

Additional comments

Local regulations provide that the Scientific Authority and the Management Authority shall advise the Minister for the Environment to prohibit the trade (import, export and re-export) and the possession of any species of flora and fauna if in their opinion, or in the opinion of any of them, such trade or possession would endanger the biological identity or any ecosystem or any species of flora and fauna.

It also provides that it is the responsibility of the person who is seeking to import or is in possession of any live specimen to obtain the necessary information from the Management Authority.

Furthermore, any person who would like to import any specimen of fauna from outside the European Community requires the prior grant of an import licence. Before any such import licence is granting for any live specimen, the CITES Management Authority consults with the Scientific Authority regarding the above.
