The **Republic of Moldova** provided detailed information on its progress in CITES national legislation which is now being translated into English to be officially presented in time to the CITES Secretariat.

The Moldavian Parliament elaborated and approved (1) the Law on Red Book of the Republic of Moldova No 325-XIV from 15 December 2005, (2) the Law for the Completion and Modification of the Law on Animal Kingdom No 439-XIII from 27 April 1995 (No 461 from 20.11.2003) (Official Monitor of the Republic of Moldova, No 1-5 from 01.01.2004), and (3) the Law on Fish Found and Conservation of the Aquatic Biological Resources (No 149 from 8 June 2006). These pieces of legislation provide that *“The import/export, re-export and transit of wild fauna animals, stipulated by the CITES Convention, are permitted only through the CITES permit/certificate, authorised by the CITES MA with the resolution of the CITES SA of the Republic Moldova”*.

The Moldavian Regulations for the Foundation, Register, Completion, Keeping, Export and Import of Wild Flora and Fauna Collection of Plants and Animals (Governmental Order No 1107 from 11 September 2003) provide that (Article 6) *“For the reason of the forming and completion of the plants and animals collection, that are protected according to the international requirements, the special acts are prepared (Environment permit for export/import of wild plants and/or animals, Permit/Certificate CITES) taking into account the national and international legislative procedures”*, and (Article 20) *“In case of animal or plant collection, that are protected through the rules of the CITES Convention for import and export (re-export) of parts and exhibits, a CITES permit/certificate is obliged to obtain.”*

Furthermore, the MA of the Republic of Moldova together with Central Customs Service emitted a common order No 19/90-01 from 14 Mach 2006, which established, through a mutual agreement, the border crossing points for the export, import and transition activities regulated by the CITES procedure and in accordance with the provisions of the international legal acts set up at the level of the EU, also considering the proposals of other stakeholders. On the basis of that *“For the customs offices at the border that are to be established, the local branches of the central authority in charge of managing natural resources and protecting the environment in cooperation with customs officers and with direct participation of the specialists from the territorial ecological agencies shall provide effective relevant control. The customs officers shall fill in the relevant blank spaces in the environment permit on export. The central authority in charge of managing natural resources and protecting the environment together with customs officers and other relevant bodies shall provide informative ads and billboards at all border crossing points.”*

The Moldavian Authorities elaborated also drafts of (1) a Law for Completion and Modification of the Code on Administrative Contravention, which will provide special regulations on protection and conservation of wild animal and plant species, and also provide administrative responsibilities on

animal and plant import/export activities, and (2) a Law on Vegetal Kingdom (it is elaborated by ministers and departments - to be sent to the Government).

The objective of the training was to give all authorities more deep knowledge about CITES, including how to control shipments and permits, main groups of species on CITES and EU Regulations. In total, 94 customs officers, 56 environmental inspectors have been trained and supplied with education material.

The MA of the **Republic of Moldova** participated at 4 training seminars for customs specialists, which were organized in the Customs Training Centre in Moldova. More than 120 specialists participated at the trainings.
