8	If Yes, which one(s) and in what way?	
9	Has your country provided technical or financial assistance to another country in relation to CITES?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> No information <input type="checkbox"/>
10	If Yes, which country(ies) and what kind of assistance was provided? Enforcement training (Indian forestry officials and Polish enforcement officers) CITES & plants issues (Trinidad and Tobago), general CITES plants enquiries from EU member states . UKBA enforcement have provided CITES enforcement training (including working with the UKSA on technical training on timber issues) in Poland x 2, Romania x 2, Slovakia x 2, Cayman Islands and China. As part of the UK/India Sustainable Development Dialogue (SDD) Defra has contributed financially to the development of a training plan for Indian wildlife law enforcers including a module on illegal trade in CITES specimens. SDD funding was also made available to fund an exchange trip of Indian officials to the UK to exchange good practice and gain knowledge of CITES implementation in the UK.

D8 Areas for future work

1	Are any of the following activities needed to enhance effectiveness of CITES implementation at the national level and what is the respective level of priority?			
	Activity	High	Medium	Low
	Increased budget for activities	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
	Hiring of more staff	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Computerisation	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
Other (specify)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
2	Has your country encountered any difficulties in implementing specific Resolutions or Decisions adopted by the Conference of the Parties?	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	No information <input type="checkbox"/>
3	If Yes, which one(s) and what is the main difficulty? Implementation of the personal effects derogation which UKBA think that whilst the regulations are understood by those who deal with CITES on a day-to-day basis they are not by the vast majority of customs officers who have to enforce them.			
4	Have any constraints to implementation of the Convention arisen in your country requiring attention or assistance?	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	No information <input type="checkbox"/>
	Kew – identification of certain species, in particular timber species listed under CITES			
5	If Yes, please describe the constraint and the type of attention or assistance that is required. Kew - difficult to identify individual species in trade. More research necessary to improve identification techniques e.g. DNA tests			
6	Has your country identified any measures, procedures or mechanisms within the Convention that would benefit from review and/or simplification?	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	No information <input type="checkbox"/>
7	If Yes, please give a brief description. Personal effects derogation, needs refining and clear guidance as it is complicated and difficult to understand. Annotations need clearer guidance, some enforcement officers find some of them confusing The definition of worked specimens is unclear with different countries having different ideas of what is worked, clear guidance is needed.

In April 2007 CITES team officer attended a Police and Customs CITES coordinators training workshop in Goniadz, Poland organised by WWF Poland. Gave presentations on four CITES enforcement related subjects including working with experts and rehoming of CITES species (an escalating problem it would seem) and the development of the NWCU. This was a follow up to two previous training events given by HMRC in Poland; it was further evidence of the positive work undertaken by both the Police and Customs services in Poland.

In May 2007 a CITES team officer attended a CITES Enforcement training event in Cluj-Napoca, Romania organised by WWF Hungary. As the joint trainer on the event he presented all the enforcement related sessions and exercises.

In May 2007 Customs CITES Team hosted a day visit to Heathrow Animal Reception Centre from Devon & Cornwall Police Wildlife Officers. CITES awareness training event also provided.

In June 2007 two CITES Team officers attended and provided a presentation at the Defra Wildlife Inspectors conference in Tulliallan.

In July 2007 Heathrow CITES Team officers provided CITES Upskilling/awareness event for fifteen red-point staff at Heathrow.

In September 2007 HMRC CITES team officers provided CITES awareness training to UK Police officers during the Police Wildlife Crime Officers course at Wethersfield

In October 2007 HMRC CITES team officer based at Heathrow Airport was a member of the EU Commission (Taiex) sponsored training delivery team. Working with a colleague from the CITES Management Authority of Germany a two day CITES enforcement seminar was provided for frontline Slovakian Customs officers and Customs Investigation officers who have a responsibility for enforcing the EU Wildlife Trade Regulations at the European Union external borders.

In February 2008 HMRC CITES team officer based at Heathrow Airport working in partnership with the UK Scientific Authority for flora (Royal Botanic Gardens, Kew) designed and delivered the first structured CITES timber enforcement course to

approximately 30 Polish frontline Customs and Police officers and staff from the Polish Customs laboratory. The two day timber course formed part of the Traffic Poland sponsored Polish Enforcement officers training week.

In March 2008 Officers from HMRC CITES team based at Heathrow in conjunction with the Warwickshire Police Wildlife Officer managed and delivered a five day CITES enforcement course hosted by the UK Scientific Authority for Flora at Kew Gardens. The event included modules covering legislation, enforcement techniques, Document fraud, Health and Safety, Wildlife forensics and identification. The course was attended by both Police and Customs staff responsible for enforcing both the EU and domestic wildlife legislation.

In April 2008 HMRC CITES team officer based at Heathrow Airport was a member of the EU Commission (Taiex) sponsored training delivery team. Working with a colleague from the CITES Management Authority of Germany a two day CITES enforcement seminar was provided for Slovakian National Police officers who have a responsibility for enforcing the EU Wildlife Trade Regulations.

In May 2008 HMRC CITES team officer based at Heathrow Airport was a member of the EU Commission (Taiex) sponsored training delivery team. Working with a colleague from the CITES Management Authority of Germany a two day CITES enforcement seminar was provided for officers from the Romanian Customs Service National Police officers who have a responsibility for enforcing the EU Wildlife Trade Regulations EU Wildlife Trade Regulations at the European Union external borders.

In May 2008 HMRC CITES Team Senior Officer based at Heathrow Airport was a member of the UK Foreign & Commonwealth Office sponsored training team to the Cayman Islands.

In September 2008 HMRC CITES team officers provided CITES awareness training to UK Police officers during the Police Wildlife Crime Officers course at Wethersfield

In November 2008 Officers from HMRC CITES team based at Heathrow in conjunction with the Warwickshire Police Wildlife Officer managed and delivered a five day CITES enforcement course hosted by the UK Scientific Authority for Flora at Kew Gardens. The event included modules covering legislation, enforcement techniques, Document fraud, Health and Safety, Wildlife forensics and identification. The course was attended by UK Customs staff responsible for enforcing both the EU and domestic wildlife legislation and enforcement officers from Poland.

In November 2008 CITES Team provided CITES an Upskilling event for 20 UK Border Agency red-point/Green channel officers at Heathrow.

In November 2008 eight UKBA/HMRC staff covering Operational, Investigative and policy disciplines attended the National PAW wildlife enforcement conference in Tulliallan Scotland. Two presentations were delivered and the UKBA CITES team co-delivered two workshops on CITES listed timber enforcement.

In December 2008 a member of the UKBA CITES Team at Heathrow represented the World Customs Organisation at a CITES training event for Customs officers hosted by the Chinese Customs authorities. CITES presentations covering a wide range of CITES enforcement topics were covered.

In December 2008 structured CITES awareness courses were delivered by the UKBA CITES team to UKBA anti-smuggling officers at Heathrow, informing the operational staff of current CITES trends, changes to legislation, methods of concealment and processing of CITES documentation.

In February 2009 an officer from the UKBA CITES team delivered a CITES lecture on "Joined up" UK CITES enforcement, CITES smuggling trends and the UK CITES Action plan at the University of Kent to approximately 50 degree level students and their lecturers.

In February 2009 The Detection Manager of the UKBA CITES Team attended the E-Commerce workshop in Canada as part of the UK delegation.

In March 2009 Officers from UKBA CITES team officers based at Heathrow managed and delivered a five day CITES enforcement course hosted by the UK CITES Scientific Authority for Flora at Kew Gardens. The event included modules covering legislation, enforcement techniques, Document fraud, Health and Safety, Wildlife forensics and identification. The course was attended by UK Border Agency staff and Police officers from across the United Kingdom responsible for enforcing the EU Wildlife Trade legislation. In addition the course was attended by three Police officers from Poland.

In March 2009 two UKBA CITES Team officers provided CITES enforcement awareness training and basic specimen identification to approximately 20 North Yorkshire Police wildlife officers during their annual course.

Commission Recommendations on wildlife crime enforcement (2007/425/EC) – UK Progress Report (2007/08)

II. Increase Enforcement Capacity	Responsibility	Desired outcome	Progress in 2007/08
a) Adopting national action plans for co-ordination of enforcement with clearly defined objectives and timeframes and should be harmonised and regularly reviewed.	Defra (in liaison with all)	An agreed UK enforcement action plan	Defra is currently preparing a draft UK enforcement action plan by assessing UK performance against Commission Recommendation 2007/425/EC and identifying where improvements could be made. Following a strategic assessment of wildlife crime in the UK, the UK National Wildlife Crime Unit, (NWCU), has identified 5 national wildlife crime conservation priorities. One of those is the illegal trade in CITES species. Working groups have been set up for each priority area and plans are being drawn up to tackle the key issues. The priorities will be reviewed annually.
b) Ensure that all relevant enforcement agencies have adequate financial and personnel resources for the enforcement of Regulation (EC) No 338/97 and that they have access to specialized equipment and relevant expertise	Defra, HMRC, Home Office. Police Service.	Adequately financed and resourced enforcement authorities.	A consistent problem within enforcement authorities is maintaining a high enough profile of wildlife crime when compared with drugs, terrorism etc and therefore attracting sufficient staffing and funding

			<p>resources. The establishment of a dedicated National Wildlife Crime Unit (NWCU) within the UK Police Service was a significant step and the Home Office and Defra have now each committed to contributing £150K to the NWCU, in the next three years. The Scottish Executive, Department of Environment (NI) and the Association of Chief Police Officers (ACPO) have also contributed funding.</p> <p>A move towards more use of Police Officers in regulatory bodies like Natural England and Defra's Animal Health Agency will strengthen enforcement effort.</p> <p>A CITES training course runs twice a year for Police and Customs officers. Ongoing training is provided, the CITES Team at Heathrow Airport and the Heathrow team has added an additional specialist post to develop computer risk profiles for high risk CITES items.</p>
c) Ensure that penalties for infringements of Regulation (EC) No 338/97 act as a deterrent against wildlife trade crime, in	Defra, Animal Health, HMRC,	Strong domestic legislation which	The Control of Trade in Endangered Species (Enforcement) Regulations

<p>accordance with settled case law of the Court of Justice, are consistent as to their application and, in particular, that they take into account <i>inter alia</i> the market value of the specimens, the conservation value of the species involved in the offence and the costs incurred</p>	<p>Home Office. Police Service, Ministry of Justice.</p>	<p>provides a deterrent against wildlife crime.</p>	<p>1985 (COTES) are currently under review by Defra.</p> <p>The Customs and Excise Management Act 1976 (CEMA) contains strong penalties (up to 7 years imprisonment and/or unlimited fine) with marketing/conservation value taken into consideration when sentencing.</p> <p>The Proceeds of Crime Act 2002 (POCA) is used as a matter of course in investigations.</p>
<p>d) Carry out training or awareness raising activities for enforcement agencies, prosecution services and the judiciary</p>	<p>Defra, Animal Health, HMRC, NWCU, KEW, JNCC. PAW</p>	<p>Regular training provided for enforcement agencies, prosecution services and the judiciary.</p>	<p>Joint Police and Customs CITES courses run regularly across UK for enforcers – normally two per year, the next one is planned November 2008. A week long foundation course for Police Wildlife Crime Officers runs two/three times each year.</p> <p>Awareness raising among prosecutors and judiciary is ongoing and a presentation was given at the Magistrates seminar.</p> <p>Other training and awareness raising events taking place in 2007/8 are the annual Open PAW Seminar for PAW partners, the Wildlife Enforcement</p>

			<p>Conference and a Wildlife Inspectors training seminar run by Animal Health. The UK scientific authorities (KEW, JNCC) regularly contribute towards these by giving presentations and running workshops.</p> <p>The England and Wales wildlife crime resource CD Rom which covers all types of wildlife crime was revised and distributed to wildlife law enforcers in July 2007</p>
e) Ensure that all relevant enforcement agencies have access to adequate training on Regulation (EC) No 338/97 and on identification of species	HMRC and the Police in liaison with Defra Animal Health, Kew (flora) and JNCC (fauna)	Regular training courses available on identification of species.	<p>UKMA together with Customs and scientific advisers have participated in a number of training programmes to assist enforcement and inspection staff in CITES awareness and understanding. UKMA together with Customs and TRAFFIC International are collaborating on production of an updated TAM identification guide.</p> <p>JNCC are working on various Identification guides including: coral and testudinids.</p>
f) Ensure the provision of adequate information to the public, stakeholders and at a political level with a view, in particular, to raising awareness about the negative impacts of illegal wildlife trade	Defra and Animal Health in liaison with PAW, HMRC, Police Service.	An agreed, co-ordinated and suitably funded Communications	UK has attended various trade shows (antiques, falconers, auctioneers, reptile, tropical aquaria) and has placed articles in trade press to

	KEW, JNCC	strategy on wildlife crime.	<p>improve the general CITES awareness amongst significant trade groups. Good interaction via regular meetings with traders – e.g. Sustainable User Network.</p> <p>HMRC regularly attends roadshows with CITES items being big crowd pullers.</p> <p>The PAW publicity working group continues to work towards raising awareness of wildlife crime generally and has recently updated a set of wildlife crime leaflets aimed at the general public. The working group oversees the PAW Roadshow trailer which visits a number of country shows each year. The trailer contains a number of CITES items and information.</p>
g) In addition to the checks at border-crossing points required under Regulation (EC) No 338/97, ensuring in-country enforcement, in particular through regular checks on traders and holders such as pet shops, breeders and nurseries	Police Service, Wildlife Inspectorate, HMRC/AH	Targeted, risk-based system of checks on key traders in place (internally).	UKMA has team of some 80 part time inspectors to carry out compliance checking. In addition work is currently under way to make better use of veterinary and other border inspection staff to carry out CITES checks. Police assist with Inspectorate and Borders Agency work.

			Local compliance staff are aware of CITES regime and will consult the CITES Heathrow Team if any potential irregularities are identified during inland controls of importers and exporters.
h) Use risk and intelligence assessments systematically in order to ensure thorough checks at border-crossing points as well as in-country	HMRC/NWCU	<p>Targeted, risk-based system of checks on key traders in place (at UK borders).</p> <p>Following the Strategic Assessment of wildlife crime carried out by NWCU, the illegal trade in CITES species was identified as an enforcement priority in 2007/08 and will continue to be a priority in 2008/09.</p>	<p>UKMA is participant to a UK government scheme to improve targeting and intelligence led inspection on regulatory programmes. All Enforcement Agencies use a risk based intelligence led approach – the National Intelligence Model (NIM) which applies across all areas of criminality that pose a threat to the UK. NWCU has continued to expand it's wildlife intelligence database and HMRC is continually developing computerised risk profiles to identify suspect transactions.</p>
i) Ensure that facilities are available for the temporary care of seized or confiscated live specimens and mechanisms are in	HMRC, Police Service, Wildlife	Adequate system in place to ensure	HMRC have access to temporary care, the Animal Reception Centre at

place for their long-term re-homing, where necessary.	Inspectorate Corporation of London, KEW	temporary care of seized specimens.	Heathrow. CITES Team has a network of contacts for re-homing and looking after seized animals. KEW provide support in the re-housing of seized flora

III. Increase co-operation and information exchange:	Responsibility	Desired outcome	Progress in 2007/08
a) Establish procedures for co-ordinating enforcement among all their relevant national authorities through, <i>inter alia</i> , the establishment of inter-agency committees as well as memoranda of understanding and other inter-institutional cooperation agreements	Defra, Animal Health, PAW, HMRC, Police Service. NWCU	Regular meetings between key enforcement stakeholders to coordinate action.	The PAW Steering Group meets three times a year where a number of working groups set up to consider specific issues report to the group. The PAW steering Group takes a strategic overview of wildlife law enforcement in the UK and consists of Police, Customs and other Government departments and agencies who have an interest in wildlife law enforcement. The UK has a High Level Group comprising enforcement and Government officials who are responsible for ensuring that progress is made in tackling the UK wildlife crime priorities. The group meets three times a year.
b) Facilitate access for relevant enforcement officers to existing resources, tools and channels of communication for the exchange of information relating to the enforcement of Regulation (EC) No 338/97 and CITES, so that all relevant information is made available to enforcement officers at all levels, including front line staff	Defra, Animal Health, HMRC, Police Service, NWCU, Interpol.	List of tools available (ie, EU TWIX) and regular awareness raising exercises.	The NWCU provide a conduit for intelligence reports/packages to be funnelled to the most appropriate enforcement agency. October 2008 – NWCU are currently

			creating a website with a functionality for a best practice web page which will have secure access for practitioners. This should be functioning by Spring 2009.
c) Identify and appoint national focal points for the exchange of wildlife trade information and intelligence	Defra (in liaison with all)	List of UK focal points in the various enforcement authorities	NWCU collate intelligence across UK from all sources including governmental, non-governmental and public sources on behalf of all law enforcement agencies.
d) Share relevant information about significant trends, seizures and court cases at the regular meetings of the Enforcement Group as well as inter-sessionally	Defra (in liaison with all)	System in place for gathering UK data prior to EWG meetings in Brussels.	This is done through the CITES enforcement delivery group working group which operates at the tactical level in support of the strategic priorities identified by NWCU Use of EU Twix to share information on significant seizures/cases. HMRC provide a UK overview at the EG High Level Group and other relevant partner agencies informed of analysis carried out by NWCU October 2008 – a monthly Newsletter

			is sent from NWCU to WCO's highlighting good work and points of interest including CITES issues
e) Co-operate with relevant enforcement agencies in other Member States on investigations of offences under Regulation (EC) No 338/97	HMRC, Police Service, Interpol	Regular sharing of information on investigations between enforcement agencies in other MS.	A meeting was held with the Netherlands where data sharing was discussed. Information is regularly provided through EU Twix; more detailed information requested when needed. When other EU countries are involved, enquires with other MS undertaken and information shared. NWCU in regular contact with EU enforcement agencies. Disseminations via SOCA and Interpol NWCU have attended the Interpol Wildlife Working Group meetings in previous years.
f) Use the means of communication, coordination and know-how of the European Anti-fraud Office in coordinating investigations at Community level	HMRC, Police Service	List of EAO contacts/information made available to UK enforcement agencies	Where identified, NWCU records international wildlife frauds
g) Exchange information on penalties for wildlife trade offences to ensure consistency in application; EN L 159/46 Official Journal of the European Union 20.6.2007	Defra through the Commission	UK process put in place to collate details of penalties applied for wildlife trade offences	The COTES Enforcement Review is underway any will consider penalties. NWCU could be tasked to collate information on penalties and produce regular reports – they effectively do this anyway.

			October 2008 – NWCU have started to collect information relating to outcomes, Defra and the Home Office to provide statistics.
h) Assist in capacity building for application of the Regulation (EC) No 338/97 in other Member States including through training programmes and by sharing training manuals and materials;	Defra, HMRC, Police Service, NWCU.	Generic enforcement training programmes, manuals available for use in other MS	Defra has funded the production of a generic training programme for enforcement officers under our Sustainable Development Dialogue with India. This could be adapted for use in the UK/EU. UKMA staff have assisted in TAIEX programme for accession states. CITES Team provide training to a number of EU member states.
i) Make available to other Member States, existing awareness-raising tools and materials aimed at the public and stakeholders;	Defra, Animal Health, Police, HMRC, NWCU, PAW, KEW, JNCC	Regular exchange of information on publicity materials (leaflets, posters, videos, websites)	Some of this has been carried out under the TAIEX programme (see above)
j) Assist other Member States with the temporary care and long-term re-homing of seized or confiscated live specimens;	Defra, Animal Health, HMRC, Police, Local Authorities?	Central EU list/database of expertise in temporary care/re-homing	CITES Team have used other MS to re-home live animals and in turn others have used the CITES Team. (This could be a risk in the context of conservation status of species involve, issues re animal/plant disease needs to be considered).
k) Liaise closely with CITES Management Authorities and law	Defra, HMRC,	A system in place for	The UK continues with international

<p>enforcement agencies in source, transit and consumer countries outside of the Community as well as the CITES Secretariat, ICPPO Interpol and the World Customs Organization to help detect, deter and prevent illegal trade in wildlife through the exchange of information and intelligence</p>	<p>Police Service, Interpol, WCO</p>	<p>regular international exchange of information on illegal trade</p>	<p>co-operation with INTERPOL, CITES International Secretariat and other forces over illegal caviar trading. Close collaboration continues with other countries when illegal CITES goods are found in transit and use controlled deliveries when possible. NWCU are in regular contact with other agencies throughout world. Intelligence is disseminated via SOCA and Interpol</p>
<p>I) Provide advice and support to CITES Management Authorities and law enforcement agencies in source, transit and consumer countries outside of the Community to facilitate legal and sustainable trade through correct application of procedures</p>	<p>HMRC, Police Service, Kew, JNCC</p>	<p>Availability of UK resources to provide capacity building in other CITES MAs.</p>	<p>UK have organised training events overseas and provided trainers to many more without charge. Provide prompt and reliable advice to UK Overseas Territories and Crown Dependencies on a regular basis, providing training as required. In 2007/8 we participated in two CITES workshops in the Cayman Islands and assisted Montserrat with preparations for a CITES Training workshop this financial year. Completed raptor project in Guinea, which included an element of capacity building in species identification and</p>

			survey techniques for local CITES Authorities.
m) Support capacity-building programmes in third countries in order to improve implementation and enforcement of CITES, <i>inter alia</i> , through Development Co-operation funds and in the framework of a future ‘Aid for Trade Strategy’ (1)	Defra and OGDs	Funding provided for capacity building initiatives.	Work with UK Overseas Territories e.g. Cayman Islands
n) Foster inter-regional collaboration to combat illegal wildlife trade <i>inter alia</i> by building links with other regional and sub-regional initiatives.	Defra (through the Coalition Against Wildlife Trafficking (CAWT) and the Enforcement Working Group (EWG)	Regular interaction with other MS and other CITES Parties.	The UK is a regular attendee at CAWT meetings including side events set up at major international meetings of CITES parties. The UK also attend the EU Enforcement Working Group meetings

IV. Information concerning the measures taken on the basis of this Recommendation should be transmitted to the Commission through the Bi-ennial Report process	Defra	Inclusion of progress report included in UK Biennial Report	October 2008 - NWCU to be asked to assist with biennial report on state of CITES crime across UK and a timetable for action needs to be agreed with Defra
