors, and recipients as well as for any commodities financed under this Agreement, exemptions from taxes, duties, and fees that may be imposed by the Cooperating Country with respect to activities or transactions financed under this Agreement.
2. Funds provided by the Service to the recipient for this award must only be used for the purposes stated in this award. If such assistance is no longer needed for such purpose, the recipient must immediately notify the Service so the Service may determine, in coordination with USAID, if the funds may be used for other purposes.

12. Special Provisions – Commerce and Trade

1. No funds or other support provided under this Agreement may be used for any testing or breeding feasibility study, variety improvement or introduction, publication, conference, or training in connection with the growth or production in a foreign country of an agricultural commodity for export which would compete with a similar commodity grown or produced in the United States: provided that this shall not prohibit (a) activities designed to increase food security in developing countries where such activities will not have a significant impact in the export of agricultural commodities of the United States; or (b) research activities intended primarily to benefit United States producers.
2. No funds or other support provided under this Agreement may be used to (a). Procure directly feasibility studies or pre-feasibility studies for, or project profiles of potential investment in, the manufacture, for export to the United States or to third country markets in direct

competition with United States exports, of import-sensitive articles as defined by 19 U.S.C. 2463 (b) (1) (A) and (E)); or

- (b). Assist directly in the establishment of facilities specifically designed for the manufacture, for export to the United States or to third-country markets in direct competition with United States exports, of import-sensitive articles as defined by 19 U.S.C. 2463 (b) (1) (A) and (E)).

13. Special Provisions – Visa Compliance for Exchange Visitors

Any activities financed under this award that include the travel of foreign nationals to the United States must comply with USAID ADS 252.

14. Special Provisions – Audits

This award is subject to audit and inspection by authorized U.S. Government officials. For awards to non-U.S. nongovernmental organizations, if the recipient receives \$750,000 or more per year in Service awards in their fiscal year, the recipient agrees that it will have an independent financial audit of the funds provided under such awards. The financial audit of the funds disbursed to the recipient will determine whether the receipt and expenditure of the funds provided under the grant are in accordance with generally accepted accounting principles and whether the recipient has complied with the terms of the Agreement. An audit must be conducted for each fiscal year of the recipient. The audits must usually be performed annually, but not less frequently than every two years. The audits must be performed in accordance with generally accepted government auditing standards issued by the Comptroller General of the United States (<https://www.gao.gov/yellowbook>). Non-U.S., nongovernmental organizations receiving less than \$750,000 per year are exempt from the financial audit requirements but are subject to the requirement to make records available upon request for review by authorized U.S. Government officials. The results of such audits must be submitted to the Service Program Officer identified in the Notice of Award.

15. Special Provisions – Books and Records

The recipient must maintain books and records related to the award in accordance with generally accepted accounting principles as formally prescribed by the United States, the Cooperating country, or the International Accounting Standards Committee (an affiliate of the International Federation of Accountants). Such books and records of the recipient for this award may

be audited by the Service, USAID, or other authorized U.S. Government officials for a period of three (3) years from the expiration of the award.

16. Special Provisions – Section 487 (Drug Trafficking and Other Offenses)
No assistance may be provided under this award to or through any individual or entity where the U.S. Government has reason to believe that the individual, the entity or a “key individual” of the entity is or has been involved in “drug trafficking activities” (including “money laundering”) (all quoted terms in this clause having the meanings given them in Section 487 of the Foreign Assistance Act of 1961 as amended and USAID ADS Chapter 206). The Service reserves the right to terminate this award or take other appropriate measures if the recipient or a key individual of the recipient is found to have been convicted of a narcotic offense or to have been engaged in drug trafficking as defined in 22 CFR Part 140.

F3. Reporting

Financial Reports

All recipients must use the [SF-425, Federal Financial Report](#) form for financial reporting. At a minimum, all recipients must submit a **final** financial report. Final reports are due no later than 120 calendar days after the award period of performance end date or termination date. For awards with periods of performance longer than 12 months, recipients are required to submit **interim** financial reports on the frequency established in the Notice of Award. The only exception to the interim financial reporting requirement is if the recipient is required to use the SF 270/271 to request payment and requests payment at least once annually through the entire award period of performance. We will describe all financial reporting requirements in the Notice of Award.

Non-Construction Performance Reports

Performance reports must contain a comparison of actual accomplishments with the established goals and objectives of the award; a description of reasons why established goals was not met, if appropriate; and any other pertinent information relevant to the project results. **Final** reports are due no later than 120 calendar days after the award period of performance end date or termination date. For awards with periods of performance longer than 12 months, recipients are required to submit **interim performance** reports on the frequency established in the Notice of Award.

Construction Performance Reports

For construction awards, onsite technical inspections and certified percentage of completion data may be relied on to monitor progress for construction. Additional performance reports for construction activities may be required only when considered necessary. However, awards that include both construction and non-construction activities require performance reporting for the non-construction activities. See [2 CFR§200.329](#) for more information. The USFWS will describe all performance reporting requirements in the Notice of Award.

Significant Development Reports

Events may occur between the scheduled performance reporting dates which have significant impact upon the supported activity. In such cases, recipients are required to notify the Bureau in writing as soon as the recipient becomes aware of any problems, delays, or adverse conditions that will materially impair the ability to meet the objective of the Federal award. This disclosure must include a statement of any corrective action(s) taken or contemplated, and any assistance needed to resolve the situation. The recipient should also notify the Service in writing of any favorable developments that enable meeting time schedules and objectives sooner or at less cost than anticipated or producing more or different beneficial results than originally planned.

Real Property Reports

Recipients and subrecipients are required to submit status reports on the status of real property acquired under the award in which the Federal government retains an interest. The required frequency of these reports will depend on the anticipated length of the Federal interest period. The Bureau will include recipient-specific real property reporting requirements, including the required standard form or data elements, reporting frequency, and report due dates, in the Notice of Award when applicable.

Conflict of Interest Disclosures

Per 2 CFR §1402.112, non-Federal entities and their employees must take appropriate steps to avoid conflicts of interest in their responsibilities under or with respect to Federal financial assistance agreements. In the procurement of supplies, equipment, construction, and services by recipients and by subrecipients, the provisions in [2 CFR §200.318](#) apply. Non-Federal entities, including applicants for financial assistance awards, must disclose in writing any conflict of interest to the DOI awarding agency or pass-through entity in accordance with [2 CFR §200.112](#). Recipients must establish internal controls that include, at a minimum, procedures to identify, disclose, and mitigate or eliminate identified conflicts of interest. The recipient is responsible for notifying the Service Project Officer identified in their notice of award in writing of any conflicts of interest that may arise during the life of the award, including those that reported by subrecipients. The Service will examine each disclosure to determine whether a significant potential conflict exists and, if it does, work with the applicant or recipient to develop an appropriate resolution. Failure to resolve conflicts of interest in a manner that satisfies the government may be cause for termination of the award.

Other Mandatory Disclosures

The Non-Federal entity or applicant for a Federal award must disclose, in a timely manner, in writing to the Federal awarding agency or pass-through entity all violations of Federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the Federal award. Non-Federal entities that receive a Federal award including the terms and conditions outlined in 2 CFR 200, Appendix XII—Award Term and Condition for Recipient Integrity and Performance Matters are required to report certain civil, criminal, or administrative proceedings to SAM. Failure to make required disclosures can result in any of the remedies for noncompliance described in 2 CFR §200.339, including suspension or debarment.

Reporting Matters Related to Recipient Integrity and Performance

If the total value of your currently active grants, cooperative agreements, and procurement contracts from all Federal awarding agencies exceeds \$10,000,000 for any period of time during the period of performance of this Federal award, then you as the recipient during that period of time must maintain the currency of information reported to the [System for Award Management](#)

that is made available in the designated integrity and performance system (currently the [Federal Awardee Performance and Integrity Information System](#)) about civil, criminal, or administrative proceedings in accordance with [Appendix XII to 2 CFR 200](#).

H. Other Information

Payments

Domestic recipients are required to register in and receive payment through the U.S. Treasury's Automated Standard Application for Payments (ASAP), unless approved for a waiver by the Service program. Foreign recipients receiving funds to a final destination bank outside the U.S. are required to receive payment through the U.S. Treasury's International Treasury Services (ITS) System. Foreign recipients receiving funds to a final destination bank in the U.S. are

required to enter and maintain current banking details in their SAM.gov entity profile and receive payment through the Automated Clearing House network by electronic funds transfer (EFT). The Bureau will include recipient-specific instructions on how to request payment, including identification of any additional information required and where to submit payment requests, as applicable, in all Notices of Award.

PAPERWORK REDUCTION ACT STATEMENT:

OMB Control Number: 1018-0100

Per the Paperwork Reduction Act of 1995 (PRA; 44 U.S.C. 3501 et seq.), the U.S. Fish and Wildlife Service (Service) collects information in accordance with program authorizing legislation to conduct a review and select projects for funding and, if awarded, to evaluate performance. Your response is required to obtain or retain a benefit. We may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Privacy Act Statement: This information collection is authorized by 5 U.S.C. 5701 et seq. The information provided will be used to administer all Service financial assistance programs and activities including to: (1) determine eligibility under the authorizing legislation and applicable program regulations; (2) determine allowability of major cost items under the Cost Principles at 2 CFR 200; (3) select those projects that will provide the highest return on the Federal investment; and (4) assist in compliance with laws, as applicable, such as the National Environmental Policy Act, the National Historic Preservation Act, and the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970. This information may be shared in accordance with the Privacy Act of 1974 and the routine uses listed in INTERIOR/DOI-89, Grants and Cooperative Agreements: FBMS - 73 FR 43775 (July 28, 2008). Furnishing this information is voluntary; however, failure to provide all requested information may prevent the Service from awarding funds.

Estimated Burden Statement: We estimate that it will take you on average about 40 hours to complete an initial application, about 3 hours to revise the terms of an award, and about 8 hours per report to prepare and submit financial and performance reports, including time to maintain records and gather information. Actual times for these activities will vary depending on program-specific requirements. Direct comments regarding the burden estimates or any other aspect of the specific forms to the Service Information Clearance Officer, USFWS, U.S. Department of the Interior, 5275 Leesburg Pike, MS: PRB (JAO/3W), Falls Church, VA 22041-3803, or by email to Info_Coll@fws.gov.
